

OS CAREER PATH (SW)

Operations Specialists (OS). OSs operate RADAR, navigation and communication equipment in the Combat Information Center (CIC) aboard ship. The air, surface, and subsurface tactical situations are plotted, observed, evaluated and communicated in CIC. No two OSs will have the same career pattern; however, on average, the successful OS will complete these career milestones in about the same sequence.

Notes:

1. “A” School NOT required.
2. Tour at BUPERS 3 as an Enlisted Community Manager (ECM) are for high-performing E8s or E9s. It is a highly competitive tour requiring thorough understanding of the Rating and manning and manpower policies. ECMs handle multiple Ratings affecting tens of thousands of Sailors, adjudicate Career Waypoints applications, develop and present advancement quotas, school quotas, accession and strength policies and

OS CAREER PATH (SW)

initiatives for community health. Special consideration should be taken if SCVM is fulfilling and has documented performance in this position.

3. Tour at PERS as an “OS” Rating Detailer is a highly competitive tour requiring thorough understanding of the Rating, manning and manpower policies. Special consideration should be taken if SCVM is fulfilling and has documented performance in this position.
4. Harbor Pilot(MSC), LCAC Navigator and Craftmaster is a special program that requires an arduous and extended training program to qualify, with billets that have increased responsibility.

Key point: Due to the specialized mission of these programs and based on NEC requirements, Sailors are required to re-tour in these communities in order to obtain certain NECs. Though not a closed-loop community, transferring from sea to shore, or shore to sea inside of these programs, is highly desirable and sometimes required because it recycles experience within the program. Due to these factors, staying in these communities should not be considered a negative factor or detractor.

5. Consideration should be given to sailors who have displayed sustained superior performance while serving in Naval Special Warfare (NSW) assignments. These assignments include, but are not limited to, Naval Special Warfare Command, NSW Groups, NSW Units, SEAL Teams, Boat Teams and NSW Logistical Support Units. Such assignments may not be typical of the traditional career path, yet still provide unique leadership and career enhancing opportunities valuable to a well-rounded naval career.
6. Acronyms
 - a. GAAC – Geographic Area Assignment Coordinator
 - b. MRICO – Maritime Regional Interface Control Officer
 - c. AAMDS – Aegis Ashore Missile Defense System
 - d. DWC – Defense Weapons Coordinator

The Littoral Combat Ship (LCS) is a Sea Special Program that uses a Train to Qualify (T2Q) concept. These Sailors will be in a T2Q (ACC 106) status while they receive the unique training required to fill these hybrid billets. LCS’ hybrid billets require significant training time, up to 18 months. Periodic and transfer evaluations while in T2Q will normally be “Not Observed” or will lack competitive rankings. T2Q time does not count against sea tour requirement. Sea shore flow may appear abnormal due to significant training time required. “Off-hull” time is used for unit level training, qualification, technical schools, and leave. Unplanned losses may cause a Sailor to transfer from one crew to another crew and should not be seen as negative.

a. Shore duty

- COMLCSRONONE and COMLCSRONTWO are the LCS ISIC’s and are responsible to train and certify crews in most mission areas. ISIC training teams are similar to Afloat Training Group (ATG) in their scope of responsibility to train and certify.
- LCS is not a closed-loop community. Transferring from sea to shore, or shore to sea, is highly desirable because it recycles experience within the program.
- The Littoral Training Facility (LTF) provides the unit level training that is traditionally conducted during basic and intermediate phase. LTF scores are equivalent to ATG level warfare area drills and inspections.

b. Mission Packages

- Per CNO direction, Surface Warfare (SUW), Antisubmarine Warfare (ASW), and Mine Warfare (MIW) Mission Packages permanently merged with “core” crews. This will

OS CAREER PATH (SW)

reflect as a mid-tour UIC shift and is not derogatory.

- Before the merger, Mission Packages were independent from the crew with their own OIC and SEL, similar to deployed helicopter detachments. Any qualification of crew watch stations (DSO, CSM) was outside of their normal scope of duty.

c. Watch equivalents and acronyms

- CSM – Combat Systems Manager (only on the Independence variant. LCS-2, LCS-4, LCS-6, LCS-8 etc.). CSM combines the duties of SUWC, EW Sup, RSC, and CSRO.
- DSO – Defensive Systems Operator (only on the Freedom variant, LCS-1, LCS-3, LCS-5, LCS-7 etc.). DSO combines the duties of SUWC, EW Sup, RSC, and CSRO.
- FNS – Force Net Supervisor combines duties of TDC, ID OP.
- TAC-COM – Tactical Communications combines duties GCCS, TDC, ID OP.
- JOOD – Significant responsibility in LCS due to limited number of underway bridge watchstanders.
- MPC – Mission Package Coordinator.
- MPCE – Mission Package Computing Environment.
