Notes:

1. "A" school is required for this rating.
2. This is a compression rating.
3. E8 and E9 SEABEE Ratings: Three of the seven Seabee ratings compress to one rating at the E8 level. All Seabee ratings compress at the E9 level.
 - a. CUCS - BU/EA/SW
 - b. CBCM – CE/CM/CU/EO/UT
4. SEABEE NECs: 804G Expeditionary Combat Skills, 811A 3MC, 830A HAZMAT Control Tech, 833A Disaster Prep Op and Training, B00A Construction Inspector, B02A Uninterruptible Power Supply (UPS) Maintenance, B04A CE Advanced, B05A Cable Splicing Tech, B14A Tool and Equipment Tech, B15A Planning and Estimating, B19A Seabee Technical Security Specialist (STSS), B22A Safety Inspector, 747A Central Office Exchange Tech.
- NEC Notes: NECs may be challenged/earned based upon civilian occupation and training documentation. Most advanced skill schools that award NECs are tied to billets coded for that skill. Proper career and unit RUAD management is essential to provide these training opportunities. NCBs possess the majority of these billets.
5. Occupation Field 7 (OF-7) Rating: Ratings in which primary technical focus is construction and consideration should be given to technical skill.
6. Warfare Qualification: The Seabee Combat Warfare (SCW) specialist warfare qualification designation was established in 1992. Qualifying units are a Naval Mobile Construction Battalions (NMCBs), Naval Construction Battalions (NCBs), the Amphibious Construction Battalion (ACB), and the two Underwater Construction Teams (UCTs). The Expeditionary Warfare Specialist (EXW) warfare qualification designation was established in 2006. Qualifying commands are NMCB, NCB, Maritime Expeditionary Groups/Squadrons (MSRON), Naval Construction Regiment (NCR), Navy Expeditionary Logistics Units, and Naval Special Warfare (NSW).

CE CAREER PATH SELECTED RESERVE (SELRES)

7. Challenging Assignments:

a. Naval Construction Battalions (NCBs): NCBs (Previously NMCBs) provide advanced base construction support to joint military environments including force protection, public works, expeditionary construction humanitarian assistance, disaster recovery while maintaining a high level of mobility. Current SELRES rotations are five years with a unit mobilization averaging once every five years. SELRES NCBs are home ported in Port Hueneme, CA and Gulfport, MS.

b. Naval Special Warfare (NSW): Combat Service Support units within the two reserve SEAL teams deploy regularly to provide logistic, construction and camp maintenance support to deployed NSW elements. This is a screened command with high physical fitness and performance standards. The NEC 854A NSW(CSS) may be earned. A security clearance is needed for these billets.

c. Amphibious Construction Battalions (ACBs): Provides ship to shore transportation of fuel, materials, and equipment by means of barge ferry operations. ACBs construct elevated and floating causeway piers, install ship to shore fueling systems, erect medium-size portage-support camps, and provide camp support, perimeter defense, and construction support. Deployments are numerous and short-term. Each ACB has a sea and shore component. Currently, ACB1 is home ported in San Diego, CA.

d. Recruit Division Commander/Instructor: These billets are challenging leadership positions associated with the process of "Sailorization" and developing the force. Must be SCW qualified and have a history of sustained superior performance to qualify for these billets.

Considerations for advancement from E6 to E7

E7 Selection Board. Highly competitive candidates for selection as a Chief Petty Officer have met many or all of the following milestones:

- Sustained superior performance broken out amongst their peers as documented on evaluations.
- ALDC graduate
- Documented leadership, and the results of that leadership, on the commands mission and Sailors. CE1's should seek out and request demanding jobs (listed in order of responsibility and scope starting with the most demanding) such as Region LPO or Company LPO, Detachment OIC, AOIC, or LPO, any position that normally requires a Chief Petty Officer but is being filled by a CE1 (such as QC Chief or Safety Chief), Battalion OPS LPO, Battalion Training LPO, Platoon CDR or Chief and Platoon LPO.
- Special consideration should be given to those sailors who have documented success in the above jobs; especially if successfully held while on deployment.

CE CAREER PATH **SELECTED RESERVE (SELRES)**

- *Note* Terms loosely used on evaluations such as OPS LPO or Training LPO may only reflect det, squad, or platoon level and are not of the same significance as the broader, wider, scope of the Commissioned unit, such as the above listed examples of direct leadership. Special attention should be paid to the number of sailors led and where led (deployment).
- For construction projects, if assigned, documented success as a project supervisor.
- SCW qualified a must if assigned to a qualifying unit. Qualifying units listed above.
- EXW qualified a must if assigned to a qualifying unit. Qualifying units listed above.
- Documented success improving warfighting readiness for the unit should be viewed positively.
- In rate knowledge, earned advance CE NEC and/or other CE, NCF related NECs; if possible.
- Journeyman electrician a plus. Use of this knowledge to train/develop junior CEs and impact on command mission. LPO or lead for the Safety or Quality Control programs.
- First Class Petty Officer Association (FCPOA) with strong involvement and documented impact. Special consideration should be given to those in leadership positions.
- SAILOR 360 with strong involvement and documented impact. Special consideration should be given to those in leadership positions
- Mentorship and professional development of Sailors. Told what they did, how they did it and showed results.

Considerations for advancement from E7 to E8
