NAVY OFFICER OCCUPATIONAL CLASSIFICATION SYSTEM (NOOCS)

1. Purpose.

a. The Navy Officer Occupational Classification System (NOOCS) is the method the Navy uses to identify skills, education, training, experience and capabilities related to both officer personnel and manpower requirements. This system consists of code structures that form the basis for officer manpower management and officer personnel procurement, training, promotion, distribution, career development and mobilization.

b. The Manual of Navy Officer Manpower and Personnel Classifications, NAVPERS 15839I, published in two volumes, each issued separately, explains NOOCS codes and other code structures and established abbreviations used to identify the qualitative needs for officer manpower and for reporting and recording officer qualifications and other personnel data.

c. Volume I of this manual contains the code structure for each of the four subsystems of NOOCS - Designator/Grade, Subspecialty (SSP), Navy Officer Billet Classifications (NOBC), and Additional Qualification Designation (AQD).

d. Volume II of this manual contains, in addition to a description of the Officer Data Card (ODC), NAVPERS 1301/51, a listing of non-occupational manpower and personnel codes which provides foreign language, ship and station, service school, education, and other identifiers.

e. NOOCS is further complemented by certain manpower-unique codes and officer special qualifications found in Navy Total Force Manpower Policies Procedures, OPNAVINST 1000.16 series, and Naval Military Personnel Manual, NAVPERS 15560, respectively.

2. NOOCS Subsystems/Code Structures.

a. The Designator/Grade structure consists of designators and grades that provide a framework for officer career development and promotion. This structure is the primary administrative means for classifying, identifying and documenting officer manpower resources and requirements.

(1) The Designator (DESIG) structure identifies primary specialty qualifications, associated legal and specialty categories and competitive categories for promotion.

(2) The Grade (GR) structure identifies occupational levels associated with the scale of naval officer paygrade and rank.

b. The Subspecialty (SSP) structure identifies postgraduate education (or equivalent training and/or experience) in various fields and disciplines.

c. The Navy Officer Billet Classification (NOBC) structure functionally describes general occupational duties.

d. The Additional Qualification Designation (AQD) structure identifies additional qualifications and skills not included in the other code structures.

3. NOOCS Control and Application.

a. The Deputy Chief of Naval Operations (DCNO) (Manpower, Personnel, Training and Education) (DCNO (MPTE)) (N1) and the Chief of Naval Personnel (CHNAVPERS) provide policy guidance and system control for NOOCS. A NOOCS Board assists in the management of NOOCS.

b. The Chief of Naval Operations establishes officer billets in Manpower Authorizations (MPAs) and identifies

the qualitative requirements of the billets by NOOCS codes and other codes.

c. The Chief of Naval Personnel records and reports automated information for each naval officer through NOOCS codes and other codes in the Manpower and Personnel Information System (MAPIS). Commander, Navy Personnel Command (PERS-9) maintains similar automated information for each Navy Reserve Officer in the Inactive Manpower and Personnel Management Information System (IMAPMIS).

d. The Under Secretary of Defense (Personnel and Readiness) uses NOOCS codes to relate Navy occupational data to the Department of Defense occupational groupings used in manpower management and policy studies and as a basis for comparing manpower resources in the U. S. Armed Forces.

e. Activities use the NOOCS codes to identify the qualitative requirements of their billets.

4. Recommendations for Establishing, Disestablishing or Revising Subsystem(s) within NOOCS.

The NOOCS Board, per OPNAVINST 1210.2 series, serves as the central point for changes to the Navy Officer Occupational Classification System. Activities proposing establishment, disestablishment, or revision to NOOCS subsystem will send recommendations via email to:

USN NSA Mid-South CHNAVPERS MIL TN Mailbox navmac-noocs

"Via addressees" should make a statement for or against the proposal(s) and provide any additional information that will assist the NOOCS Board in determining whether to approve or disapprove the recommendation.

Encl: (1) Summary of Changes (Change 96)

1. In line with reference (a), the Manual of Navy Officer Manpower and Personnel Classifications is the principal reference manual for interpretation of coded entries on manpower and personnel documents and reports. It is published in two volumes, each issued separately. Volume I of the manual contains the Major Officer Code Structures. Volume II of the manual provides instructions for verification and submission of changes to the Officer Data Card and the means for interpreting codes.

2. Enclosure (1) provides the Summary of Changes to Volume I and Volume II of the Manual of Navy Officer Manpower and Personnel Classifications included in Change 96 and are effective immediately.

A handwritten signature in dark ink, appearing to be "S. R. MORAN", is written over a horizontal line.

PART A

Section 1 General

1. General Categories. Billet and officer designator codes are grouped in general categories as follows:

a. Unrestricted Line. Officers of the line of the Regular Navy and Naval Reserve who are not restricted in the performance of duty.

b.

c. Restricted Line. Officers of the line of the Regular Navy and Naval Reserve who are restricted in the performance of duty by having been designated for aviation duty, engineering duty, aerospace engineering duty, or special duty.

d. Unrestricted Line - Prospective Staff Corps. Unrestricted Line officers under instruction as prospective officers of a specific staff corps.

e. Staff Corps. Officer of all staff corps of the Regular Navy and Naval Reserve. The eight staff corps are:

(1) Medical Corps	(5) Nurse Corps
(2) Dental Corps	(6) Supply Corps
(3) Medical Service Corps	(7) Chaplain Corps
(4) Judge Advocate General's Corps	(8) Civil Engineer Corps

f. Limited Duty - Line. Officers of the line of the Regular Navy and Naval Reserve appointed for the performance of duty in the broad occupational fields indicated by their former warrant designators or enlisted rating groups.

g. Limited Duty - Staff. Officers of the staff of the Regular Navy and Naval Reserve appointed for the performance of duty in the broad occupational fields indicated by their former warrant designators or enlisted rating groups.

h. Chief Warrant - Line. Officers of the line of the Regular Navy and Naval Reserve appointed to chief warrant officer for the performance of duty in the technical fields indicated by former enlisted rating groups.

i. Chief Warrant - Staff. Officers of the staff of the Regular Navy and Naval Reserve appointed to chief warrant officer for the performance of duty in the technical fields indicated by former enlisted rating groups.

2. Officer Billet Designator Codes

a. The officer billet designator codes are four-digit numbers used to identify the primary naval specialty qualifications required of the billet incumbent and to administratively categorize officer billets for proper management and identification. They serve as a manpower management tool when used in conjunction with the officer designator codes. These codes are entered in the Manpower Authorizations (OPNAV Form 1000/2) to indicate the categories of officers required for the billets.

b. Category Definitions of Billets Requiring Aeronautically Designated Officers

(1) Code 0 - Other Than Operational Flying Billet. This category billet (Designator Codes 13X0, 1500, 1510, and 1520) require an aeronautically designated officer because of his/her aviation oriented background, experience and warfare expertise, but no requirements exists to operate an aircraft or its weapons systems in support of specific aviation operational missions. Certain aeronautically designated incumbents of other than operational flying billets are eligible to participate while in a DIFDEN status as described in OPNAVINST 3710.7 series.

