------------------------------------	------------------	-----------------

1. Program Background

a. Per MILPERMAN 1306-953 personnel will comply with the requisite training prior to or upon arrival at the appropriate activity for duty as an instructor. MILPERSMAN 1306-953 delineates the basic qualifications for instructor duty. MILPERSMAN 1306-900 provides the screening requirement for instructor duty.

b. The Base Realignment and Closure Commission (BRAC) 2005 DoD guidance realigned the Community College of the Air Force with the Medical Education and Training Campus (METC). As a result, instructors are now required to have (at a minimum) an Associate's Degree or be able to earn an Associate's Degree within 1 year of reporting to METC - the new tri-service medical training facility at Fort Sam Houston, Texas.

c. Tuition support (if appropriate) will be provided using the Navy's Tuition Assistance Program.

2. Transferring Command Requirements

a. Follow screening requirements provided in MILPERSMAN 1306-953 and MILPESMAN 1306-900.

b. Prescreen prospective METC instructors to ensure they have met the education requirements or are within 8-12 credits of degree completion. They are required to attain their Associate's Degree within 1 year of reporting to METC.

3. **Receiving Command Requirements**

a. Follow requirements delineated in MILPERSMAN 1306-953 and 1306-900.

b. Should an instructor fail to complete the mandatory education requirements within 1 year of reporting, METC will determine whether it is in the best interest of the command to allow the member more time to complete after considering mitigating factors. METC will take appropriate administrative/disciplinary action if member has not made appropriate progress and coordinate with Navy Personnel Command should reassignment be requested.
