CWO 784X (CYBER)

DESIGNATOR DESCRIPTION

Cyber CWOs serve as technical leaders and managers in the field of cyberspace operations.

With skills forged through a rigorous joint Navy/Interagency training and certification process, every Cyber CWO possesses the ION qualification and is skilled at cyberspace operations. They plan and manage the employment of resources, systems, & manpower and the conduct of operations within the Cyber domain.

They also may serve as watch officers, planners, operational officers, mission commanders, and staff officers at major commands both ashore and afloat.
