BUPERS INSTRUCTION 1640.25

From: Chief of Naval Personnel

Subj: PRISONER RE-ENTRY PROGRAM

Ref: (a) DoD Instruction 1332.35 of 29 February 2016
(b) BUPERSINST 1640.18H

Encl: (1) Re-Entry Program Matrix

1. **Purpose.** To implement a re-entry program to assist prisoners in preparing for release from confinement and successful re-entry into the civilian community, while also complying with reference (a) requirements.

2. **Scope and Applicability.** This policy applies to Navy correctional facilities authorized to confine military personnel for periods of 1 year and greater per reference (b).

3. **Background.** All military personnel, including prisoners, separating from the military Services are subject to the provisions of the Department of Defense (DoD) Transition Assistance Program (TAP). While the DoD TAP requirements are a major component of the prisoner re-entry program, additive requirements are necessary for prisoners releasing from confinement as nearly all prisoners are eventually released back into the civilian community. Successful re-entry as a contributing member of society is a matter of public safety. Offenders face many obstacles upon release from confinement (e.g., unemployment, housing, substance abuse, low self-esteem, anti-social relationships). Obstacles also result from the confinement experience itself. Prisoners have little control over their daily life; they can be overwhelmed by the many choices facing them after confinement and unprepared to make good decisions. Further, confinement removes them from the support networks they once had as well as support that might help them make a successful transition into the community. It is a goal that correctional facilities prepare prisoners to address the immediate and practical needs they will face upon release.

4. **Definitions**

   a. **Re-Entry.** The sum effort of services and support necessary to enable a prisoner to successfully transition into a productive law-abiding citizen, including basic needs assessment that includes, but not limited to: employment and career exploration, housing information and placement, healthcare assistance and referrals, mental health assessment and counseling, transportation, life skills, post-release community referrals, vocational training, educational assessment and services and veteran’s benefits.
b. Pre-Release. The last component of the corrections program that includes a final review of individualized release planning for successful reintegration into society.

5. **Mission, Goals, and Objectives**

a. The re-entry program mission serves to reduce recidivism, contribute to public safety and produce productive and law-abiding citizens following a prisoner’s release from the confinement process.

b. The goal of re-entry is to assist all prisoners with successful transition back into their community or command. This effort entails assisting the prisoners with assessing their re-entry needs, developing their individual transition plan (ITP) and adhering to their program plans that include key facets of their ITP.

c. The objective of this instruction is to identify the minimum (core) corrections-unique foundation of the re-entry program for correctional facilities to build upon, specifying the roles and responsibilities of key staff, components of the program applicable for prisoners of various sentence lengths, topics and issues to be covered, and approved materials and facilitators for each topic or issue. Refer to enclosure (1) for program requirements.

6. **Program Management.** Commanding Officer, Naval Consolidated Brig (NAVCONBRIG) Miramar is designated as the model manager for the prisoner re-entry program and is tasked with supporting development of policies, facility standard operating procedures (SOP), and pre-service/in-service training. Bureau of Naval Personnel (BUPERS) Corrections and Programs Office (BUPERS-00D) provides general guidance and policy for the prisoner re-entry program within the Navy Corrections System. Policy, SOP, and training will be coordinated between applicable correctional facilities and implemented through a designated re-entry program specialist at each facility.

7. **Roles and Responsibilities**

a. Command Career Counselor (CCC). Where assigned to a NAVCONBRIG, Navy career counselors (NCC) are to support DoD TAP requirements per reference (a) for transitioning prisoners, regardless of Service component. Where an applicable level I facility does not have an authorized CCC billet, per its activity manning, provisions must be implemented via local installation resources, contract, or other support means to meet such DoD TAP requirements.

b. Re-Entry Program Specialist. The re-entry program specialist implements and manages the re-entry program at the correctional facility consistent with the provisions of this instruction and SOP template provided by the model manager. The specialist also functions as a social services resource manager, exercising skill and independent judgment in the evaluation and delivery of appropriate resources to enhance prisoner reintegration into the community upon release from confinement.
c. Unit Manager and Counselor. Assist prisoners with adhering to goals in their program plan and ITP by providing guidance, counseling and resources. During counseling sessions, the counselor and or unit manager will track progress on the prisoner’s ITP and program plan and coordinate with other departments as necessary.

d. Clinical Services. Evaluate individual prisoner medical and mental health needs and recommend clinical-based education, programming, or treatment for inclusion in their program plan. Provide an individualized list of potential aftercare providers during pre-release.