(2) Code 1 - Operational Flying. This category billet (Designator Codes 13X1, 15X1, 6321, and 7321) is derived from the application of crew ratios multiplied against unit equipped aircraft. It is a billet in which an aeronautically designated officer is required to participate as a crew member in the operation of an aircraft or its weapons systems in support of specific aviation operational missions. Such operational missions include, but are not limited to, Tactical Air, ASW, SAR, Fleet Support, Training, Test and Evaluation, Logistic or Staff Support. In each instance, incumbents of operational flying billets are required to maintain basic flying skills and to fly frequently and regularly in the performance of their assigned duties. Such flying is considered operational flying as defined in paragraph 1001 of OPNAVINST 3710.7 series.

(3) Code 2 - Operational Flying. This category billet (Designator Codes 13X2, 15X2, 1712, 1802, 2102, and 2302) require an aeronautically designated officer to fly frequently and regularly in the performance of the assigned duties, but the requirement is not derived from the application of crew ratios against unit equipped aircraft. Designated billets involve crew member flight duties which vary from complete aircraft/weapons system utilization to those less demanding in airborne duties and frequency of flight. Such operational missions include, but are not limited to, pertinent flight functions involving the exercise of Command and Control of Aircraft, Mission Support, Flight Safety, Aircrew Evaluation, Operational Readiness, Maintenance Programs and Weapons Test Evaluation. Such flying is considered operational flying as defined in paragraph 1001 of OPNAVINST 3710.7 series.

3. Officer Designator Codes

The officer designator codes are four-digit numbers used to group officers by categories for personnel accounting and administrative purposes and to identify the status of officers. These codes identify, through the first three digits, the categories in which officers are appointed and/or designated and, through the fourth digit, the status of the officers within the various categories. A listing by the first three digits of the officer designator codes and their description and the translation of the fourth digit are included in the following section.

4. Officer Community Manager (OCM)

As indicated in the following section, are assigned by the CNO to represent the special interests and provide management advice for the respective specialty categories. Specific responsibilities are assigned in OPNAVINST 1210.2 series.

5. Recommendations to Establish, Disestablish, or Revise Designators

a. Commands recommending establishing, deleting or revising codes within the designator structure should include the appropriate information as follows:

(1) Recommendations to establish a designator code must include:

(a) Recommended code number and description

(b) Background

- Innovations involved
- Problem areas (current and future)

(c) Training and education

- Current
- Proposed
- Savings - if any
- Long range implications

(d) Funding implications

- New costs
- Programmed funds/billets

(e) Billet structure

- Before change, number and grade spread
 - After change, number and grade spread
 - (f) Promotion
 - (g) Distribution
 - NOBC/AQD/SSP code implications
 - (h) Reserve implications
 - (i) Personnel affected
 - (j) Advantages
 - (k) Disadvantages
 - (l) Recommendations
 - (m) Point of contact (include telephone (both commercial and DSN) number, fax number, and e-mail address)
- (2) Recommendations to disestablish a designator code must include:
- (a) Code number and title
 - (b) Background (reason for deletion)
 - (c) Training and education
 - Necessary retraining
 - Savings - if any
 - Long range implications
 - (d) Billet structure
 - Before change, number and grade spread
 - Information on how to recode personnel presently coded with this designator (include effective dates)
 - (e) Personnel affected (include inventory depletion)
 - (f) Information requested in paragraphs 5a(1)(h) and (j) through (m)
- (3) Recommendations to revise a designator code must include:
- (a) Current code number and title
 - (b) Proposed recoding, retitling and/or rewording of current designator
 - (c) Justification for proposed revision
 - (d) Information, as applicable, requested in paragraphs 5a(1)(c) through (m)

b. Submit all recommendations according to the procedures outlined in the introduction of this manual. Include BUPERS (BUPERS-31) as community managers for the designators in the "via addressees".

PART B

SUBSPECIALTY CODES

Section 1: General

1. Navy Subspecialty System

a. Navy manpower systems use subspecialty codes to identify subspecialty requirements and personnel that are subspecialists. The Navy Subspecialty System (NSS) employs subspecialty codes to facilitate the assignment of subspecialists to subspecialty-coded billets and generate the Navy's advanced education requirements.

b. Subspecialties are professional disciplines secondary to an officer's primary specialty (Designator) and apply to Unrestricted Line, Restricted Line, and Staff Corps officers. Officers gain subspecialist designation by satisfactorily completing advanced experience programs that meet the Education Skill Requirements (ESRs) and Core Skill Requirements (CSRs). Subspecialty suffixes indicate whether a Master's or higher degree program from an institution of higher learning accredited by an agency recognized by the Department of Education (see Volume II of this manual), programmed funding, and Navy Officer Occupational Classification System (NOOCS) approval.

c. CSRs specify the functional areas covered by a subspecialty discipline. They are a set of quantifiable skills, traits and experiences that a subspecialist must possess to perform acceptably in a coded billet. ESRs are the degree program elements required to meet a subspecialty's CSR. Degree programs require formal education curricula that meets occupational requirements (billets must be reviewed as directed in DoD Directive 1322.10 and OPNAVINST 1520.23B). Subject Matter Experts (SMEs) develop CSRs and ESRs under Major Area Sponsor (MAS) cognizance. OPNAV N711 approves ESRs and CSRs, biennial curriculum reviews and validation of Subspecialty Billet requirements and authorizations.

d. OPNAVINST 1000.16 series and OPNAVINST 1520.23 series set subspecialty policy. This manual details procedure for establishing and applying subspecialty codes and describes the roles of SMEs, MASs, Officer Community Managers (OCMs) and activities.

2. Subspecialty Codes

a. Subspecialty Code Description. Subspecialty codes consist of four numerals and an alphabetic suffix:

(1) The 1st digit indicates the subspecialty Major Area:

- (a) 1 = Staff Corps
- (b) 2 = National Security Studies
- (c) 3 = Resource Management and Analysis
- (d) 4 = Applied Disciplines
- (e) 5 = Engineering and Technology
- (f) 6 = Operations.

(2) The 2nd digit indicates Concentration Area.

(3) The 3rd and 4th digits provide specificity (further specialization as required).

(4) The suffix (5th character) indicates the level of education or experience.

b. Subspecialty Coded Billet Restrictions

(1) Flag Officer billets: Subspecialty codes are not applicable to billets.

(2) Unrestricted Line shore duty billets: Subspecialty codes should not be applied below the grade of Lieutenant Commander (LCDR) for Master's level and higher requirements.

(3) Selected Reserve (SELRES) billets: Subspecialty codes limited to medical subspecialties (15xx-19xx).

3. Subject Matter Experts (SME).

(a) Current information for SMEs is located at the Navy Subspecialty Web site:

<http://www.nps.edu/Academics/Subspecialty.html> No login required. Click on Navy Subspecialty System, then click on the help/information section and scroll down to Subspecialty Codes.

