What's New for You

PACT Sailor Update

MNA WNFY Issue 3

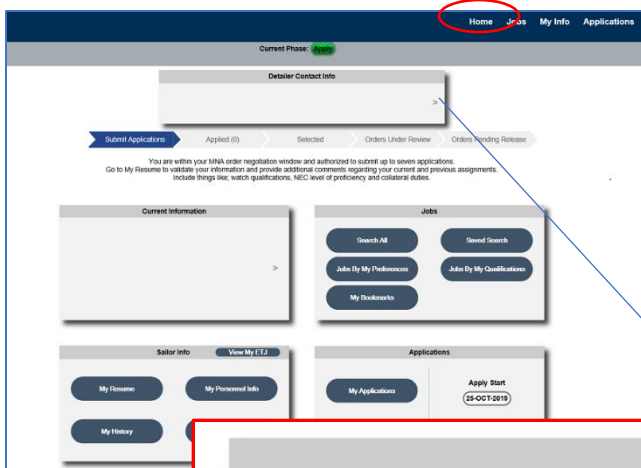

15 April 2020

Professional Apprenticeship Career Track (PACT) Sailors have the ability in MyNavy Assignment (MNA) to apply for their rating and next duty station simultaneously. Sailors selected for orders within a rating will be rated when orders are executed, or upon successful completion of a required "A" school. Steps to complete the new PACT Sailor designation process in MNA are outlined in MNA What's New For You (WNFY) Issue 2, January 2020 PACT Sailor Overview. This follow-on MNA WNFY Issue 3, April 2020 PACT Sailor Update, provides **amplifying instructions for PACT Sailors who want to apply for a rating and continue to serve at their current command.**

Let your Detailer know that you want to stay onboard your current command when applying for a rating!

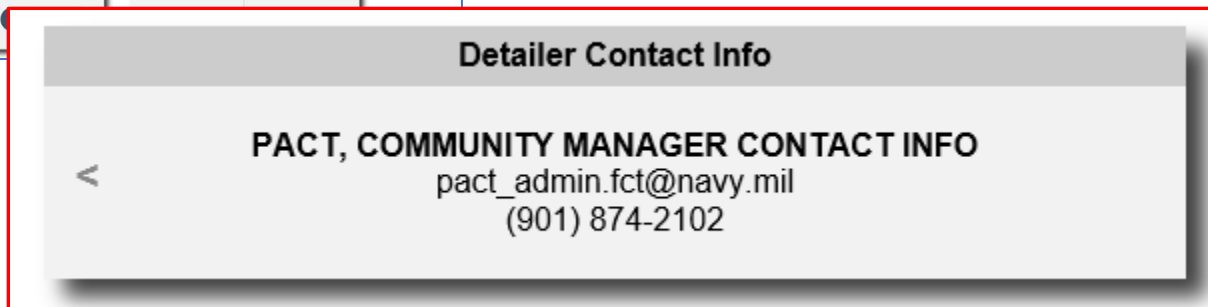

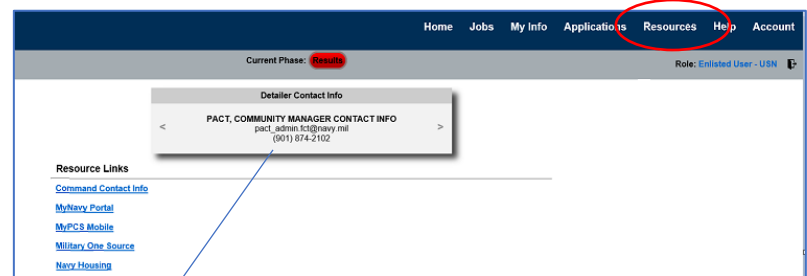

Call or email your PACT Detailer if you want to remain at your current command and there are no jobs displayed for Sailor application in MNA at your command for the rating you are applying for.
