Process Name: NSIPS R&S Processing Functionality SOP

Document ID: End to End

Document Owner:

MNCC HRSC, Navy Personnel Command

Approval:

Navy Pay and Personnel Support Center (NPPSC)

Revision Date:

13-Mar-23

PURPOSE:

The purpose of this Standard Operating Procedure (SOP) is to supplement the Active Duty and FTS Separations, Fleet Reserve/Retirement and RC Demobilization SOPs with NSIPS R&S component processing functionality. RnS is the first end to end process that integrates and streamlines the retirement and separation business process for officers, enlisted, active, and reserve personnel into the NSIPS environment. This functionality allows members to electronically initiate retirement or separation requests via NSIPS self-service, route them through their chain of command for review and recommendation and then electronically forward the request to Navy Personnel Command for a decision. This improvement provides transparency for Navy service members as to the status of their request, provides an integrated waiver process when needed, and provides an electronic notification of the final disposition of the request for both the member and the command. In addition, the process encompasses the generation of PCSR Officer Separation orders and proper routing and processing of the Separation Checklist, DD214 Worksheet/DD214, and Strength Loss transaction within NSIPS.

Roles / Responsibilities:

TSC/Personnel Office Clerk: The role of 'CLERK' as used in this SOP refers to a civilian Clerk, a contractor, or a Command Pay and Personnel Administrator (CPPA) authorized to *create* NSIPS transactions.

TSC/Personnel Office Supervisor: The role of 'SUPERVISOR' refers to a civilian MILPERS or MILPAY Supervisor/Lead/Auditor or a senior Personnel Specialist who is normally designated as a person authorized to *release* NSIPS transactions.

Note: "If the designated supervisor is not a MILPAY lead/auditor, then a TSC Deputy Disbursing Officer (DDO) or other senior designated pay/personnel service representative properly authorized will be required to audit NSIPS transactions and supporting documentation impacting military pay PRIOR to releasing them, so as to ensure accurate and correct DJMS information is transmitted for inclusion into the Master Military Pay Account (MMPA)."

CPPA: Serves as the primary customer service link between command members and the supporting TSC or Regional Support Center (RSC). Duties and responsibilities are defined in MPM 1000-021. The term CPPA identifies personnel assigned the Navy Enlisted Classification (NEC) code of 791F, but for the purposes of this SOP may include Admin representatives who liaise directly with the ship's Personnel Office/TSC.

Note: Recent and future NSIPS programming releases will continue to expand CPPA roles and capabilities within NSIPS. As such, CPPAs may accomplish TSC Clerk assigned steps within this SOP consistent with expanded NSIPS roles and capabilities and servicing TSC/RSC authorization.

Service Member: A person serving in the Armed Forces who may be eligible for the entitlements listed in this SOP

Command Level Access Manager (CLAM) - New role developed for the purpose of completing the Command Profile Set-up in NSIPS. Each Command must appoint at least one CLAM in order to be able to process the Retirements and Separations requests in NSIPS. Each CLAM must initiate and update the command's profile and set up designated users who will be responsible for routing RnS requests at the command level. **Reserve or Active NSIPS Access**

Manager (NAM) - Existing role for a person in a Personnel Office or Naval Reserve Activity Unit Identification Code (UIC) with additional responsibilities to include Command Set up for HR Command's and the assignment of new roles needed at the Command level to implement Retirements and Separations. In addition, the HR Profile must be completed in NSIPS to assign new HR Command roles for the proper processing of the Separation checklist and the DD 214.

Naval Personnel Command (NPC) System Administrator - New role developed for the purpose of approving and assigning NPC or CNRFC Command reviewers and approvers for the NSIPS Retirements and Separations process. Role is by PERS 2 appointment only.

Command Roles (Assigned in the Command Profile Tab) in NSIPS:

- **Service Member** – Responsible for initiating retirement/Separation request via NSIPS Self-Service, performing an eligibility check, and submitting the request electronically within the Chain of Command (CoC). Note: All NSIPS self-service users will automatically have access to complete the new R&S requests for retirement and/or separation for him/herself.
- **Command Separation Specialist** - Responsible for initiating and submitting R&S requests on behalf of the member (if required), initiating separation checklists, and reviewing and routing requests via the CoC.
- **Command Reviewer** - Responsible for reviewing R&S requests, making recommendations, providing comments if necessary, and routing requests via the CoC.
- **Command Reporting Senior** - Responsible for reviewing R&S requests, making recommendations or adjudicating requests, providing comments if necessary, and routing requests via the CoC (ISIC) or to NPC for approval.
- **Immediate Superior in Command (ISIC)** - Responsible for viewing, reviewing, making recommendations and approving/adjudicating R&S requests routed from the subordinate command in cases where the request is for the Reporting Senior of the subordinate command or when special programs require ISIC endorsement.

