

2019-20 EDUCATIONAL SKILL REQUIREMENTS

Strategic Intelligence
Subspecialty Code 2400P
Curriculum 990

1. Curriculum Number: 990
2. Curriculum taught at National Intelligence University (NIU)
3. Curriculum Length in months: 12
4. APC not used, GRE is required.
5. The officer must understand the fundamental concepts and be familiar with the basic functional areas of Strategic Intelligence within the Department of the Navy (DON) and the DoD including:
 - a. ESR-1: The officer will understand, analyze, and evaluate the global security environment facing U.S. national security policy makers.
 - b. ESR-2: The officer will understand the role and responsibility of the IC in national security strategy development and implementation.
 - c. ESR-3: The officer will be able to describe, apply, and evaluate the full range of strategic capabilities and constraints of the IC.
 - d. ESR-4: The officer will demonstrate critical and creative thinking skills in identifying, analyzing, and assessing national security threats and opportunities.
 - e. ESR-5: The officer will apply sound principles of leadership and management to national security and intelligence challenges.
 - f. ESR-6: The officer will understand and demonstrate the ability to communicate effectively and operate collaboratively in a joint and interagency environment.
 - g. ESR-7: The officer will demonstrate the ability to conduct independent research and investigation through completion of a thesis or a group capstone project, which meet the requirements of the conferred degree.
 - h. ESR-8 (S&TI only): The officer will understand the S&TI enterprise and will analyze the global context of science and its effects on the complexity, variability, and interdependency of world issues and events.
 - i. ESR-9 (S&TI only): The officer will be able to examine the role of innovation, adaptation, and threat-based utilization of technology through cultural, social, and contextual adaptations across the global scientific environment.

Enclosure (3)

j. ESR-10(S&TI only): The officer will compare and contrast S&TI requirements and examine the appropriate balance between competing demands, including current operations and future conflicts, conventional and irregular warfare, time-dominant and content-dominant needs, and tactical and strategic issues.

k. ESR-11(S&TI only): The officer will comprehend a wide range of S&TI-based threats, both physical and informational, and analyze their roles in intelligence, both from the point of indicators and the intelligence tools needed to identify and mitigate such threats.
