

LDO 6280 (SUBMARINE ELECTRONICS)

DESIGNATOR DESCRIPTION

Submarine Electronics Limited Duty Officers serve as officer technical leaders and managers in the field of non-nuclear electronics. They are responsible for coordinating and supervising the installation, operation and maintenance of electronics systems installed throughout the submarine force. 6280's also assist in the operational evaluation of new installations, modifications to existing systems, and provide operational and technical input to the R&D community for consideration in the design and testing of electronics systems and components. They also assist in the preparation and distribution of operator and maintenance training courses and provide operation and maintenance guidance for electronics systems at all levels of command. 6280's also support CNO Special Projects and may serve as division officers, department heads, or electronics material officers in various operational and staff billets.
