**Process Name: NAVPERS 1070/602 Dependency Application/Record of Emergency Data Legacy SOP****Document ID: End to End****Document Owner:**

MNCC HRSC, Navy Personnel Command

**Approval:**

Navy Pay and Personnel Support Center (NPPSC)

**Revision Date:**

24-Apr-23

**PURPOSE:**

The purpose of this Standard Operating Procedure (SOP) is to provide a common process for Customer Commands and Transaction Service Centers (TSCs) to follow when processing NAVPERS 1070/602 (Dependency Application/Record of Emergency Data), commonly referred to as a Legacy Page 2.

**Roles / Responsibilities:**

- TSC/Personnel Office Clerk: The role of 'CLERK' as used in this SOP refers to a civilian Clerk, a contractor, or a Command Pay and Personnel Administrator (CPPA) authorized to \*create\* NSIPS transactions.
- TSC/Personnel Office Supervisor: The role of 'SUPERVISOR' refers to a civilian MILPERS or MILPAY Supervisor/Lead/Auditor or a senior Personnel Specialist who is normally designated as a TSC's person authorized to \*release\* NSIPS transactions.
- Note: "If the designated supervisor is not a MILPAY lead/auditor, then a TSC Deputy Disbursing Officer (DDO), or other senior designated pay/personnel service representative properly authorized will be required to audit NSIPS transactions and supporting documentation impacting military pay PRIOR to releasing them, so as to ensure accurate and correct DJMS information is transmitted for inclusion into the Master Military Pay Account (MMPA)."
- Command Leadership: CO/XO/CMC and key representatives (on large afloat command may include DHs, Dept LCPO, DIVOs, LCPOs, LPOs depending on organizational structure of the command)
- CPPA: Serves as the primary customer service link between command members and the supporting TSC or Regional Support Center (RSC). Duties and responsibilities are defined in MPM 1000-021. The term CPPA identifies personnel assigned the Navy Enlisted Classification (NEC) code of 791F, but for the purposes of this SOP may include Admin representatives who liaise directly with the ship's Personnel Office/TSC.
- Note: Recent and future NSIPS programming releases will continue to expand CPPA roles and capabilities within NSIPS. TSCAs such, CPPAs may accomplish TSC Clerk assigned steps within this SOP consistent with expanded NSIPS roles and capabilities and servicing TSC/FSC authorization.
- Service Member: A person serving in the Armed Forces who may be eligible for the entitlements listed in this SOP.

- Commands that have implemented NSIPS RED/DA should refer to Record of Emergency Data (RED) DD Form 93 and Dependency Application (DA) NAVPERS 1070/602 SOP. NAVADMIN 254/17 announced the phased implementation of self- service capability in the Electronic Service Record (ESR) within Navy Standard Integrated Personnel System (NSIPS) for processing emergency contact and dependency information. These new capabilities are interim enhancements to our legacy systems, while the new systems and processes of Sailor 2025 are finalized. Both RED and DA will reside within the NSIPS Electronic Service Record (ESR) module at <https://www.nsips.cloud.navy.mil/my.policy>.
- Additionally, refer to Ops Alert 002-22, Authorization of NAVPERS 1070/602 when RED/DA Application is NOT Available, for approved Exceptions to Policy (ETP), if applicable.
- In conjunction with NAVPERS 1070/602 update, Service Members should verify and update their Servicemembers' Group Life Insurance (SGLI)/Family SGLI (FSGLI) elections and beneficiaries and Defense Enrollment Eligibility Reporting System (DEERS) information, if applicable.
- Conduct verification of NAVPERS 1070/602 upon PCS departure; reporting to the new duty station; prior to deployment; annually; if there are any changes in dependents' or beneficiaries' information; when adding, changing, or modifying dependency status. In addition, it is important to verify Servicemembers' Group Life Insurance (SGLI) form and DEERS information when updating the Service Member's NAVPERS 1070/602.
- It is important for the Service Member to fully understand and properly identify individuals for Service Member designated benefits. ALL Service Members may designate ANY person of their choosing to receive Service Member designated benefits subject to Service Member's eligibility. A Service Member's failure to properly designate a person in a specific NAVPERS 1070/602 field or the Remarks field, as applicable, for a Service Member designated benefit, will default to an order of precedence established by the specific statute governing the particular benefit.
- Refer to MPM 1070-111, as required, to ensure NSIPS/ESR data is accurate and up-to-date when generating documents for submission to OMPF. Information should be verified by commands and/or activities responsible for required service record entries. When NSIPS/ESR data is missing or in error, commands and servicing personnel support offices shall assist the individual Service Member's effort to resolve the issue as soon as possible.
- Important Internal Control Action: MMPA verification steps within this SOP reflect important internal control actions that cannot be over-emphasized. This applies to the entire transaction process from its initiation and authorization through the final verification of the proper processing of the transaction in summary records. These particular SOP process steps are built-in management design control activities to ensure that all transactions are properly completed and accurately recorded.
- All personnel are required to comply with all PII/CUI policy guidance per required annual GMT. For further information, refer to the DON CIO website: <https://www.doncio.navy.mil/>.
