

# Interservice Academy

Interested applicants must be aware of requirements associated with inter-service transfers, as outlined in [MILPERSMAN 1300-082](#). Complete packages must be submitted through an applicant's service chain of command for approval, with a copy concurrently sent to the SEAL OCM to ensure delayed staffing does not preclude SEAL board evaluation. If selected for an inter-service commission, an applicant's final selection is not official until the losing service and gaining service approve the request. Proper routing is the responsibility of the applicant. Packages are due to the [SEAL OCM](#) in the year prior to an applicant's commissioning. Approval of the losing service is due not later than 01 March of the applicant's commissioning year. The inter-service commission process differs for each service. Cadets and/or midshipmen shall coordinate package submission with their chain of command.

## Requirements Overview

- SECNAVINST 1000.7F - Interservice Transfer of Commissioned Officers.
- [MILPERSMAN 1300-082](#) – Interservice Transfer of an Officer into the Navy.
