

IC CAREER PATH (SW)

Interior Communication Electricians (IC). ICs operate and perform organizational, intermediate, corrective and preventive maintenance on interior communications, alarms, warning systems, ship controls, entertainment, navigation, flight deck video and control systems, and plotting equipment. This is a sea intensive rating.

1+/-	ICSN ICSA Accession Training	9 Months			Recruit Training and all schools or training events required to be completed prior to reporting to their first operational command

Notes:

1. "A" School and Security Clearance is required.
2. Deployable Sea and Land components located in the 7th Fleet AOR, 6th Fleet AOR and 5th Fleet AOR are extremely arduous, with deployable units being out of homeport well above CONUS average.
3. Instructor Duty billets can prevent a member from being in a leadership position. This fact is due to the sheer number of Chief Petty Officer and First Class billets at schoolhouses.
4. Tours at NPC and BUPERS require special screening and are highly competitive in nature.
5. Personnel assigned to RTC, OTC and Naval Academy as a Recruit Division Commander, are carefully screened and selected for this high priority assignment.
6. In-rating shore duty is limited and typically assigned as "A" or "C" School Instructors, DMA overseas, and IMAs. Most are encouraged to take a tour in recruiting or as an RDC. The IC rating is sea intensive, but currently there are no billets onboard LCS platforms.
7. Sea duty for ICC/ICCS/ICCM is large decks (CVN/LHA/LHD/LCCs) or 3MC, although limited.
8. All Shore special programs require screening.
9. The majority of V78B billets are overseas and Type 1 duty. All of the DMA billets are joint DOD. However, all V78B Broadcast Engineers have the ability to go to sea as a V78B or as a senior IC.

In addition to the above career path, an IC is advanced due to their proven leadership, qualifications and performance against competition, regardless of billet assigned.

Considerations for promotion from E6 to E7

1. Sea Assignments (all)
 - Manning structure aboard a ship limits opportunity to serve in LPO positions
 - Qualified (I/P) OOD, CSOOW, Duty Dept. Head; (U/W) CSOOW, QAI (CVN Air Dept)
IC's assigned to V2/4 onboard carriers may not have the typical CSOSS Quals expected. IC's assigned to MCM's do not have the typical CSOSS Quals expected but may serve as EDO / Tag out Authorizing Officer qualified
 - Advanced Qualifications (I/P) ATTWO, (U/W) CICWO, CSC, CSRO
 - Achieve all Warfare qualifications available at command