(b) The POC SME's email information for the Navy Subspecialty Codes is in the Table below. The Major Area Sponsor's will update the contact information every 2 years or if the POC has retired, transferred or assumed another position.

*Civilian Institution (CIVINS) Program (all other curricula provided at Naval Postgraduate School)					

Note 1: Subspecialty 3105 is awarded following a review by Naval Postgraduate School and the Major Area Sponsor. Degrees may come from any Association to Advance Collegiate Schools of Business (AACSB) accredited institution that meets published ESRs.

Note 2: Subspecialty 3111 is not awarded based solely on education (i.e., 3111P is not a valid officer code). However, it is a valid billet code. A billet with subspecialty 3111P may be filled by an officer holding subspecialties 3100P, 3105P, or 3110P. Subspecialty 3112 is a billet only code. It should only be filled with an officer who holds a 3111 subspecialty.

Note 3: Subspecialty curriculum may have tracks within that may have multiple subspecialty codes.

Note 4: Billets coded with 6511 require an officer with SSP 1306, 3100, 3111, 3210, 3211, 58XX, 6500, 6501, 6502, or 6511. Officers are awarded SSP 6511 based on Requirements Management experience.

Note 5: Awarded to all who have completed the Nuclear Power training pipeline.

Note 6: Subspecialty 3000 will only be award “P” and “D” suffixes based on meeting educational requirements.

Note 7: No longer open for admission at NPS. Curriculum in the process of retirement or retired. Subspecialty codes will remain in officers’ records but will no longer be attained by future students at NPS.

Note 8: Minimum requirement for awarding the 3000P subspecialty is a master’s degree in management (e.g. Business Administration, Finance, Business Analytics, Leadership, Human Resources, Health Administration, etc.) , PERS-451 or My Navy Career Center are authorized to award the 3000P subspecialty without subject matter approval.

2. Medical Subspecialty Codes. The following criteria shall be used in the assignment of subspecialty codes to identify officers in the Medical Department (Subspecialty Codes 15XX-19XX):

- a. Subspecialty 1 - Specialty in which an officer is currently fully credentialed and actively practicing as a primary duty, or the specialty for which the officer is in training. Trainees are not counted in specialty inventories.
- b. Subspecialty 2 - Fully trained, may not be currently credentialed or actively practicing the specialty as a primary duty. Usually the specialty in which trained prior to attaining Subspecialty 1. May require refresher training to become fully credentialed.
- c. Subspecialty 3 - Fully trained, may not be currently credentialed or practicing the specialty. Usually the specialty in which trained prior to attaining Subspecialty 2. May require lengthy refresher training to become fully credentialed.

Note 1: 1800 indicates a billet requirement for a Health Care Administrator of the Medical Service Corps with the specified level of education and/or experience in health care administration or related management disciplines.

Note 2: 1900 indicates a billet requirement for a Nurse Corps officer qualified in any of the disciplines included within the field with the level of education, training, or experience as specified by the suffix.

3. Suffix Definitions

a. Subspecialty Suffix (non-Medical).

SUFFIX	Short Title	Description	Remarks	Billet Code	Officer Code
A	Associate's Degree	Associate's degree with a major concentration in a specific subspecialty field.		No	Yes
B	Bank	Master's degree or higher without subspecialty compensation.	Only used during out-of-cycle reviews. Billets qualify for officers requesting proven- subspecialist credit.	Yes	No
C	Proven Doctor of Philosophy	Significant experience in a related subspecialty area after attainment of the PhD.	Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.	Yes	Yes
D	Doctor of Philosophy (PhD)	Knowledge obtained from a degree in current subspecialty programs.	Does not apply to professional entry level degrees such as medical or JDL. Must be from an accredited school.	Yes	Yes
E	Bachelor's or Baccalaureate Degree	Knowledge obtained from a degree in current subspecialty programs.		Yes	Yes
F	Proven Master's Degree that does not meet all required ESRs.	Proven code for G coded officers.	Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using CSR of a related subspecialty.	No	Yes
G	Master's Degree that does not meet all required ESRs.		Must be from an accredited school.	No	Yes
H	Master's Degree desired not required.		To be used if billet can be filled by master's degree or higher. Will be used as a utilization of master's degree if subspecialty code matches detailing matrix. Manpower requirement may be coded higher, but authorization code would be H coded. H codes do not establish a subspecialty quota requirement.	Yes	No
I	Graduates of the Bowman Scholar Program	1120 officers selected to attend a specific technical degree for 12 months immediately following graduation from USNA.	Officers will retain I code suffix associated with degree completion throughout career. Officers may complete a utilization tour in a general or specific master's coded billet, however officers will retain the I code for tracking.	No	Yes
J	Subspecialty Trained	Approved programs must be listed in CSRs.	Formal training related to a subspecialty ESR not classified in AQD system.	Yes	Yes
K	Professional Certification	Approved programs must be listed in CSRs.	In a subspecialty related field.	Yes	Yes
L	Masters Level Certificate	Approved programs must be listed in CSRs.	In a subspecialty related field	Yes	Yes
M	Proven Post Master's graduate education		Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.	Yes	Yes
N	Post Master's Degree graduate	Education after Master's Degree (such as Engineering license).	Must be from an accredited school. Must meet ESRs. Specific subspecialty	Yes	Yes

SUFFIX	Short Title	Description	Remarks	Billet Code	Officer Code

O	Not used	N/A		N/A	N/A
P	Master's Degree	Master's degree in an approved Navy-specific subspecialty.	Officer can receive proven-subspecialist credit. Must be from an accredited school.	Yes	Yes
Q	Proven Master's Degree	Experience tour after Master's degree.	Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.	Yes	Yes
R	Proven significant experience	Experience desired to fill the billet. Preference is for a R coded officer, can be filled by a S coded officer to earn R code.	Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.	Yes	Yes
S	Significant experience Knowledge obtained through on-the-job training (OJT).	No experience needed to fill the billet. Preference is to fill with an S coded officer.	Significant experience is met by serving 18 or more consecutive months in a subspecialty coded billet or a billet using the CSR of a related subspecialty.	Yes	Yes
T	Officer code only – not applicable to billets. Officer in training.	Code used in Officer Assignment Information System (OAIS) while officers are in training.		No	Yes
U	Shoemaker Scholars	New program specifically for the 13XX community. Shoemaker Scholars shall participate in a one-year aerospace or mechanical engineering program at NPS with a June/July start.	Graduates shall receive the "U" suffix subspecialty code for tracking purposes, as well as a "P" or "G" dependent on Education Skill Requirements (ESR) completion.	No	Yes

