3. **Board Authorized Selections**

- a. Eligibility and selection order for each competitive category is outlined in enclosure (3).
- b. The maximum number of candidates that may be recommended in each competitive category is listed in paragraph 3.d(4). Individuals may be recommended for selection in only one competitive category.
- c. There is no mandate to select the maximum number of selects. Should the board determine that an insufficient number of officers exist in a particular competitive category, this finding will be included in the board report.
- d. Qualified/Insufficient Opportunity (QIO). In each competitive category there may be fully qualified officers who fail to select due to limited command opportunity. The board should identify such officers to the Recorder and those names will be annotated in the Recorder's ledger. In the board report, officers selected for QIO will be ranked in order of merit within each competitive category. The QIO list will not be published to the Navy or the public.
 - (1) The selection of QIOs is authorized for all competitive categories listed in paragraph 3.d(4). By a majority vote, the board may deviate from the recommended number of QIOs. Any deviation will be included in the board report.
 - (2) An individual may be recommended as a QIO in multiple competitive categories.
 - (3) Should a need arise for an additional commander command fill, an officer so identified in the board report shall be considered qualified and additional administrative screen procedures need not be pursued. Officers shall be selected from the board report according to order of merit and subject to their availability for assignment.
 - (4) QIOs may be on multiple QIO lists until such time as the officer is required to fill a commander command billet. Once the QIO officer has been notified of the opportunity to fill a commander command assignment, that QIO officer will be considered a commander command select.

4. **Best and Fully Qualified Selection Standard.** The following provides aviation specific community requirements, but in no way replaces the best and fully qualified standard discussed in reference (a).

a. **Fully Qualified.** All candidates must be fully qualified and able to perform the duties described in the competitive category for which selected. To be fully qualified, a candidate must have demonstrated the appropriate level of leadership and attained the required T/M/S qualifications.

(1) **Naval Aviation.** Naval Aviation is first and foremost an aerial combat force and values the attainment of warfare qualifications and leadership both in the air and on the ground. The Naval Aviation Enterprise continues to value the war fighting ability and tactical excellence required for Operational Commanders to excel in combat. Therefore, as an aviation officer progresses in their career, achievement of community specific warfare qualifications should be documented in the officer's official record. The ultimate measure of success within the aviation community is sustained superior performance in operational environments.

(2) **Aviation Command (Test and Evaluation).** Selectees must have demonstrated aptitude in developmental test and the leadership traits to lead a large and diverse aviation organization. Test Command requires a combination of operational and acquisition experience.

(3) **AMDO (1520) Command and Command Equivalent.** AMDO Command consists of CVN Maintenance Officer and Fleet Readiness Center (FRC) Officer in Charge. Due consideration should be given to candidates with diverse experience at-sea and ashore in various squadron and aviation component repair facilities.

(4) **LDO (63XX) Command**

(a) All eligible officers will compete for command quotas in Center for Naval Aviation Technical Training Units (CNATTU). Above-Zone (AZ) eligible officers not selected for CNATTU will compete for Special Mission Command.

(b) To best afford officers the opportunity to serve the Naval Aviation Enterprise beyond the O-5 paygrade, the board should give due consideration to the selection of officers who will not reach statutory retirement (35 years and one month of active service) prior to In-Zone (IZ) consideration for promotion to O-6. There is no absolute predictive standard by which to identify those who will statutorily retire prior to being IZ for promotion to O-6. As a general rule, officers commissioned with more than 14 years of enlisted service stand a higher likelihood of statutorily retiring before being considered IZ for O-6. This guidance in no way replaces the fundamental tenet of selecting the best and most fully qualified candidates.

b. **Best Qualified.** Among the fully qualified candidates, the board will select the best qualified as Commanding Officers. These are the officers who have demonstrated sustained superior performance in operational environments while attaining a breadth of experience to include major staff, requirements, personnel/manpower, financial management, or operations

Subj: ORDER CONVENING THE FY-26 ACTIVE-DUTY AVIATION COMMANDER
COMMAND SCREEN BOARD

analysis assignments. Performance and leadership in combat conditions should be given special consideration. Additionally, best qualified candidates should have:

- (1) Attained advanced T/M/S qualifications required to lead combat operations.
- (2) Competitively performed in a department head tour.

5. **Additional Guidance**

a. Joint Professional Military Education (JPME). NAVADMIN 247/19 directs all URL officers who screen for O-5 command for which the command-at-sea insignia is authorized to complete JPME Phase 1 prior to assuming command.

b. Bank Review (Re-screen). To ensure that standards of performance are maintained, the records of those officers previously selected to commander command (or equivalent), who have not yet reported to their ultimate command, shall be reviewed. Board members should review these records for indications of a significant decline in performance or for non-medical material submitted subsequent to the last board which casts doubt upon their qualifications for command.

(1) Those officers whose records, in the opinion of a simple majority of the board members, contain indications of declining performance shall be reported to the Deputy Chief of Naval Personnel. This report shall include a recommendation regarding their continuance on the Aviation Command List.

(2) Officers eligible for re-screen are authorized to administratively participate in the board in accordance with reference (b).

c. The Official Navy Record Markup Program (ONRMP) will be utilized to “pre-markup” records with fitness report trend lines, individual trait averages above reporting senior cumulative average, rank changes, and tour lines. The board member assigned is responsible to ensure ONRMP’s accuracy during record review.

ELIGIBILITY CRITERIA
FY-26 ACTIVE-DUTY AVIATION COMMANDER COMMAND SCREEN BOARD

1. FY-26 Active-Duty Aviation Command Screen Board (ACSB) Eligibility. Overall eligibility for the FY-26 ACSB has been determined by Navy Personnel Command (PERS-43) personnel based upon officers meeting the criteria listed in the applicable sections of this document. As promotion zones are not strictly aligned with year groups, individuals are designated into Screen Groups (SG) as set forth in the annual Promotion Zone Forecast message. Approved In-Zone (IZ) look deferrals will result in those officers rolling back one SG. These officers will be considered IZ for the FY-26 ACSB. Petitions for deferral shall be made in writing to PERS-43.

2. Disqualifying events:

a. Previously Selected/Slated Officers. Those officers who have been previously selected for and/or slated to Commander Command (or equivalent) are ineligible for subsequent Command selection.

b. Aviation Acquisition Professional Unrestricted Line Major Program Management (AP URL MPM). Those officers accepting AP URL MPM designation from the Naval Air Systems Command Major Acquisition Command slating panel are ineligible for the FY-26 ACSB with the exception of Test and Evaluation.

c. Declining Command

(1) URL, Limited Duty Officers (LDOs), or Aerospace Engineering Duty Officers (AEDOs) who previously declined Aviation Commander Command.

(2) Aviation Maintenance Duty Officers (AMDOs) that decline Commander Command or equivalent tours are ineligible for the FY-26 ACSB and future command or major command boards. AMDO officers screened for second Command-in-Grade equivalent but slated to fill Naval Aviation Enterprise community billets remain eligible for future Command and Major Command boards.
