Military Sealift Command

Are you a Sailor wondering how your skills can translate into the civilian world? Come learn about the military to mariner program, as well as basic information about what civilian mariners do. Following the Norfolk Hampton Roads Regional Command Career Counselor training last month, the Military Sealift Command team met with great interest and feedback from the career counselors. The consensus was that many knew of civilians working on the oilers, from conducting ship operations like UNREPs; however, they didn't know the civilians were affiliated with MSC or even knew MSC existed. Our intent is to inform as many Sailors as possible of this great career opportunity, especially for career counselors to brief Sailors in transition. Our recruiting teams across different fleet concentration areas are excited to provide insight into MSC for transitioning Sailors at various CDS locations.