M	Proven post-Master's degree or certificate		Requires officer with N code and one or more tours post degree. Nurse Corps (NC) requires certification.	No	Yes
N	Post-Master's degree or certificate		Knowledge obtained from a Post-Masters graduate degree or certificate program	No	Yes
O	N/A			N/A	N/A
P	Master's Degree	Master's degree in an approved Navy-specific subspecialty.	Officer can receive proven-subspecialist credit. Must be from an accredited school.	Yes	Yes
Q	Proven Master's Degree		NC Requires officer with P code and board certification. MSC requires a P code from completion of DUINS at NPS and subsequent utilization tour.	Yes	Yes
R	Proven significant experience		If officer is S coded before tour, they will leave with an R code after tour completion (minimum tour 36 months).	Yes	Yes
S	Significant experience	Professional experience and knowledge of theories, principles, processes in the subspecialty field. Knowledge obtained through training and OJT	Officer must serve 12 months to obtain S code. No experience needed to fill the billet.	Yes	Yes
T	Officer code only – Not applicable to billets		Used in Officer Detailing Data Base (OAIS) for personnel while in training	No	Yes
U	N/A	N/A	N/A	N/A	N/A
V	Formal preparation beyond basic professional education	BUMED approved program		Yes	Yes

4. Subspecialty Code Criteria. Subspecialty requirements must satisfy these criteria:

- a. General. Criteria requires a naval officer with operational, technical or managerial experience. The position must supervise personnel possessing graduate education and align with the CSRs.
- b. Specific. Criteria requires that the job functions align with the ESRs of a subspecialty degree program.
- c. Level. Criteria requires justifying the level of education or experience of the position.

Section 3 Changes to the Subspecialty System

1. Establishing, Deleting, Revising, or Updating Subspecialties

a. Requests to establish a subspecialty code require a NOOCS package that must include:

(1) Recommended subspecialty code and title.

(2) Recommended designator(s) that can hold the subspecialty code and the minimum and maximum pay grades applicable to officers and billets.

(3) Cost analyses for student Individuals Account (IA) (MPN programming rate--LT and LCDR), student IA (RPN programming rate--LT and LCDR), Navy student non-IA, foreign student non-IA, other service student non-IA, and funding implications such as curriculum development including CSRs and ESRs, instructor workload, Military Construction (MILCON), Other Procurement - Navy (OPN), and student throughput needed to maintain curriculum; Detailed funding source and approved Program Objective Memorandum (POM) line item. Consult Warfighter Development (OPNAV N71) for CSR/ESR guidance. Cost Analysis, CSRs, ESRs forms attached at appendix(c). Downloadable forms are available on the Navy Subspecialty Web site: <http://www.nps.edu/Academics/Subspecialty.html>

(4) Subspecialty-coded billets by activity name, activity Unit Identification Code (UIC), Billet Identification Number (BIN), Billet Sequence Code (BSC), billet title, designator and grade, proposed subspecialty, any existing subspecialty coding, and minimum number of officers required at NPS to support a curriculum. Consult NPS Programs Office and Warfighter Development (OPNAV N71) for guidance.

(5) Specific degree program, degree awarded, and ESRs required. Each ESR that requires additional courses above the degree requirements requires justification and cost analysis.

(6) Identification of any foreseeable contingencies that may impact the subspecialty program.

(7) Justification of requirement for a subspecialty including historical and amplifying information.

(8) Identification of any Reserve Component implications.

(9) Applicable MAS and SMEs.

(10) Point of contact information including telephone numbers (Commercial and DSN), fax number, and e-mail.

(11) Completed Curriculum review establishing or changing a subspecialty code.

b. Recommendations to disestablish a subspecialty code require a NOOCS package that must include:

(1) The subspecialty code and title to be disestablished.

(2) Reason for deletion; provide all background material associated with making of the decision to disestablish.

(3) Preference to recode billets and subspecialists:

(a) Recoding of billets should be completed during the biennial revalidation process, if possible. Provide billets for recoding if outside of the revalidation process.

(b) Officers holding specific subspecialty code may retain subspecialty or be recoded to another subspecialty. Provide preference under the guidance of Professional Development Education and Subspecialty Branch (PERS-45).

(4) Identification of Reserve Component implications.

(5) Extent of coordination with MASs, SMEs, Claimants, etc. Consult with NPS and Warfighter Development (OPNAV N71).

(6) Provide point of contact information including telephone numbers (Commercial and DSN), fax number, and e-mail.

c. Recommendations to revise a subspecialty code require a NOOCS package that must include (revision is defined as a substantial change in meaning to an existing subspecialty code):

(1) Subspecialty code and title to be revised.

(2) Reason for revision.

(3) Recommended changes.

(4) Changes to this manual or OPNAVINST 1000.16 series.

(5) Listing of designators that can hold the subspecialty including minimum and maximum pay grades.

(6) Cost analyses for student IA (MPN programming rate—O-3 and O-4), student IA (RPN programming rate – O-3 and O-4), Navy student non-IA, foreign student non-IA, other service student non-IA, and funding implications such as curriculum development including education skill requirements (ESR), instructor workload, Military Construction (MILCON), OPN, and student/training billets needed to maintain curriculum; Detailing funding source and approved Program Objective Memorandum (POM) line item. Consult Warfighter Development (OPNAV N71) for ESR guidance.

(7) Impact to existing or proposed subspecialty-coded billets by activity name, activity Unit Identification Code (UIC), Billet Identification Number (BIN), Billet Sequence Code (BSC), billet title, designator and grade, proposed subspecialty, any existing subspecialty coding, and minimum number of officers required at NPS to support a curriculum. Consult NPS and Warfighter Development (OPNAV N71) for guidance.

(8) Updating of CSRs and state impact to education curricula and ESRs.

(9) Identification of any foreseeable contingencies that may impact the subspecialty program.

(10) Justification for a subspecialty revision including historical and amplifying information.

(11) Identification of any Reserve Component implications.

(12) Completed curriculum review subspecialty code with the revisions and a copy of the existing curriculum review.

(13) Point of contact information including: telephone numbers (Commercial and DSN), fax number, and e-mail.

(14) Identification of Major Area Sponsors and Subject Matter Experts.

(15) Preference to recode billets and subspecialists.

(a) Recoding of billets should be completed during the biennial revalidation process, if possible. Provide a Billet Change Request (BCR) for recoding of billets if outside of the revalidation process.

(b) Officers holding specific subspecialty code may retain subspecialty or be recoded to another subspecialty. Provide preference under the guidance of Professional Development Education and Subspecialty Branch (PERS-45).

d. Recommendations to update a subspecialty code whereas update is defined as an administrative change to an existing subspecialty code. Updates do NOT require a NOOCS package, but must be formally documented in a memorandum or curriculum review letter signed by MAS/SME, NPS, and Warfighter Development (OPNAV N71). This

signed memorandum or approved curriculum review letter can be forwarded to NAVMAC to update the Navy subspecialty system. Examples of administrative updates include:

(1) Subspecialty code title

(2) Curriculum number (s)

(3) MAS/SME assignment

(4) Additional subspecialty codes that apply only to officers to delineate specific curriculum tracks and do not require additional NPS resources to support.

2. All subspecialty packages must be coordinated first through the Warfighter Development (OPNAV N71) or BUMED N1, (for medical specific subspecialty codes) prior to submission to NAVMAC and the NOOCS process. Consult with NPS for curriculum changes. MAS, SME, Community Management, and BSO coordination is required before implementing any changes.

