25 Apr 25

From: Deputy Chief of Naval Personnel
To: President, FY-26 Surface Warfare Officer Department Head Screen Board
Subj: ORDER CONVENING THE FY-26 SURFACE WARFARE OFFICER DEPARTMENT
HEAD SCREEN BOARD
Ref: (a) DCNP ltr 1401 BUPERS-00B of 3 Feb 25
(b) COMNAVSURFORINST 1412.7A
(c) COMNAVSURFOR 081430Z JAN 25
(d) COMNAVSURFOR 081431Z JAN 25
(e) COMNAVSURFOR 081432Z JAN 25
Encl: (1) Board Membership
(2) Administrative Support Staff

1. **Date and Location**

a. This administrative selection board, consisting of you as president, the officers listed in enclosure (1) as members, and the personnel listed in enclosure (2) as administrative support staff, is ordered to convene at the Navy Personnel Command, Millington, TN, at 0800, 28 April 2025, or as soon as practicable thereafter.

b. The board shall proceed in accordance with all guidance in this letter and the FY-26 Administrative Selection Board Precept, reference (a).

2. **Function.** The function of the board is to:

a. Review the performance of previously selected officers in the Surface Limited Duty Officer (LDO) (611X, 612X, 613X, and 618X) DH bank and recommend for removal, if warranted.

b. Recommend officers in the Surface LDO community (611X, 612X, 613X, and 618X), Year Groups (YG) 2020-2022, for DH Afloat.

c. Review the performance of previously selected officers in the Surface Warfare (111X) DH bank and recommend for removal, if warranted.

d. Recommend officers in the Surface Warfare (111X) community, YGs 2020-2022, for DH Afloat.

Subj: ORDER CONVENING THE FY-26 SURFACE WARFARE OFFICER DEPARTMENT
HEAD SCREEN BOARD

e. Adjudicate officers in the Surface Warfare (111X, 116X) and Surface LDO (611X, 612X, 613X, and 618X) communities who have petitioned the board, in writing, for a delayed or early look. A delayed look will be available upon petition when the officer can show that he/she was somehow uniquely disadvantaged or that his/her record was unfairly considered during the normal administrative screening process. Such petitions must be made in writing to the selection board president via PERS-41. PERS-41 has the authority to approve delayed and early looks, but a denial of a delayed look will be adjudicated by the board. A majority vote of members will determine final adjudication.

f. Adjudicate officers in the Surface Warfare (111X, 116X) and Surface LDO (611X, 612X, 613X, and 618X) communities who have petitioned the board in writing for a special additional look. A special additional look will be made available to officers who are past their final look and, upon petition, can reasonably demonstrate that he/she was somehow uniquely disadvantaged or that his/her record was unfairly considered during the normal administrative screening process. Such petition must be made in writing to the selection board president via PERS-41, who will submit a recommendation for approval or denial of the petitioner's request. A majority vote of members will determine final adjudication.

g. Provide list of officers in the Surface Warfare (111X, 116X) community from YG 2020 past their final look that did not screen for Department Head.

h. Recommend officers in the Surface LDO community (611X, 612X, 613X, and 618X), who have petitioned the board, in writing, for conversion to the Surface Warfare (111X) community.

i. Eligibility requirements are outlined in references (b) through (e).

3. **Board Authorized Selections.** The total number of candidates that may be recommended in each competitive category is below:

a. Surface LDO (611X, 612X, 613X, and 618X) community:

(1) Eligibility. Each Surface LDO will receive three looks for DH Afloat. For this board, Surface LDOs YG 2022 will receive their first look, Surface LDOs YG 2021 will receive their second look, and Surface LDOs YG 2020 will receive their third and final look. Each Surface LDO officer previously screened for DH afloat will be bank reviewed until they begin the DH training pipeline or are selected for Lieutenant Commander (LCDR).

(2) For Surface LDOs, the board is not held to any minimums or maximums.

b. Surface Warfare (111X, 116X) community:

(1) Eligibility. Each Surface Warfare Officer (SWO) will receive three looks for DH Afloat. For this board, YG 2022 SWOs will receive their first look, YG 2021 SWOs will receive their second look, and YG 2020 SWOs will receive their third and final look. Each SWO (111X)

Subj: ORDER CONVENING THE FY-26 SURFACE WARFARE OFFICER DEPARTMENT
HEAD SCREEN BOARD

previously screened for DH Afloat will be bank reviewed until they begin the DH training pipeline.

(2) For YG 2022 (111X) officers, the board shall not select more than 70% of the eligible officers.

(3) For YG 2021 (111X) officers, the board shall not select more than 61% of the eligible officers.

(4) For YG 2020 (111X) officers, the board is not held to any minimums or maximums.

(5) Officers approved previously approved for a delayed look will be added to the requisite look YG from their deferral and held to the same selection quotas as officers in that cohort. Officers approved for a special additional look will be added to the YG 2020 (third look cohort) and not held to any maximum or minimum selections.

(6) An additional cohort of "Option officers," or 111X/116X officers with an option AQD in their record will be reviewed separately from non-option records. The board is not held to any minimums or maximums for SWO Option officers.

(7) The board is not held to any minimums or maximums for officers seeking conversion from Surface LDO to SWO.

