

2017-2019 6403 Core Skill Requirements
NPS Resident Curricula 372/387

Billet subspecialty coding is to be based on the minimum education/training/experience level required for optimum performance. The Meteorology Operational Sciences (6403) subspecialty coding is justified when, in addition to the general criteria stated in NAVPERS 15839 series (Manual of Navy Officer Manpower and Personnel Classification) Part B, the following specific criteria are satisfied:

1. Description of Core Skill Requirements (CSR) Competencies. The listed CSRs are a set of quantifiable skills, traits and experiences that a subspecialist must possess to perform acceptably in a coded billet for the Meteorology Operational Sciences (6403) subspecialty. Meteorology Operational Sciences (6403D) can be met by NAVPGSCOL Curriculum 387 (Meteorology). The billet requires the incumbent apply, instruct, manage programs for, or perform studies/evaluations involving one or more of the following disciplines: Predicting the effects of the atmospheric environment on weapons, systems and platforms, providing for the safety of the fleet and the shore establishment, and supporting strategy and tactics through the application of atmospheric sciences. Specific CSRs are listed below:
 - a. CSR-1: Forecast and assess atmospheric conditions in support of all aspects of naval warfare, with primary emphasis on the tactical impact of environmental parameters which influence manned and unmanned weapons, sensors, and communications systems in open ocean and coastal operations of the naval service.
 - b. CSR-2: Evaluate and compare environmental measures of effectiveness on alternative tactical decisions in order to prepare briefings and to analyze post exercise/action results.
 - c. CSR-3: Teach, instruct, and develop/assess curricula for apprentice to graduate level courses in meteorology.
 - d. CSR-4: Apply a master's level facility of meteorology including a thorough understanding of statistical principles and evaluation, to the solution of meteorological problems at the staff and operational levels.
 - e. CSR-5: Independently evaluate spatial and temporal accuracy and relevance of operational environmental support products furnished to the Fleet, including charts, atlases, overlays, and technical publications, and make recommendations for required improvements.
 - f. CSR-6: Independently perform duties involving meteorology and/or geophysical support to Fleet staffs.
 - g. CSR-7: Interface with the scientific and/or research and development community to provide inputs to research, development, testing and evaluation offices on the effects of the environment on the design, development, and test and evaluation of platforms, sensors, and/or weapon systems and have the ability to communicate with research scientists on an advanced level.

Enclosure (2)

- h. CSR-8: Plan and direct the employment of in-situ and remote sensing systems for the purpose of accurate assessment of the physical environment.
- i. CSR-9: Translate operational Fleet environmental requirements into statements suitable for developmental investigation and introduction into the requirements process.
- j. CSR-10: Understand the data processing of operational environmental products, including shore-based and on-scene systems and have the ability to evaluate numerical models and understand their limitations.
- k. CSR-11: Direct graduate level courses in dynamics of the environment, numerical and synoptic meteorology, and provide direct supervision for those leading to advanced degrees, or exercise technical supervision over military and/or civilian personnel who possess doctorate education in meteorology.
- l. CSR-12: Coordinate the development of dynamic atmospheric modeling using advanced numerical techniques.
- m. CSR-13: Facility in the extension of prognostic techniques relating to physical interaction at the air-sea interface and the development of methodologies for atmospheric prediction schemes.
- n. CSR-14: Manage Navy and Department of Defense programs concerning Positioning, Navigation and Timing and ensure requirements are satisfied.
- o. CSR-15: Complete a prior tour in a billet which allows the incumbent to gain experience in space systems operations and knowledge of the space environment.

2. Applicable Officer Designator(s):

- a. 10XX, 111X, 112X, 113X, 114X, 123X, 13XX;
- b. 18XX.

3. Applicable Billet Designator:

- a. 10XX, 111X, 112X, 113X, 114X, 123X, 13XX;
- b. 18XX.

4. Educational and Significant Experience Criteria.

- a. Coded billets are authorized when the functions of the billet include the CSR competencies listed above (in paragraph 1). For additional clarification regarding definition of suffixes, refer to the NAVPERS 15839I, Vol 1.

b. Authorized Subspecialty Code suffixes represented in this table are annotated "X" for yes; unauthorized suffixes are left blank.

Subspecialty Code Suffixes Authorized				
Billet	Officer	Suffix	Definition	Notes
X	X	C	Proven Doctor of Philosophy	1
X	X	D	Doctor of Philosophy	2
		F	Proven Master's Degree that does not meet all ESRs	
		G	Master's Degree that does not meet all ESRs	
X		H	Master's Degree desired, not required	3
		I	Graduates of the Immediate Graduate Education Program	
		L	Certificate degree at the Master's level	
		M	Proven Post Master's Degree graduate education	
		N	Post Master's Degree graduate education	
X	X	P	Master's Degree in approved Navy subspecialty	4
X	X	Q	Proven Master's Degree	5
	X	R	Proven Significant Experience	6
		S	Significant Experience obtained through OJT	

Note 1: Significant experience in a related subspecialty area after attainment of the PhD. Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.

Note 2: Knowledge obtained from a degree in current subspecialty programs. Does not apply to professional entry level degrees such as medical or JDL. Must be from an accredited school. Competencies listed in paragraph 1.a. through 1.o. are germane.

Note 3: To be used if billet can be filled by master's degree or higher. Will be used as a utilization of master's degree if subspecialty code matches detailing matrix. Manpower requirement may be coded higher, but authorization code would be H coded. H codes do not establish a subspecialty quota requirement.

Note 4: Master's degree in an approved Navy-specific subspecialty. Officer can receive proven-subspecialist credit. Must be from an accredited school. Competencies listed in paragraph 1.a. through 1.j. are germane.

Note 5: Experience tour after master's degree. Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.

Note 6: Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.

5. Major Area Sponsor and Subject Matter Experts

a. Major Area Sponsor: [REDACTED] Deputy Chief of Naval Operations for Information Warfare (OPNAV N2N6)

b. Subject Matter Expert: [REDACTED] Oceanographer and Navigator of the U. S. Navy (OPNAV N2N6E)

c. Action Officer SME: [REDACTED] OPNAV N2N6ET,
[REDACTED]

APPROVED: [REDACTED] *13 Apr 17*
Major Area Sponsor () [DATE]

APPROVED: [REDACTED] *26 May 17*
for Director, OPNAV N12 [DATE]