8. Resources. Financial resources must be specifically allocated for prisoner re-entry services and activities. Resources will be administered by each correctional facility to support administration and staff training.

9. Facilities. Housing, education, training, work and healthcare facilities must be provided in an equitable fashion that respects gender differences and promotes gender-specific needs. Such support need not be identical but must result in parity.

10. Manpower. The re-entry program, to be viable, must draw upon multiple manpower resources including military, civilian and volunteer staff. Such staff must be carefully selected to ensure they have both, the interest and the expertise, needed to support and promote positive re-entry outcomes for prisoners in confinement. For full-time allocated re-entry program specialists, it is encouraged that the minimum requirements include:

   a. A bachelor’s degree in social science,

   b. At least 2 years of experience in the social services field and or experience with re-entry, and

   c. Possession of knowledge, skills and abilities contained within the current re-entry program specialist position description.

11. Information. Access to accurate and up-to-date information must be provided to prisoners to complete their personalized ITP. Secure kiosk systems installed at correctional facilities may exist for prisoners to use; thus, prisoners should be allowed to actively participate in researching approved sites towards this end. Any kiosk system must be approved by appropriate-level agencies; for Navy, BUPERS Information Assurance Division (BUPERS-073) and BUPERS-00D must be contacted prior to installation and usage. Kiosk systems can complement the re-entry program in a variety of options (e.g., word processing, e-mail, video visitation, reading materials, job searches).

12. Program Plans. Programs must be delivered within the context of a program plan in a unit team environment specifically related to the prisoner’s offense and individual needs. Following completion of the re-entry needs assessment, key aspects of the ITP will be added to the
prisoner’s program plan. The unit manager and or counselor must be closely involved in assessment, case planning, advocacy, service coordination, and on-going monitoring. The prisoner will retain a copy of the ITP and update this document throughout confinement, while reconciling such changes with their counselor during counseling sessions. Changes to the program plan are coordinated via the unit team.

13. **Program Components.** Program components and associated content are contained within enclosure (1). Applicable forms are identified in paragraph 17 of this instruction.

14. **Action**

   a. BUPERS-00D will:

      (1) implement the provisions of this instruction within all applicable correctional facilities.

      (2) provide technical assistance and oversight of re-entry policies to all applicable correctional facilities.

   b. NAVCONBRIGs will implement the provisions of this instruction.

15. **Records Management**

   a. Records created as a result of this instruction, regardless of format or media, must be maintained and dispositioned for the standard subject identification codes (SSIC) 1000 through 13000 series per the records disposition schedules located on the Department of the Navy/Assistant for Administration (DON/AA), Directives and Records Management Division (DRMD) portal page at https://portal.secnv.navy.mil/orgs/DUSNM/DONAA/DRM/Recordsand-Information-Management/Approved%20Record%20Schedules/Forms/AllItems.aspx.

   b. For questions concerning the management of records related to this instruction or the records disposition schedules, please contact your local records manager or the DON/AA DRMD program office.

16. **Review and Effective Date.** Per OPNAVINST 5215.17A, BUPERS-00D will review this instruction annually on the anniversary of its issuance date to ensure applicability, currency and consistency with Federal, Department of Defense, Secretary of the Navy and Navy policy and statutory authority using OPNAV 5215/40 Review of Instruction. This instruction will be in effect for 10 years unless revised or cancelled in the interim, and will be reissued by the 10-year anniversary date if it is still required, unless it meets one of the exceptions in OPNAVINST 5215.17A, paragraph 9. Otherwise, if the instruction is no longer required, it will be processed for cancellation following the guidance in OPNAV Manual 5215.1 of May 2016.
17. Forms

a. The following forms may be obtained from the DoD Forms Management Program Web site at http://www.esd.whs.mil/Directives/forms/dd2500_2999/

   (1) DD 2648 Pre-Separation Counseling Checklist for Active Component, Active Guard Reserve, Active Reserve Full-Time Support, and Reserve Program Administrator Service

   (2) DD 2958 Service Member’s Individual Transition Plan Checklist

b. VA 28-8832 Educational/Vocational Counseling Application may be obtained from the U.S. Department of Veterans Affairs Web site at https://www.va.gov/vaforms/search_action.asp.