4. **Additional Guidance.** The following information is provided to clarify community requirements and any specific needs, but in no way should it replace the "Best and Fully Qualified" standard of reference (a).

a. Fully Qualified. To be considered fully qualified for DH Afloat selection, officers shall:

(1) Have obtained SWO qualification (no longer applicable for LDOs per reference (c));

(2) Be recommended in writing for DH or a higher career milestone by an Afloat Commanding Officer and/or O-5 or Senior on their most recent fitness report.

(3) Have no clearly substantiated decline in performance.

(4) Officers approved for lateral transfer out of the Surface Warfare community will not be considered for selection by the board, regardless of their current designator.

b. Limited Duty Officers. A DH recommendation is not necessarily a normal career milestone recommendation. Documented leadership and a recommendation for a position of increased responsibility, such as Officer-in-Charge, Repair Officer, First Lieutenant, Combat Systems Officer, etc., shall satisfy the recommendation for DH.

c. Bank Review. All SWOs will be bank reviewed until they begin their DH training pipeline and all Surface LDOs will be bank reviewed until they are selected for LCDR or begin

Subj: ORDER CONVENING THE FY-26 SURFACE WARFARE OFFICER DEPARTMENT
HEAD SCREEN BOARD

the DH training pipeline. The board will be provided a certified list of officers (SWO and LDO) who will remain in the bank. In addition to being fully qualified, officers on the certified list will have no documented misconduct or adverse performance since the last DH board. The board may review any record from the certified list provided a majority of the board members vote to do so; otherwise, the board will not review the records on the certified list.

d. Graduate Education. Some officers are afforded the opportunity to attend Graduate School immediately after commissioning due to their scholastic accomplishments as a Midshipman. As such, these officers may be senior to their peers when they begin their SWO training pipeline and should not be penalized for the impact that this may have on their fitness reports. In these cases, in addition to being "Best and Fully Qualified," careful consideration should be given to the soft breakout language contained in block 41 of the fitness reports, recommendation for DH Afloat and the recommendations for leadership and future service.

e. Delayed Entry. Often officers transfer into the Surface community late from another designator for a variety of reasons (flight attrite, Basic Underwater Demolition/SEAL training attrite, Nuclear Power School attrite, break in service, etc.). As such, these officers may be senior to their peers when they begin their Surface Warfare training pipeline and should not be penalized for the impact that this may have on their fitness reports. In these cases, careful consideration should be given to the fact that the Surface community has selected them for entry based upon their previous performance and desire to serve in the Surface community. Further, in addition to being "Best and Fully Qualified," careful consideration should be given to the soft breakout language contained in block 41 of the fitness reports, recommendation for DH Afloat, and the recommendations for leadership and future service.

f. Nuclear-Trained SWOs and LCS SWOs. The Surface Nuclear and LCS training pipelines are extremely lengthy (13 months-SWO(N), 12 months- LCS) and demanding to ensure that officers are prepared for the challenge of becoming a Nuclear and LCS-trained SWO. As such, these officers may have only one sea-tour as a DIVO and possibly no observed LTJG fitness reports before beginning a lengthy training pipeline with no observed fitness reports during this period and their first look for DH Afloat. In these cases, in addition to being "Best and Fully Qualified," careful consideration should be given to the soft breakout language contained in block 41 of the fitness reports, recommendation for Department Head Afloat, and the recommendations for leadership and future service.

g. Advanced Qualifications. Officers who possess advanced qualifications, to include Tactical Action Officer (TAO), Engineering Officer of the Watch (EOOW), Air Warfare Coordinator (AAWC), and Surface/Undersea Warfare Coordinator (SUWC), should be viewed favorably. These qualifications are recorded either via an AQD in the officers record (TAO – LF6/LF7, EOOW – LC1-LC9, KD1 for SWO(N)) or via a qualification letter.

h. Not-Fully Qualified Officers. Officers not meeting the established "Fully Qualified" standard will be consolidated and briefed en mass in one list to the board. These officers will receive a full confidence vote as a group. This look will still count against their eligible looks.

i. Single Long Tour (SLT) Division Officers. Starting with YG20, the SWO community has

Subj: ORDER CONVENING THE FY-26 SURFACE WARFARE OFFICER DEPARTMENT
HEAD SCREEN BOARD

provided Division Officers with the option to request a SLT of at least 36 months. Officers selected for a SLT must be screened for SWO Department Head. These officers have signed a letter of intent stating they intend to submit a Department Head Retention Bonus (DHRB) contract and execute a SLT DIVO tour if selected for SWO DH. These records will be designated with a "SLT" stamp. The board should view these records favorably, as these officers have indicated intent to serve as a SWO DH.

j. Letters of intent/DHRB contracts. Some officers have chosen to demonstrate their desire and motivation to serve as a DH by submitting either a letter of intent or a signed DHRB contract. While these contracts are not considered binding, the board should factor the demonstrated intent along with the officer's record when making sections. Officers demonstrating intent to sign DHRB and commit to the Surface community if selected should be viewed favorably.

k. Junior Service College. All SWO DH screened officers will also be considered as screened for junior service colleges to include in-residence graduate education.

l. LDO Conversion to SWO. Active Duty Surface LDOs (61XX) with a minimum of 2 years commissioned service who have petitioned the board for selection for conversion will be considered. Selection for conversion requires candidates to complete requirements for conversion within 24 months of selection to complete conversion to SWO. Selection also denotes selection for SWO DH.

5. The board need not select to the numbers provided. The authorized number to select should only be attained if there are a sufficient number of candidates determined fully qualified.

M. W. BAZE
