From: Deputy Chief of Naval Personnel
To: President, FY-23 Surface Major Command Screen Board

Subj: ORDER CONVENING THE FY-23 SURFACE MAJOR COMMAND SCREEN BOARD

Ref: (a) FY-23 Administrative Selection Board Precept
    (b) OPNAVINST 1412.14
    (c) NAVPERSCOMINST 1401.1A

Encl: (1) Board Membership
      (2) Administrative Support Staff

1. Date and Location
   a. This administrative selection board, consisting of you as president, the members listed in enclosure (1) as members, and the personnel listed in enclosure (2) as administrative support staff, is ordered to convene at the Navy Personnel Command, Millington, TN at 0800, 1 November 2021 or as soon as practicable thereafter.
   
   b. The board shall proceed in accordance with all guidance in this letter and the FY-23 Administrative Selection Board Precept, reference (a).

2. Function. The function of the board is to:
   a. Select eligible officers in the Surface Warfare (111X) community for Major Command.
   
   b. Select officers in the Explosive Ordnance Disposal (EOD) (114X) community for Major Command.
   
   c. Select officers in the Limited Duty Officer (LDO) (61XX/641X/649X) community for Major Command.
   
   d. Recommend officers in the Surface Warfare (111X) community who have petitioned the board, in writing, for a "Special Additional Look." A "Special Additional Look" will be available upon petition when the constituent can show that he/she was somehow uniquely disadvantaged, that his/her record would be unfairly considered during the normal screening process, or when justified by exceptional circumstances.
Petition is made in writing to the selection board president, via NAVPERSCOM (PERS-41), who will attach an endorsement recommending inclusion or exclusion of the petitioner's record for the current board.

e. Recommend officers in the Surface Warfare (111X) community who have petitioned the board, in writing, for a "Delayed Look." A "Delayed Look" will be available upon petition when the constituent can show that he/she was somehow uniquely disadvantaged, or that his/her record would be unfairly considered during the normal screening process. Petition is made in writing to the selection board president, via NAVPERSCOM (PERS-41), who will attach an endorsement recommending inclusion or exclusion of the petitioner's record for the current board. Officers approved for a "Delayed Look" by majority of the board members will then be considered eligible with those officers receiving the same consideration on the next scheduled administrative screening board.

f. Recommend officers in the Surface Warfare (111X) community who have petitioned the board, in writing, for an "Early Look." Officers, who have been selected for promotion to captain by a statutory board, prior to their projected promotion year group, may submit a letter to the board requesting an "Early Look." Petition is made in writing to the selection board president, via NAVPERSCOM (PERS-41), who will attach an endorsement recommending inclusion or exclusion of the petitioner's record for the current board. Officers approved for an "Early Look" by majority of the board members will then be considered as a first look eligible with those officers receiving regular first look eligible consideration.

g. Apportion officers recommended for Major Command to one of the following lists:

(1) Surface Major Command (AFLOAT)
(2) Surface Major Command (ASHORE)
(3) Acquisition Corps (AC)
(4) EOD
Subj: ORDER CONVENING THE FY-23 SURFACE MAJOR COMMAND SCREEN BOARD

h. Screen the records of 111X and 114X Captains serving in Major Command as of 01 October 2021 and those who have served in Major Command who have not previously screened for Sequential Major Command, for potential assignment to Sequential Major Command.

i. Review the performance of previously selected officers who are not yet in Major Command as of 01 October and recommend for removal from the Major Command Bank, by majority vote of the board members, if applicable.

3. **Board Authorized Selections and Apportionment.** Major Command selection and screening goals are derived from projected fill requirements and are allocated to provide equitable command opportunity to each promotion year group (PYG). The total number of candidates that may be recommended in each competitive category is listed below:

   a. **Surface Warfare (111X)**

      (1) Eligibility is based on two criteria: Previous screening for Commander Command by the Surface Commander Command administrative selection board and date of rank of Commander promotion. Full Time Support (FTS) officers who are not selected for retention by the FTS Captain Selective Retention Board will not be considered for Major Command.

      (2) Board members will determine by vote which eligible records will be selected for Major Command. Screening goals are outlined below.

      | Screening Goals - Major Command |
      |---------------------|-----|-----|-----|-----|
      | PYG     | 16  | 15  | 14  | Total |
      | FY-23 GOALS | 29  | 26  | 4   | 59   |

      (3) All 1st, 2nd and 3rd look eligible records selected for Major Command will be assigned to the Major Command lists.

      (4) All 1st and 2nd look eligibles not selected for Major Command will have their records removed from further consideration until the FY-24 Major Command Screen Board.

      (5) All 3rd look eligibles not selected for Major Command will have failed to select for Major Command.

