• JUNIOR OFFICER SHORE SLATE PROCESS

Welcome to the Junior Officer Shore Slate process! Your shore billet will be assigned via a competitive slate process. When multiple officers request the same billet, billet assignment is determined through comparison of qualifications, FITREPs, and Commanding Officers' inputs. **Provide your top 20 shore preferences to your Detailer NLT 14 March 2022.** If you only provide 5 preferences, that indicates that all other billets are a tie for your sixth preference, so provide the full 20! Also include what is most important to you (i.e. homeport, type of billet, or command) and if you intend to take the Department Head Retention Bonus (DHRB). Officers who have signed DHRB will be considered "Executive Slaters" and are ranked above all non-signers on the slate.

CO Inputs are due 16 March 2022. Your preferences and CO inputs are required before slating. If there is a special email address we should use for your CO/XO, please let your detailer know. We expect results to be released by the end of March. HOWEVER, the timeline may change so please be flexible.

If you're considering submitting a lateral transfer package (or any other applications to special programs), a resignation, or a Talent Management package, please discuss your options with your detailer. Once you submit preferences for this slate, you've negotiated for orders and must execute those orders.

IAW the new SWO career plan changes, if you're interested in going straight to Department Head school, please discuss your options with your detailer. Once you submit preferences for this slate, you've negotiated for orders and must execute those orders.

IMPORTANT

Second tour division officers no longer fill staff duty positions. DESRONs, PHIBRONs, and MCMRONs will be filled for 18 months by officers leaving their second division officer tour. Similar to the post Department Head portion of the career path, this means there will be more sea duty requirements on the traditional shore slate.

****All officers are required to include (2) DESRON/PHIBRON/MCMRON billets and (1) additional Sea Duty billet in their Top 20 preferences. Not providing preferences will NOT preclude you from possibly slating to a staff. All personal preferences, circumstances, and career implications will be considered as we match talent to task.****

Officers listing "DHRB required" billets in their top six choices do so with the understanding that they will be expected to submit a DHRB contract within 14 days of slate notification of assignment to that billet. Failure to submit a contract will subject that officer to a re-slate. An officer assigned to his/her #7 or higher preference will not be required to sign DHRB for billets listed as "DHRB REQ." More information about DHRB can be found on the NPC website (link above).

The WTI program will expand tactical knowledge and watch station experience, and will require a follow-on "production" tour at waterfront shore commands including: NSMWDC, SCSTC, ATRC, SWSC, ATG, and various other operational and training commands. The WTI application (to include Commanding Officer's recommendation) should illuminate the

candidate's desire and potential to be a successful Warfare Tactics Instructor. If you are interested in becoming a WTI, contact NSMWDC to obtain an application: swo_wti@navy.mil. If selected for the program, officers will receive the KWS AQD. WTI billets are listed on the shore slate by the type of WTI required post-WTI course of instruction: KW1 is ASW/SUW, KW2 is IAMD, KW3 is AMW, and KW4 is MIW. WTI preferences listed without pending applications or program acceptance will be disregarded.

Please note that MILPERSMAN 1300-302, Change 29 remains in effect. It states, "Members with more than three family members will not normally be assigned to accompany overseas duty, including Alaska and Hawaii, unless a waiver is approved by the Regional Commander of the gaining command." If you have more than three dependents and desire an accompanied overseas assignment, you should be prepared to be deferred to the next shore slate if required. **For CONUS Shore Duty, orders will be written for 36 months IAW the JTR. For sea duty, orders will be written for 24 months; DESRON/PHIBRON/MCMRON for 18 months. Please refer to the Appendix Q of the JTR for specific OCONUS Tour Lengths.**

*****REMINDER: provide your top 20 shore preferences NLT 14 March 2022.*****

SWO(N):

Since the nuclear and conventional shore slates are now combined, all SWO(N)s will submit **at least one** nuclear billet in their preferences, regardless of whether or not they have taken/passed their Nuclear Engineer Officer's exam. All nuclear billets are nominative and officers will be approved by Naval Reactors prior to receiving orders. For any questions on this new process, please contact your detailer.

• NOMINATIVE BILLETS

PERS-412 has several nominative billets available. Post-DIVO SWO JOs select for nominative assignments at an excellent rate. For officers who have sufficient career timing, we provide a follow-on shore tour assignment to include graduate education opportunities at NPS as long as your timing for Department Head School supports another tour. Officers must be endorsed by their reporting senior. The NOM list constantly changes and is available to all officers, regardless of when they slate to shore. If officers are interested in submitting for a NOM, they should contact their detailer.

Please be prepared to submit (1) full-length photo in service khakis, (2) career biography, (3) work and personal contact information, (4) any FITREPS missing from your official record. Once an officer submits a nomination package, he or she cannot be withdrawn from the nominative process.

*****The fill date is based on a hard timeline and can rarely be adjusted. Officers interested in any NOM billets should contact their detailer in advance (before preferences are due) to verify they can meet the timing.*****

ACTIVITY	LOCATION	TITLE	FILL
PRES INSURV	NORVA	AIDE	Aug-22
HQ SACT DCOS	NORVA	AIDE to DCOS	Sep-22

• ROTC BILLETS

PERS-412 also has select ROTC Units available for a Naval Science Instructor billet. All ROTC billets are available via Talent Management Board (TMB) and then on a case-by-case basis based on billet availability. More options will be available on the FY23 TMB. Talk to your detailer for more information. When assigned on a slate, officers must be endorsed by their reporting senior through the CO Inputs.