3. Submit recommendations to establish, revise, or disestablish subspecialty codes through the appropriate chain of command to:

DIRECTOR, NAVY MANPOWER ANALYSIS CENTER
ATTN: CODE 10
5720 INTEGRITY DRIVE, MILLINGTON, TN
38054-5011.

Section 4

Responsibilities

1. General Roles. Commands identify the subspecialty needs of the Navy. Budget Submitting Offices (BSOs) validate and program subspecialty requirements. Officer Community Managers (OCMs) ensure subspecialist career paths and manage the inventory of subspecialists. Major Area Sponsors (MAS) and Subject Matter Experts (SMEs) are the technical experts for subspecialty disciplines. Director, Warfighter Development (N71) coordinates all subspecialty management policies and functions.

2. Commanders and Commanding Officers. Commanders and Commanding Officers determine if a billet requires a subspecialty code and shall.

- a. Originate subspecialty requirement requests expressing minimum requirements necessary to support the mission, function and tasks of the command—submitted to the BSO.
- b. Identify to the BSO all excess subspecialty requirements.
- c. Provide subspecialty-coded billet validation support to BSO by identifying present and future subspecialty manpower requirements and/or authorizations and submitting additions, changes, or deletions via Total Force Manpower Management System (TFMMS).

3. Budget Submitting Offices (BSOs). BSOs may delegate subspecialty responsibilities to the activity level, but all subspecialty requirement requests must be routed via BSO for review. BSOs must:

- a. Review all Subspecialty requirement requests originating from assigned activities that propose changes to activity manpower authorizations.
- b. Submit a Manpower Change Request (MCR) to add delete or change a subspecialty field. The MCR form must have a fully articulated reason in the LOJ explaining the request.
- c. Ensure subspecialty requirement requests meet the subspecialty billet criteria.
- d. Identify all nonessential subspecialty requirements for deletion.
- e. Maintain a complete file of approved subspecialty requirement requests within their purview.

4. Major Area Sponsors (MASs) and Subject Matter Experts (SMEs). MASs and SMEs develop and manage CSRs/ESRs and monitor officer subspecialty management, coordinating with OPNAV N711, OCMs, and NPS. MASs may delegate responsibilities to SMEs, but retain overall responsibility and approval authority. MASs shall:

- a. Act as quota spokesperson for all subspecialties under their Major Area.
- b. Serve as the central point of contact for the assigned subspecialty skill field.
- c. Develop and maintain subspecialty CSRs.
- d. Originate and maintain subspecialty ESRs. MAS will ensure ESRs are at a minimum level required for the specific Navy degree. ESRs should be met by the core curriculum courses to the greatest extent possible. Each curriculum course must identify the ESR addressed, and courses not required for a degree must be annotated. ESRs are approved by OPNAV N711.
- e. Perform curriculum review every two years (DoD Directive 1322.10) with NPS and submit to OPNAV N711 for final approval in accordance with NPS curriculum review instruction (NAVPGSCOLINST 1550.1G). Major Area Sponsors will sign all curriculum reviews unless delegated in writing to SME. MAS or SME should ensure thesis and research projects are of significant value to the Navy and within the scope of the specific subspecialty. During the curriculum review the MAS will validate the Detailing Matrix held by Pers 4.

- f. Must ensure fleet skill requirements are captured. All TYCOM's must be included in all curriculum reviews.
 - g. Review officer and billet subspecialty requirement requests to determine whether the requirement represents a valid use of the subspecialty.
 - h. Ensure subspecialty requirement requests meet the requirements stipulated in subspecialty billet criteria statements in CSRs and ESRs.
 - i. Ensure subspecialty-coded billets are coded to an appropriate education and experience level.
 - j. Ensure similar subspecialty-coded billets are coded consistently.
5. Officer Community Managers (OCMs). OCMs manage officer community educational requirements and shall:
- a. Review all subspecialty requirement requests to ensure requirements are coded to appropriate grade and designator and in the career path.
 - b. Review CSRs and ESRs and assist MASs and SMEs.
 - c. Coordinate with Warfighter Development (OPNAV N71) to ensure adequate graduate education quotas and career paths exist for the development and utilization of subspecialists.
6. Graduate Education and Training Placement (PERS-44). Pers 440 shall:
- a. Maintain and Execute approved Advanced Quota Fill Plan.
 - b. Submit quarterly Fill report to Warfighter Development (OPNAV N71) and NPS.
 - c. Initiate and submit Advanced Education Quota Plan Mid-Year Review to Warfighter Development (OPNAV N71);
 - d. Maintain approved curriculum change waivers and extensions to the Advanced Education Quota Plan.
7. Subspecialty Management (PERS-45). Pers 450 shall:
- a. Maintain approved subspecialty codes in the Officer Master File.
 - b. Maintain officer records to reflect current education, utilization, and experience status.
 - c. Maintain a repository of approved curriculum submitted by officers for specific subspecialty graduate education programs approved by MAS, SME and NPS.
 - d. Submit biannual subspecialist officer utilization reports to Warfighter Development (OPNAV N71);
 - e. Submit the biennial report to the Warfighter Development (OPNAV N71) in accordance with DOD Instruction 1322.10.
8. Director, Warfighter Development (OPNAV N71), Provides oversight of the NSS and shall:
- a. Develop, monitor, adjudicate, and issue graduate education policy.
 - b. Issue subspecialty policy and guidance.
 - c. Approve subspecialty requirements and subspecialty codes through the Navy Officer Occupational Code System (NOOCS) process.

d. Approve graduate education curricula and act as sponsor and Navy spokesperson with institutions that host Fleet Scholar Education Program (FSEP), Graduate Education Voucher (GEV), Officer Scholarship Program, and Immediate Graduate Education Program (IGEP) students.

e. Direct and approve curriculum reviews for each subspecialty at a minimum biennially to ensure curriculum meet established CSRs and ESRs.

f. Conduct Navy Education Review Boards (NERB) and, if necessary, Education Enterprise Resourcing and Requirements Review Boards (E2R3B) to validate graduate education programs and SSP associated personnel and manpower are aligned to Navy strategy

g. Conduct the annual Strategic Education Alignment (SEA) Planning Conference.

h. Approve and promulgate the annual SEA Plan.

i. Approve any modifications to the SEA Plan.

9. President, Naval Postgraduate School. NPS Programs Office shall:

a. Act as spokesperson for all Naval-sponsored curricula at NPS and Civilian Institutions.

b. Conduct curriculum reviews with respective MAS/SME for each subspecialty at a minimum biennially to ensure curriculum meet established CSRs and ESRs.

c. Publish guidance regarding the curriculum review process and forms. All curriculum review forms are included in NPSINST 1550.1G.

d. Analyze PERS-440 Advanced Quota Fill Report and report to Warfighter Development (OPNAV N71) and PERS-440 when anticipated student throughput is not sufficient to meet NPS class size requirements.

e. Submit curriculum change waivers and extensions to the Advanced Education Quota Plan to PERS-440 and Warfighter Development (OPNAV N71) for approval.

f. Maintain the Navy Subspecialty Web site: <http://www.nps.edu/Academics/Subspecialty.html>. This includes posting approved CSRs, ESRs, and general advanced education guidance approved by Warfighter Development (OPNAV N71).

