

Announcing the implementation of a new Navy Enlisted Classification **TRACKING** (NEC) code for **EMT & Paramedic**, reflecting the advanced training and critical skills of our Sailors in this field.

NECs: L50A – EMT L50B - Paramedic

Effective Date: Immediately

Eligibility:

- Hold a current, unrestricted National Registry of Emergency Medical Technicians (NREMT) certification for EMT or Paramedic.

Submission Process:

1. Members **MUST** affiliate with the Navy 'State' and then 'Navy Office of BUMED Medical Director' within NREMT for tracking and visibility. Please visit <https://www.nremt.org/>
2. **Email the following information to usn.ncr.bumedfchva.mbx.navy-office-of-ems@health.mil AND ingrid.k.mahoney.mil@health.mil**
 - Name (Last, First, MI) and Rank
 - DODID
 - Email address
 - NREMT Licensure number and copy of their card
 - BLS, ACLS, PALS, etc. (copies of any resuscitative medicine certification cards)
 - Duty Station and UIC (will use this to determine oversight/Local Medical Director as we build this process)
 - PRD

These new NECs accurately identify and recognize the specialized skills of our Navy EMT and Paramedics, enhancing career development opportunities and ensuring proper manning for our ERCS EXMED platforms.

Qualified Hospital Corpsmen are highly encouraged to submit their documentation promptly.