Naval Reserve Activity Commands will have:

- **Reservist** – Reserve Role with Service Member responsibilities same as above
- **NRA Reporting Senior** - Reserve Role with responsibilities same as above.
- **NRA Separation Specialist** - Reserve Role with responsibilities same as above.
- **NRA Command Reviewer** - Reserve Role with responsibilities same as above.
- **TSC/Transaction Support Center Roles (Assigned in the HR Profile Tab) in NSIPS:**
 - **Separations Clerk** - Personnel Clerk at the TSC/Personnel Office or Reserve Personnel Clerk at the Navy Operational Support Center (NRA) responsible for processing Enlisted and/or Officer Separations.
 - **Separations Supervisor** - Personnel Supervisor at the TSC/Personnel Office or Reserve Personnel Supervisor at the NRA responsible for reviewing/approving Enlisted and/or Officer Separations. The Separation Supervisor is assigned the role of Authorizing Official to sign the electronic DD 214.

BEST PRACTICES

BACK

- Per NAVADMIN 273/17, all users to begin using NSIPS for Retirements and Separations beginning 01 Jan 2018
- Commands have been directed to set up their command hierarchy for full Fleet utilization by 01 Jan 2018
- All officers submitting their voluntary resignation or retirement and all enlisted personnel submitting their request for early separation, retirement or transfer to the Fleet reserve must use NSIPS for requests initiated on or after 01 Jan 2018
- Important Internal Control Action: MMPA verification steps within this SOP reflect important internal control actions that cannot be over-emphasized. This applies to the entire transaction process from its initiation and authorization through the final verification of the proper processing of the transaction in summary records. These particular SOP process steps are built-in management design control activities to ensure that all transactions are properly completed and accurately recorded.
- Separation transactions are to be initiated and actionable not later than 60 days before a member is scheduled to depart the command on leave/ PTDY. Failure to do so will result in "Signature Unattainable" on the DD-214 and will possibly lead to delays in retirement pay.
- Important Document Retention Action: IAW Department of the Navy Memo dated 30 June 2020 "Revised Record Retention Requirements to Support Department of the Navy Financial Statement Audits" financial record retention requirements are now ten years.
- Refer to MPM 1070-111, as required, to ensure NSIPS/ESR data is accurate and up to date when generating documents for submission to OMPF. Information should be verified by commands and/or activities responsible for service record entries before Service Members separate from Active Duty or Reserve Service Members deactivate/demobilize. When NSIPS/ESR data is missing or in error, commands and servicing personnel support offices shall assist the individual Service Member's effort to resolve the issue as soon as possible.
- Distribution of DD 214: The distribution of all copies of DD 214 shall be made without delay. The original and copy number 4 are to be given to the Service Member in conjunction with their release from Active-Duty service and prior to final departure from their command on permissive temporary additional duty, terminal leave, and associated travel. Other copies are to be distributed no later than the day following the effective date of separation (EAOS). Expeditious distribution of the DD 214 will assist the ex-Service Member in obtaining benefits and will also preclude invalid unemployment compensation payments. For distribution of all copies of DD214, refer to BUPERSINST 1900.8 series: <https://www.mynavyhr.navy.mil/References/BUPERS-Instructions/>
- Run Projected Loss Reports in Navy Standard Integrated Personnel System (NSIPS) weekly to identify Service Members within 6-8 months of Expiration of Active Obligated Service (EAOS); Expiration Term of Service (ETS).
- Run the Fleet Reserve (FLTRES) Authorization Report and the Expiration Term of Service (ETS) Report under the Expired Loss section in Navy Standard Integrated Personnel System (NSIPS).
- Forward Service Member a complete copy of the Separation package at least six months prior to separation. Maintain contact with the Service Member's Command, as needed, throughout the separation process.
- Verify all math computations on previously issued DD214s prior to using the information on current DD214, as prior computations are not always correct.
- Navy Personnel Records (paper and electronic) contain PII, which is protected by federal regulation. If a loss or compromise (i.e., breach) of PII should occur, consult the breach reporting resources available on the DON CIO website: <http://www.doncio.navy.mil/ContentView.aspx?ID=610>.