LIST OF NOBC TITLES BY FUNCTIONAL AREA

PART C

NAVY OFFICER BILLET CLASSIFICATION (NOBC) CODES

1. General

a. Navy Officer Billet Classifications (NOBCs) identify officer billet requirements and officer occupational experience acquired through billet experience or through a combination of education and experience.

b. An NOBC provides a general description of a group of positions sufficiently alike in respect to their duties and responsibilities to justify a common name and similar treatment in selection, compensation, and other human resource processes. It is not meant to cover every duty required of the job nor is every duty listed necessarily a requirement of the billet. Similarly, an NOBC in an officer's record does not necessarily indicate that the officer has experience in every duty listed in the definition. The NOBC identifies a group of officer billets which are similar but not necessarily identical in scope and nature of duties.

c. Each NOBC consists of a four-digit code, a long title, an ADP short title and a definition. The first digit identifies the field, the second digit identifies the group within the field and the third and fourth digits indicate the specific billet classification within the group. NOBC titles and definitions reflect billet titles and several representative duties.

d. A need exists in certain personnel management operations for information concerning codes occupationally related to specific NOBCs. These codes, defined below, immediately follow the definition of each NOBC.

(1) Related Codes. The NOBCs listed aid in the selection of naval officers to fill mobilization billets. In the absence of officers with exact qualifying experience, the list of related codes provides alternate NOBCs enabling identification of officers who qualify for specific billets by virtue of related experience and/or training.

(2) The DOD Group identifies the group number and title in the Department of Defense Occupational Conversion Manual (DOD 1312.01 series with DoD ODB Crosswalk) which corresponds to the NOBC. This manual, maintained by the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), compiles the occupational classifications of the armed forces under a common occupational grouping and numerical coding system.

2. Application

a. When applied to a billet, the NOBC is a general statement of duties performed in accomplishing some part of an activity's mission. When a single NOBC in combination with other information provided does not describe a billet adequately, use of a second NOBC provides further description. The allowed grade distinguishes billets which differ in degree of authority or responsibility but not in essential duties performed. Similarly, the same NOBC code identifies principal and assistant billets distinguishing between the two by adding the word "assistant" at the beginning of the billet title.

b. An NOBC entered in an officer's record reflects experience acquired as a result of performance in a billet or, in some instances, a combination of experience and education related to the billet's requirement. A combination of experience and education gained through Reserve participation and certified by designated authority is a basis for updating the classifications in an officer's record.

3. Assignment

a. Assignment of an NOBC on all officer billets is mandatory. OPNAVINST 1000.16 series provides procedures for submitting changes to Manpower Authorizations.

b. For active duty officers the NOBC code appearing in the first NOBC column of an Officer Distribution Control Report (ODCR) transfers automatically to an officer's record upon assignment to a billet identified by that NOBC. But, the code is removed from the officer's record if the officer is in the billet for less than five months. An

officer's automated record holds a maximum of 30 NOBCs reflecting the officer's most recent billet experience. Volume II of this manual provides procedures for submitting corrections to an officer's data card.

c. For Officers in the Reserve Component (RC). Qualification records, including NOBC codes, are maintained by Navy Personnel Command (NAVPERSCOM). NOBC codes on officer billets, which listed on the Reserve Unit Assignment Document (RUAD), transfer automatically to an officer's record after serving eighteen months in the assigned billet. RC members that do not meet the automation requirement criteria may submit an NOBC code request to NAVPERSCOM (PERS-9) using the format contained in BUPERSINST 1001.39F utilizing the following criteria:

(1) Assigned to RC billet but not on extended active duty orders. Member provided forty-eight days of billet support (which is equivalent to 72 Inactive Duty Training (IDT) periods and a twelve-day Annual Training (AT) may request NOBC codes assigned to the RC billet.

(2) Not assigned to an AC billet, but on extended active duty (e.g. active duty for special work (ADSW) or active duty for training (ADT)). Member on active duty for at least five months may request up to two NOBC codes that accurately identify the job assignment.

(3) Assigned to an AC billet (e.g. mobilization or definite recall). Member in an AC Navy billet for at least five months may request the assigned NOBC codes. If billet does not contain an NOBC code, member may request up to two NOBC codes that most accurately identify the billet assigned.

(4) Applicable civilian experience. If an officer's civilian job provides expertise in an area that would otherwise qualify for an NOBC if the position were military, then the officer may request the applicable NOBC through NAVPERSCOM (PERS-9). Civilian experience applies to officers in the Ready Reserve and Standby Reserve (Active).

NOTE: Although an officer's record contains an unlimited number of earned NOBC codes, the Officer Summary Record (OSR) only displays the ten most recently earned NOBC codes. Additional guidance on the RC policy and process is contained in BUPERSINST 1001.39F.

4. Justification to Establish and/or Retain NOBCs. To establish and/or retain a code within the NOBC structure, an NOBC should meet the following criteria:

a. It describes the qualitative requirements of existing or proposed billets in Manpower Authorizations and Officer Distribution Control Reports.

b. It applies in planning, personnel control, career management, education and training, or manpower information functions.

c. It applies Navy-wide and does not reflect purely local conditions or organization unless it is necessary to meet the criteria stated in paragraph 4b.

d. It does not duplicate an existing code.

e. It identifies billets, both peacetime and mobilization, and officer experience, both active and inactive.

f. It identifies a minimum of 15 billets.

g. Definitions should be concise and preferably limited to fifty words. They should be broad enough to identify all billets with similar requirements, yet narrow enough to distinguish significant differences not identified through other codes (e.g., designator, grade and activity). Definitions should stress what is done rather than how or why it is done. They should not include duties required of all officers, such as training of subordinates or preparing routine reports, unless such duties are a distinct requirement of the billet.

5. Recommendations to Establish, Disestablish, or Revise NOBCs

a. To make sure NOBCs continue to reflect current technological and administrative developments, commands and officers are invited to review and evaluate these classifications and, if appropriate, submit recommendations for improvement. An activity recommending a new NOBC should first ensure that an established NOBC in its present form, or with some revision, will not suffice for identifying the occupational aspects of the billets involved. Commands recommending establishing, deleting or revising NOBCs should consider the criteria listed in paragraph 4 above. Additionally, all recommendations should include the appropriate information as follows:

