

FY22 SRB AWARD PLAN (N13 SRB 003/FY22)

SRBs currently offered to AC only. No SRBs are available to TAR at this time.

The member must have the listed NEC in active inventory. SRB entitlement is not based on DNECs, component NECs, or archived NECs found in the member's NEC History.

9AUG22

 Notes

Award Level and trend

	Newly added skillset! SRB award level addition is effective immediately.
	SRB award level and/or award ceiling increased! The new higher award level and/or award ceiling is effective immediately.
	SRB award level and/or award ceiling reduction. This will become effective on XXXXX. The last day to reenlist for the higher SRB award level being eliminated. This will become effective on XXXXX. The last day to reenlist for the higher previous level is the day prior to the effective date of the elimination, which is XXXXXX. Reenlistments on, or after, the effective date of XXXXXX will not be eligible for an SRB.

SRB entitlement for eligible nuclear-trained

For reductions and eliminations, it may still be possible to move a previously submitted SRB reenlistment to a date prior to the effective date of the reduction or elimintaion. If the request was submitted on, or before XXXXX, it may still meet 35 days from original request submission to the adjusted date of execution. As long as the newly adjusted reenlistment date is also within 365 days of the member's EAOS, or the member is in receipt of unexecuted PCS orders with an unmet OBLISERV, it may be possible to move it. Contact BUPERS 328 for assistance in validating eligibility.

NOTES

- 1 The Navy Enlisted Classification (NEC) 0000, commonly referred to as quad zero, is listed here to establish that Sailors in these ratings/career fields can hold any or no NEC and still be qualified for the SRB provided they meet all other applicable non-NEC related criteria.
- 2 Subsurface or surface designation does not mean an individual must be subsurface or enlisted surface warfare specialist qualified, but it indicates the component of the rating in which they can reasonably be expected to serve. Training, qualifications and previous or projected duty assignments at-sea will indicate the appropriate rating component. When using the force management system and OPINS to input an SRB precertification request, use the rating (with appropriate suffix designation/NEC) as specified in this NAVADMIN. For example, a surface electronics technician with no NEC would submit *ET(SW)* on precertification for rating.
- 3 An SRB approval for all CT, IS, IT and ITS ratings will be contingent upon the Sailor having a current Single Scope Background Investigation (SSBI) or Tier 5 investigation, an active SSBI/Tier 5 or recent submission of an SSBI/Tier 5 package. Commands must verify the Sailor has a current SSBI/Tier 5, active SSBI/Tier 5 or has submitted an SSBI/Tier 5 package and make a note of this in the comments section of the precertification request.
- 4 E-3 to E-6 Sailors only. Sailors selected for E-7 advancement are not eligible for SRB.
- X is used as a placeholder to identify where multiple NECs within a rating are eligible for a stated award level. Sailors in the specified rating that hold an NEC that includes the numbers preceding X are eligible for a stated award level. Sailors in the specified rating that hold an NEC that includes the numbers preceding X are eligible for SRB. For example, SB 09XB includes SB 091B, and SB 092B.
- 6 Reenlistment bonuses for nuclear-trained Sailors.
- a Reenlistment compensation for zones 1 through 3 nuclear trained Sailors holding a nuclear supervisor NEC shall be provided under the Enlisted Supervisor Retention Pay (ESRP) program in line with policies and procedures detailed in reference (c) along with current ESRP multiples.
- b SRB entitlement for eligible nuclear-trained Sailors who reenlist after applying for an officer program will be held pending selection results. For nuclear-trained Sailors only, the date on which conditional release is approved by Nuclear Propulsion Program Manager (OPNAV N133) as directed in reference (d) is considered the date of the application to an officer program with the exception of Seaman to Admiral (STA-21(N)) and Limited Duty Officer (LDO). For STA-21(N) and LDO, the application deadline is considered the suspense date.
- 7 E-4 to E-6 Sailors only. Sailors selected for E-7 advancement are not eligible.
- 8 E-3 to E-5 Sailors only. Sailors selected for E-6 advancement are not eligible.
- 9 FCA SRB eligibility for these skillset qualifiers contingent upon holding one of the following element supervisor NECs: V58A, V59A, V60A, V64A, V66A, V67A, V73A, V74A, V75A
- 10 CTIs must meet minimum language readiness standard (L2/R2) for SRB eligibility, unless they possess a valid *Inability to test* waiver from Navy Language, Regional Expertise, and Culture Office (OPNAV N13F). Sailors holding a CTI NEC must be differentiated by the Enlisted Manning Code (EMC). Only Sailors having one of the following NECs and assigned in the respective EMC are eligible for SRB:
- a NEC: 9ARB, EMC: B511
- b NEC: 9CMN, EMC: B512
- c NEC: 9RUS, EMC: B516
- 11 For submarine Sailors (SS) only.
- 12 Must meet minimum language readiness standard (L2/R2) for SRB eligibility, unless they possess a valid *Inability to test* waiver from Navy Language, Regional Expertise, and Culture Office (OPNAV N13F). This SRB is open to all Sailors holding the 813A NEC, regardless of source rating.
- Sailors are eligible for a +0.5 pay for performance SRB kicker. To be eligible, Sailors must:
- a Have received two Early Promotes (EPs) in block 45 of their three most recent periodic evaluations. Block 8 may indicate REGULAR, FROCKED, or SELECTED. Block 10 must be checked for periodic. No transfer, concurrent or special evaluations will apply. Evaluations are not limited to performance documented in the last three years. The intent is to evaluate the last three periodic evaluations, regardless of how far back in a career that may go, so as not to limit eligibility to only those who have served at a single duty station for at least three years.
- b Have not received Non-Judicial Punishment within the last three years.
- 13 c Have not failed any part of the physical fitness assessment in the last three years.
- Commands must submit a NAVPERS 1306/7, Enlisted Personnel Action Request, requesting the SRB kicker, signed copies of the evaluations of the Sailor and a printout of their physical readiness information management system data to BUPERS-328 once their precertification has been submitted. This requirement is only for those who fall under the provisions of this note.
- 14 Dive qualifications must be current IAW MILPERSMAN 7220-090 and validated by BUPERS-32.
- 15 Must have follow on orders back to an operational diving command.
- E-7 must be in a billet requiring this skill set or have orders to a follow on billet requiring this skill set to be eligible for SRB.