#	System	Description
1.	OMPF	<ul style="list-style-type: none"> Official Military Personnel File (OMPF) contains electronic images of documents generated throughout the career of every Officer and Enlisted Service Member, Active and Reserve, from time of entry until final separation. OMPF- My Record View provides the ability to view, download, and print OMPF documents. Login to OMPF via BUPERS Online (BOL) at https://www.bol.navy.mil using CAC-enabled computer. When asked to verify PKI, choose the DoD CA-XX authentication certificate, not the email certificate.
2.	Electronic-Submission (E-Sub)	<ul style="list-style-type: none"> The Electronic-Submission (E-Sub) application is the system used to submit designated Officer and Enlisted record documents for inclusion into their OMPF. The E-Sub of record documents for inclusion into the OMPF will be fully implemented through BOL and must be E-Sub compliant. All Active Duty and Reserve personnel (less IRR) with a BOL account and a CAC-enabled computer will be able to view online the status of all documents electronically submitted or (closed out) by viewing "Official Military Personnel File (OMPF) - My Record", which is accessed via the BOL Application Menu.
3.	DJMS MMPA	<ul style="list-style-type: none"> The Defense Joint Military Pay System (DJMS) Master Military Pay Account (MMPA) is a data base file that contains current and historical data pertaining to a Service Member's pay. All leave and pay activity for Active-Duty Service Members is recorded in this file. The individual accounts contain current entitlements, deductions (including allotments), payments, leave balances, collections, status information, and 11 months' history. MMPA enables authorized users to monitor and verify the status of requested pay and personnel actions submitted by the TSC/CSD for processing. MMPA Read Only View enables authorized users to verify the status of requested pay and personnel actions submitted to the TSC for processing. Login to MMPA via the Multi-Host Internet Access Portal (MIAP) at https://miap.csd.disa.mil/portal.html using CAC-enabled computer.
4.	NSIPS/ESR	<ul style="list-style-type: none"> Navy Standard Integrated Personnel System (NSIPS) enables authorized personnel to submit pay and personnel transactions for Officer and Enlisted, Active and Reserve. The NSIPS Electronic Service Record (ESR) provides a display of an individual's pay and personnel information. Login to NSIPS and ESR at https://www.nsips.navy.mil/ using CAC-enabled computer. When asked to verify your PKI, choose the DoD CA-XX authentication certificate, not the email certificate.
5.	CIMS	<ul style="list-style-type: none"> Career Information Management System (CIMS) automates Career Counselor office procedures and simplifies processes supporting the command's career information program. Using CIMS, the CCC creates and maintains Command Career Counselor records, prepares for Career Development Boards (CDBs), views Armed Services Vocational Aptitude Battery (ASVAB) scores, accesses SRB, ESRP, and retirement calculators, obtains a variety of lists and reports, and prints certificates for reenlistment and retirement. Login to CIMS at: https://www.nsips.navy.mil/nsipscl landing/index.html using CAC-enabled computer.
6.	DWOWS	<ul style="list-style-type: none"> Defense Workload Operations Web System (DWOWS) is a web-based tracking system used by military pay operations (MILPAYOPS) to track workload for Navy Active Duty and Reserve Service Members.
7.	Enterprise Customer Relations Managment(eCRM)	<ul style="list-style-type: none"> eCRM Console enables designated command personnel to communicate safely and efficiently with the supporting TSC or TPC via the Internet. Customer commands submit, track, and receive feedback on pay, personnel, and travel related transactions. eCRM Console uses secure network protocol to protect Service Members' Personally Identifiable Information (PII) when transferring personnel documents used to update corporate systems. Login to eCRM at https://navynpc.my.salesforce.mil/ using CAC and CAC-enabled computer.

			<p>As part of the DD214 automated process, NSIPS interfaces with BOL LiveCycle (NPC Document Services) to digitally sign and auto-distribute the DD214 including distribution to the Official Military Personnel File (OMPF). Therefore, user role set-up is also required for BOL LiveCycle. The Supervisor assigned to the NSIPS role of Separation Supervisor within the HR Profile Manager tab needs to ensure they have access to BOL and to the Navy Personnel Command Document Services. In most cases, the Supervisor (military and civilian) already has access. Access may be verified by logging into the BOL menu page at: https://www.bol.navy.mil. If able to log onto the menu page, make sure you also have access to "Navy Personnel Command Document Services." As with all new system access requests, the user unable to log into the BOL menu page must request access to BOL by completing the SAAR-N OPNAV Form 5239/14 and indicating Annual Information Awareness (IA) training and the date of completion.</p> <p>When completing Part I of the SAAR-N, the following information specific to BOL should be entered: System Name: BOL (NPC Document Services) Location (System): Millington, TN Justification for Access: DD214 Separation Supervisor Check "Authorized" in Block 12 Check "Need to Know Verification" in Block 14 After completion of Part I, Digitally sign in Block 24</p> <p>The form is then released to the requestor's supervisor to complete and sign Part II - Supervisor Information. After approval, the Supervisor submits to the BUPERS07_IT_EOC.FCT@navy.mil for processing.</p>

SEPARATION CLERK	8.5	Did Strength Loss (E503) post in MMPA?	<p>Did Strength Loss (E503) post in MMPA?</p> <p>Verify NT and N7 to check for rejects or recycles. If it is more than 10 days before the Loss date, only N7 will post to MMPA.</p> <p>An E503 transaction readies the pay account for the approaching separation date and triggers separation related management notices to the separation activity. Input transactions continue to process against the pay account after an E503 transaction is submitted.</p> <p>A rejected E503 transaction causes an NN entry to be created on the Service Member's MMPA. The NN entry reflects the exact original E5 input. The reject must be resolved in a timely manner to complete the separation process. Processing an E506-CANCEL FINAL SEPARATION transaction will remove the NN entry.</p> <p>The E503 transaction triggers a pending separation on the MMPA which provides notices to the field giving projected bonus recoupment and excess leave recoupment information. It re-computes existing debt amounts for collection prior to date of separation and gives projected separation debt information.</p>