- (1) Recommendations to establish NOBCs must include:
 - (a) Recommended code number, long title and short title. The maximum length for the short title is 13 spaces, including blank spaces.
 - (b) Recommended definition (preferably limited to fifty words);
 - (c) Number and location of billets by activity type that the proposed NOBC will identify;
 - (d) Designators and grades applicable to the proposed code;
 - (e) List of special training required for the incumbent officer (include length and type of course(s) and/or on-the-job training);
 - (f) Information on how the requirements/qualifications are currently identified;
 - (g) Justification stating why the existing billet descriptors are insufficient without the proposed NOBC, and other historical or amplifying information necessary for prudent consideration at each level of review; and
 - (h) Point of contact (include telephone (both commercial and DSN number, fax number, and e-mail address).
- (2) Recommendations to disestablish NOBCs must include:
 - (a) Code and title of existing NOBC;
 - (b) Reason(s) for deleting the code (e.g., qualifications duplicated by another code, insufficient billets to meet the criterion in paragraph 4.f. above) and any other information needed for consideration at each level of review;
 - (c) Information on which NOBC(s), if any, will absorb the duties of the code;
 - (d) Information on how to recode the billets and officers, if appropriate, presently coded with this NOBC; and
 - (e) Point of contact.
- (3) Recommendations to revise NOBCs must include:
 - (a) Code and title of existing NOBC;
 - (b) Proposed recoding, retitling and/or rewording of the current NOBC;
 - (c) Justification for the proposed revision(s); and
 - (d) Point of contact.

b. Submit all recommendations according to the procedures outlined in the introduction of this manual.

c. Due to data integrity over time and the risk of future personnel misrepresentation, best practices mandate that classification elements are not to be reused once they are disestablished. To this end, deleted or disestablished NOBCs will not be reused at any time unless they are reestablished under the same criteria and guidelines as previously published.

TRANSIENT, PATIENTS, PRISONERS, AND HOLDEES

This NOBC is not awardable to personnel. TFMMS business rules limit usage of NOBC 0000 to non-force structure Trainee, Transients, and Holdees (TTH) Individuals Account Manpower Requirements Determination (IAMRD) activities

0000 TRANSIENT, PATIENTS, PRISONERS, AND HOLDEES [TPPH]

Transients contain only the transient program element, and consists of active duty military personnel in travel, leave in route, or temporary duty status (except for training) while on Permanent Change of Station orders; Patients, prisoners, and holdees contain only the Personnel Holding Account program element consisting of active duty military personnel dropped from the assigned strength of an operational or training unit for reasons of medical, disciplinary, or separation non-availability

Related Codes: 3289; DOD Group – 290500 Non-Occupational, Other; Paygrades: W1-O11

NOTE: This NOBC may only be assigned by Manpower Requirements Determination Universe (MRDU) desk T1. NOBC 3289 should be used on student billets.

HEALTH CARE SERVICES FIELD

0001-0999

This field includes classifications which identify billets with primary duties involving research and planning, providing, and administering medical, surgical, dental, and nursing services; and classifications in related health care sciences and services.

MAJOR GROUPS

0001-0099 HEALTH SERVICES MANAGEMENT GROUP

0100-0199 MEDICAL SPECIALTIES (MEDICINE) GROUP

0200-0299 MEDICAL SPECIALTIES (SURGERY) GROUP

0800-0899 HEALTH CARE SERVICES GROUP

0900-0999 NURSING GROUP

HEALTH SERVICES MANAGEMENT GROUP

0001-0099

Classifications in this group identify primary duties associated with management, oversight, control, and administration of Medical Department staff and health care systems.

0002 MEDICAL DEPARTMENT STAFF OFFICER [MED DPT STF]

Advises commander on all Medical Department units, personnel and material. Provides professional and administrative support to Medical Department officers. Acts as liaison between commands.

Related Codes: NOBC - NONE; DOD Group - 260900 Health Services Administration; Paygrades: O1-O9

NOTE - This NOBC does not apply to medical treatment facilities.

0005 DIRECTOR, HEALTH SERVICE OR PROGRAM [DIR HS/PGM]

Directs and administers a major directorate within a health services command or headquarters activity. Plans, programs and directs the designated service or program. Advises commanding officer on content and quality of service or program.

Related Codes: NOBC - 0010, 0020; DOD Group 260900 Health Services Administration

Paygrades: O1-O8

NOTE - This NOBC applies to Chief of Medical Staff, Director of Ancillary Services, Director of Administrative Services and Director of Nursing Services.

0010 CHAIRMAN OF DEPARTMENT, TEACHING PROGRAM [CHAIRDPT T PGM]

Administers a clinical teaching service. Supervises training of interns, residents, fellows and treatment of patients within the professional service. Advises commanding officer of status of patient's physical condition, progress under treatment and prognosis. Determines degree of incapacitation sustained and further disposition of patients. Recommends changes in equipment and services. Maintains appropriate standards and documentation to ensure accreditation of training programs.

Related Codes: NOBC - 0020; DOD Group 260900 Health Services Administration; Paygrades: O1-O6

0020 HEALTH SERVICES DEPARTMENT HEAD [HS DPTHD]

Manages a health services department ashore or afloat. Implements organization policies and procedures. Manages material, fiscal, manpower, and personnel resources within the department. Provides systems for quality assurance, staff development and performance evaluation.

Related Codes: NOBC - NONE; DOD Group - 260900 Health Services Administration

Paygrades: O1-O8

NOTE - This NOBC applies to all Medical Department corps.

0026 HEALTH SERVICES BRANCH CLINIC DIRECTOR [HS BR CL DIR]

Directs operation of the branch clinic to ensure delivery of high quality care. Ensures compliance with command policies, directives, regulations, and instructions. Maintains liaison with supported commands. Conducts periodic inspections to ensure operational and clinical efficiency.

Related Codes: NOBC - 0020, 9420; DOD Group - 260900 Health Services Administration

Paygrades: O1-O6

NOTE - For OIC Branch Clinic, use NOBC 9420.

0028 HEALTH SERVICES DIVISION OFFICER [HS DIV OFF]

Supervises the operation and personnel of a division within a health services department. Provides for the orientation, training, and evaluation of divisional personnel. Ensures safe environment for patients and personnel. Coordinates divisional operation with other divisions and departments. Provides input for department planning and programming.

Related Codes: NOBC - NONE; DOD Group - 260900 Health Services Administration

Paygrades: O1-O6

0030 HEALTH SCIENCE RESEARCH OFFICER [HLT SCI RSCH]

Performs and/or supervises basic and applied health sciences research. Develops and implements research projects in patient care, training or military capabilities. Writes scientific papers and technical reports.

Related Codes: NOBC - 0840, 0841, 0847, 0848, 0849, 0852, 0854, 0860, 0866;

DOD Group - 251200 Research and Development Coordinators; Paygrades: O1-O6

NOTE - This NOBC applies to all Medical Department corps.

0031 PLANS, OPERATIONS AND MEDICAL INTELLIGENCE [POMI]

Plans, implements, monitors, and evaluates medical and dental readiness programs, and support for current and contingency operations and mobilization. Related Codes: NOBC - 0800; DOD Group - 260900 Health Services Administration;
Paygrades: O1-O6

0840 BIOCHEMIST [BIOCHEMIST]

Studies chemical and physicochemical processes and substances that occur within living organisms applicable to one or more disciplines including biochemistry, toxicology, and analytical / organic / physical chemistry. Supervises biochemical and forensic toxicological laboratories, teaches undergraduate-level chemistry, engages in operational chemical and biological weapons detection and researches mitigations, conducts research and development into effects of extrinsic factors on human processes, and develops policy lines for the above as consultants to DON and DOD.

