------------------	---------------

1. **Purpose.** To establish requirements for screening and selecting applicants prior to the issuance of permanent change of station orders to Navy Expeditionary Intelligence Command's (NAVEXINTCOM) sea and shore components.

2. **Background.** NAVEXINTCOM sea duty operational billets require duty in arduous and combat environments. Duty is frequently isolated, independent, and involves deployment with various organizations engaged in operations at sea, on the ground, in the air, expeditionary, and littoral zones. NAVEXINTCOM's shore duty staff billets are responsible for the organization, staffing, training, certifying, sustaining, and equipping in support of the command's operational billets. To ensure mission accomplishment, it is essential that both NAVEXINTCOM's sea and shore components (unit identification codes (UIC) 33800 and 40623) recruit, assess, and select the "right" Sailors for the "right" billets.

a. **Designation**

(1) The screening requirements in this article pertain to NAVEXINTCOM Sailors assigned to the following positions:

(a) Tactical counterintelligence (CI) and human intelligence (HUMINT) collectors,

(b) Tactical electronic warfare operators,

- (c) Expeditionary intelligence analysts, and
- (d) Information system operations.

(2) Intelligence specialists (IS), cyber warfare technicians (CWT), cryptologic technicians (collection) (CTR), cryptologic technicians (technical) (CTT), and information systems technicians (IT) will be assigned to one of the positions identified in subparagraphs 2a(1)(a) through 2a(1)(d). These individuals are trained and equipped to provide a wide variety of HUMINT and tactical information operations support, including electronic warfare and select computer-network operations.

b. **Exception.** The screening requirements in this article do not apply to non-information warfare support personnel (i.e., personnel specialists, yeomen, logistics specialists, and gunner's mates).

c. **Location.** Billets are located at NAVEXINTCOM, Dam Neck, Virginia (UIC 33800 and UIC 40623).

d. **Tour Lengths.** Duties with NAVEXINTCOM are classified as type 2 sea duty (UIC 40623) and type 1 shore duty (UIC 33800). Due to the extensive amount of training involved within the sea UIC, the minimum tour length is 48 months or the corresponding sea and shore flow (whichever is greater) with an additional 12-month option to be executed via an approved [NAVPERS 1306/7](#) Electronic Personnel Action Request no later than 15 months to current projected rotation date. Shore UIC Sailors will follow their current shore duty requirement per their rating's sea and shore flow.

e. **Obligated Service (OBLISERV).** Required OBLISERV for this program is 48 months for the sea UIC.

f. **Weapons.** Sailors must achieve and maintain qualifications on various individual weapons. Reference (a), section 922, prohibits access to firearms by persons convicted of any misdemeanor crime of domestic violence. This policy also applies to any felony crimes and general and special court-martial convictions that otherwise meet the definition of a "crime of domestic violence." **Any member disqualified from handling or training on weapons is not eligible for duty at NAVEXINTCOM's sea duty UIC.**

3. **Requirements or Qualifications**

a. **Eligible Personnel**. This article applies to the CTR, CTT, CWT, IS, and IT ratings assigned to NAVEXINTCOM.

b. **Applicant Requirements**. Candidates must meet the following additional requirements:

(1) Must volunteer for assignment;

(2) Have no non-judicial punishment or military or civil convictions, other than traffic violations, in the past 2 years from date of application;

(3) Have no alcohol incidents during the past 2 years;

(4) Be recommended by current chain of command, NAVEXINTCOM, and NAVEXINTCOM CI/HUMINT functional lead or cryptologic warfare officer functional lead (as applicable);

(5) Qualify for and maintain eligibility for a Government travel charge card (GTCC). Loss of eligibility for a GTCC may result in disqualification and subsequent termination from NAVEXINTCOM;

(6) Be eligible to receive a Top Secret/Sensitive Compartmented Information security clearance;

(7) Have no physical fitness assessment failures during the past 3 years from date of application;

(8) Have a current State driver's license; and

(9) Complete an operational duty screening per [MILPERSMAN 1300-800](#) in addition to the screening outlined in this article. Completion of [NAVPERS 1306/92](#) Special Program Screening is not required due to coordination of screening between the Sailor's current command and NAVEXINTCOM.

4. **Termination**. Sailors who no longer volunteer for assignment to NAVEXINTCOM will submit a [NAVPERS 1306/7](#) to Bureau of Naval Personnel Command (BUPERS) Information Warfare Community Branch (BUPERS-327) via Navy Personnel Command (NAVPERSCOM) Information Warfare Distribution Branch (PERS-408) requesting termination, and will be made available for immediate transfer. Sailors who fail to maintain qualifications or demonstrate documented

substandard conduct or performance will be subject to the NAVEXINTCOM's de-screening process. De-screened Sailors will be made available for immediate transfer.

5. **Screening Information.** Detailed screening information may be obtained through the following contacts:

a. For enlisted ratings: NAVEXINTCOM Senior Enlisted Leader, Leading Chief Petty Officer, or NAVEXINTCOM Operations Director (N3) at (757) 492-0832/8478.

b. For officers: NAVEXINTCOM N3 at (757) 492-8484.
