Sailors who are assigned overseas that require PCS transfer back to CONUS (for LIMDU) are to be brought **back to the nearest Fleet concentration area**. Please make sure an **Early Return is entered into Bupers Online(BOL OSS)**. For assignment purposes there needs to be a MTF to care for the service member, they need to be assigned in their rate and finally once they are fit can return to sea duty.

PCS moves for LIMDU are to be at minimal or "no cost" to the government in the same geographic area.