      (6) If an officer is removed from the bank, an additional pick may be added to the 2nd look eligibles.
Subj: ORDER CONVENING THE FY-23 SURFACE MAJOR COMMAND SCREEN BOARD

(7) All apportionment recommendations for both AFLOAT and ASHORE are considered TENTATIVE pending final TYCOM approval. Similarly, any apportionment shifts that arise during the subsequent slating process will be approved by the TYCOM.

(8) Full Time Support (FTS) Officers. The board may select FTS officers (1117) for assignment to Major Command if the eligible officer meets the standards for selection listed in reference (a). FTS officers will count against 111X year group goals in subparagraph 3(a)(2). FTS officers who were not retained by the FTS Captain Selection Retention Board will not be considered for Major Command.

b. SWO AC. Surface Warfare acquisition professionals are tracked by the "APM" additional qualification designator (AQD), which is assigned once an officer meets all career field certification requirements. Officers selected for Major AC Command/Major Acquisition Program by this board become eligible for consideration for slating by the NAVSEA slating panels. SWO ACs selected for AC Major Command/Major Acquisition Program are not guaranteed Major Command assignment in the acquisition field. Eligibility is determined by administrative screening for commander command, date of rank of commander promotion, and by either submitting a request to NAVPERSCOM (PERS-41) for inclusion in the AC Major Command screening group or having been designated an Acquisition member at a previous AC selection board. Eligible officers designated as an Acquisition member at a previous AC selection board and request inclusion in the AP Major Command Screening group will not be considered for Major Command (AFLOAT) or (ASHORE).

* No specific goals for each PYG nor overall.

c. EOD (114X)

(1) Eligibility is based on two criteria: previous screening for Commander Command by administrative selection board and selection for promotion to the rank of Captain. Officers previously considered will be eligible until selected or their three opportunities are exhausted.

d. LDO (61XX/641X/649X). LDOs will be considered for Major Command. Surface LDOs do not have funded Major Command requirements; therefore, officers selected will not count against the 111X or 114X year group goals.

(1) Eligibility is based on two criteria: Previous screening for Commander Command by administrative selection board and selection for promotion to the rank of Captain.

(2) There are no selection goals set for the following designators: 61XX/641X/649X for each PYG nor overall.

e. Surface Warfare and EOD Sequential (111X and 114X). There are no selection goals for Surface Warfare and EOD Sequential Major Command.

4. Additional Guidance. Below information is provided to facilitate this board and clarify community requirements to assist in determining the best and fully qualified in accordance with reference (a).

a. Nuclear Qualified Officers. Surface Warfare Officers (SWO) with nuclear propulsion qualifications (SWO(N)) will be considered with their SWO contemporaries within their respective year groups. SWO(N) career patterns often vary from the majority of the SWO community in that they serve in nuclear-related assignments throughout their careers in addition to traditional SWO assignments. As a result, they may arrive in major SWO career milestones later than their SWO contemporaries. The quality of performance of SWO(N)s in all of their nuclear-related assignments along with their specialized background should be given equal weight to that of conventional SWOs who have followed traditional career patterns.

b. Sea Duty and Forward-Deployed Naval Force Assignments. Many officers seek the added challenges of more senior grade sea duty billets to further hone their operational skill level, experience new areas of intra-community specialty, and sharpen their competitive edge. These billets include those on numbered fleet staffs, strike group staffs, destroyer and amphibious squadron staffs, and large deck amphibious ships (LHDs/LHAs).
Subj: ORDER CONVENING THE FY-23 SURFACE MAJOR COMMAND SCREEN BOARD

In pursuing these post-department head and post-command sea duty billets, these officers willingly forfeit time ashore and do so with the goal of improving and broadening their professional background and experience serving in these unique environments. Many officers recognize the increased operational tempo and demands imposed in forward-deployed naval force assignments and willingly accept world-wide moves and other exceptional requirements associated with these assignments to take advantage of these opportunities. The benefit afforded the Navy through the service of experienced and motivated officers in these operational billets is substantial. You should consider these factors when determining the best and fully qualified.

c. Education and Professional Development. The board shall give favorable consideration to those officers with relevant graduate education, experience in specialized areas, and professional military education (PME), including in-residence War College. The Navy values officers who seek opportunities to broaden their cultural awareness through experiences and education and to enable better communication in a global operating environment.

d. Commander Command Ashore Consideration.

(1) Officers screened for Commander Command, but who served their respective command tours ashore (vice afloat), should not be viewed negatively, provided the officer has progressed in professional development and leadership responsibility.

(2) In many cases, officers who have experience and well-developed skill sets while in command ashore can best serve the Navy in positions of greater responsibility in Major Command.

5. Selection Goals. The board need not select to the numbers provided. The authorized number to select should only be attained if there are a sufficient number of candidates determined fully qualified.

A. HOLSEY