Each institution has different requirements, but officers with a minimum undergraduate GPA of 3.0 are eligible (some institutions accept a lower GPA – reach out to your detailer for more information). Due to accreditation requirements, the civilian institution has final approval authority for instructors.

*****ROTC billets have specific fill dates. Officers interested in any ROTC billets should contact their detailer in advance (before preferences are due) to verify they can meet the timing.*****

UNIT	LOCATION
NROTC S TUSKEGEE	TUSKEGEE, AL
NROTC ILLINSTECH	CHICAGO, IL
NROTC SO U&A&M C	BATON ROUGE, LA
NROTC U ILLINOIS	URBANA, IL

• NAVAL POSTGRADUATE SCHOOL (NPS) – MONTEREY, CALIFORNIA

The SWO community's top priority for Junior Officers during their first shore tour remains the opportunity to earn a graduate education degree. NPS is the best choice for this career milestone due to the flexibility in timing, tailored curricula, and JPME Phase I inclusion. All NPS quotas are available via Talent Management Board and then on a case-by-case basis based on quota availability.

Academic Profile Code (APC)

The APC is a three-digit code which summarizes pertinent portions of an officer's prior college performance. This code is used to determine an officer's eligibility for an academic program at NPS. Your APC must be calculated before the Detailers can assign you a curriculum quota. Guidance on getting your APC calculated can be found here:

<https://www.mynavyhr.navy.mil/Career-Management/Detailing/Officer/Pers-41-SWO/Career-Info/Graduate-Education/>

NOTE 1: USW Students earn accredited master's degrees (Master of Science) in any of the following disciplines: Engineering Acoustics, Physical Oceanography, Electrical Engineering, Operations Research, Mechanical Engineering, and Applied Sciences. See NPS website (www.nps.edu) for details.

NOTE 2: Combat Systems Students earn an accredited master's degree (Master of Science) in Applied Physics, but may also earn the degree in Physics, Engineering Acoustics, Electrical Engineering, Mechanical Engineering, and Software Engineering. See NPS website (www.nps.edu) for details.

CONTACT YOUR DETAILER IMMEDIATELY UPON RECEIPT OF THIS DOCUMENT IF YOU ARE INTERESTED IN THE LISTED NPS CURRICULUMS!

Curriculum	Start	APC	Length
#326 CYBER SYS AND OPS	DEC 22	334	24 months
#366 SPACE SYS OPS	SEP 23	334	21 months
#590 ELECTRONIC SYS ENG	DEC 22 / MAR 23	323	24 months
#308 SYSTEM ENG ANALYSIS	JUN 23	334	24 months
#533 APPLIED PHYSICS OF COMBAT SYS	DEC 22	323	24 months

The start times listed above do not include any refresher quarters NPS may require based on an officer's APC calculation.

• NPS DISTANCE LEARNING MASTER'S PROGRAM

Master of Systems Analysis Degree Program (MSA, Curriculum 363): The MSA program is designed to meet the needs of the Navy and other services in the Department of Defense (DoD) for technical graduate education in systems analysis as a basis for aiding key decisions on force requirements, weapons systems, and other defense matters. Students acquire foundation skills and hands-on experience in all aspects of analytical studies. MSA grads earn the Navy 3210P subspecialty code, Operations Research Analysis and become eligible to be detailed to 3211-coded Operations Research Analysis – Analysis and Assessment billets. The MSA degree is one of the master's degrees identified for detailing to 6511P-coded Requirements Management.

The distance learning programs require VTC participation generally on Tuesdays (West Coast) and Thursdays (East Coast). Officers need to work with their current or gaining shore command to ensure VTC activities will be supported. All other course requirements will be completed during off duty hours. Distance learning programs kick off

each Spring and Fall with specific application time lines for each class up. Officers will incur a three year OBLISERV following graduation.

NOTE 1: IAW OPNAVINST 1520.23C, the service obligation commences upon completion of or withdrawal from an education program and will be served concurrently with any other service obligation.

• JOINT PROFESSIONAL MILITARY EDUCATION (JPME) PHASE ONE

We strongly recommend that you complete your Joint Professional Military Education (JPME) Phase One certification while on shore duty. JPME is an essential element of the Goldwater-Nichols Act of 1986 which mandates joint service and war fighting education requirements for all services linked to important career milestones for officers.

JPME Phase One completion is a discriminator for selection at the Commander Command Afloat (XO/CO Fleet Up) Selection Board, and is required to be completed prior to taking O-5 command. The SWO community considers the post-DIVO shore tour as the best opportunity/timeframe for officers to earn their graduate degrees as well as JPME Phase One. Below are the various options for completion of JPME Phase One:

- Naval Postgraduate School (integrated into most degree programs, optional with all others)
- NWC Fleet Seminar Program (available in most fleet concentration areas – see NWC website for details: <http://www.usnwc.edu>)

• Additional Qualification Designation (AQD) Key

AQDs are awarded for certain advanced qualifications, as listed below. If you have one of these qualifications, but your officer data card (ODC) does not reflect it, please send your designation letter to your detailer.