Related Codes: NOBC – 0841, 0845; DOD Group - 260814 Biochemistry; Paygrades: O3-O6

0841 MICROBIOLOGIST [MICROBIOLOGIST]

Studies micro-organisms applicable to one or more disciplines including bacteriology, immunology, virology, and parasitology. Participates in laboratory and field studies to determine presence of particular agents in natural or biological systems. Propagates, identifies, and classifies micro-organisms and evaluates pathologic effects on human health. Establishes methods of control by preparation of vaccines, antitoxins, and other biological systems and by utilization of effective sterilization of methods.

Related Codes: NOBC - 0840; DOD Group - 260824 Microbiology; Paygrades: O2-O6

0845 RADIATION HEALTH OFFICER [RAD HEALTH]

Assists command by planning, directing, and administering the command's radiation health program as well as the protection of personnel from radiation hazards. Supervises radiological qualitative and quantitative measurements to determine the presence of radiation, quality of radiation, and rate at which radiation is being emitted. Recommends radiation control measures. Performs liaison duties with fleet or shore establishments and with other services and government agencies.

Related Codes: NOBC - 0840, 0847, 0861, 0862, 2765; DOD Group - 260825 Nuclear Medical Science; Paygrades: O1-O6

0847 RADIATION SPECIALIST [RAD SPEC]

Participates in activities related to one of the radiological sciences. Assists physicians in diagnosis and treatment of disease through diagnostic and nuclear medicine technology. Conducts research studies on effects of ionizing and nonionizing radiation and lasers on matter. Conducts formal instruction and on-the-job training in radiation health programs. Provides oversight of medical radiation and laser safety programs.

Related Codes: NOBC - 0845; DOD Group - 260803 Environmental Health Services; Paygrades: O1-O6

0848 PHYSIOLOGIST [PHYSIOLOGIST]

Analyzes physiological and chemical functions of human organisms. Conducts basic research and evaluates results in problems dealing with physiological reaction to stimuli, including variation in temperature, altitude, pressure, acceleration, and deceleration. Investigates effect of stimuli upon respiratory, nervous, and muscular systems and other biological processes. Recommends countermeasures and devices to ensure maximum efficiency of personnel operating under varying stresses and strains.

Related Codes: NOBC - 0849; DOD Group - 260808 Physiology; Paygrades: O3-O6

0849 AEROSPACE and OPERATIONAL PHYSIOLOGIST [AERO OP PHYSIO]

Provides aerospace and expeditionary force health protection through research, training, education, operational safety, requirements generation, and systems acquisition services. Instructs flight personnel in aeromedical threats and water survival topics. Supervises operation and maintenance of aeromedical and water survival training devices. Serves as an aeromedical safety officer (AMSO). Assists aircraft mishap investigation boards. Provides naval aircrew training on new and modified aviation life support equipment. Aeronautically designated personnel that performs duties in a flight status.

Related Codes: NOBC - 0848, 0852; DOD Group - 260808 Physiology; Paygrades: O1-O6

0851 CLINICAL PSYCHOLOGIST [CLIN PSYCH]

Conducts psychological evaluation and treatment. Administers and interprets psychological tests and conducts individual and group psychotherapy.

Related Codes: NOBC - 0852, 0854; DOD Group - 260829 Psychology, Clinical; Paygrades: O1-O6

0852 AEROSPACE EXPERIMENTAL PSYCHOLOGIST [AERO X PSYCH]

Conducts both laboratory and inflight psychological investigations of problems within the aerospace field. Investigates man-machine problems in the design and operation of airborne weapon systems and related equipment. Designs, develops, validates, and evaluates selection tests and training programs. Analyzes human factor aspects of survival, safety, and operational effectiveness of airborne weapon systems.

Related Codes: NOBC - 0851, 0854; DOD Group - 260830 Psychology, Non-Clinical; Paygrades: O3-O6

0854 RESEARCH PSYCHOLOGIST [RSCH PSYCH]

Focus areas include enhancing medical and psychological screening, improving warfighter performance, human-systems integration, and leadership development, advancing training methods, applying data analytics for decision support, and developing strategies for adapting to extreme environments.

Related Codes: NOBC - 0851, 0852; DOD Group - 260830 Psychology, Non-Clinical; Paygrades: O3-O6

0860 ENTOMOLOGIST [ENTOMOLOGIST]

Applies principles of integrated pest management to establish effective and environmentally sound disease vector control programs. Performs research related to disease vectors and transmission of vector-borne diseases. Evaluates pesticides and pesticide dispersal equipment, and the development of improved pest management techniques. Are the Navy's shipboard pest management program managers. Supervises training for vector and pest management personnel.

Related Codes: NOBC - NONE; DOD Group - 260819 Entomology; Paygrades: O2-O6

0861 ENVIRONMENTAL HEALTH OFFICER [ENVR HLT OFF]

Develops and maintains programs of environmental health. Recommends procedures which contribute to disease prevention and improvement of health, safety, and well-being of personnel. Participates in studies of environmental health significance. Coordinates with civilian environmental health programs.

Related Codes: NOBC - 0862; DOD Group - 260803 Environmental Health Services; Paygrades: O1-O6

0862 INDUSTRIAL HYGIENE OFFICER [INDUS HYG OFF]

Establishes and directs Navy Safety and Occupational and Health (NAVSOH) programs. Recognizes and evaluates NAVSOH hazards and recommends control procedures. Participates in health hazard evaluation programs for hazardous materials control and management. Conducts compliance inspections of NAVSOH programs. Represents the Navy on regulatory and professional committees. Conducts NAVSOH training. Participates in studies of Occupational Health significance.

Related Codes: NOBC - 0861; DOD Group - 260823 Industrial Hygiene; Paygrades: O1-O6

0866 MEDICAL LABORATORY SCIENTIST [MED LAB]

Conducts clinical laboratory tests, research, and investigations. Trains laboratory personnel. Performs administrative functions related to laboratory.

Related Codes: NOBC - 0847; DOD Group - 260818 Clinical Laboratory; Paygrades: O1-O6

0868 CLINICAL SOCIAL WORKER [CLIN SOC WORK]

Performs licensed independent clinical social work including evaluation, diagnosis, treatment, and fitness for duty dispositions of persons experiencing mental health disorders. Conducts mental health related training, research, command consultation, and clinical supervision to include of technicians. Conducts individual and group psychotherapy.

Related Codes: NOBC - NONE; DOD Group - 260833 Social Work; Paygrades: O1-O6

0871 OCCUPATIONAL AUDIOLOGIST [OCC AUDIO]

Performs auditory examinations. Prescribes nonmedical treatment to conserve or improve communication ability. Designs, develops, and maintains aural rehabilitation programs. Advises on programs to prevent noise-induced hearing loss.

Related Codes: NOBC - NONE; DOD Group - 260801 Audiology and Speech; Paygrades: O3-O6

FACILITIES ENGINEERING FIELD

4000-4999

This field includes classifications which identify primary duties involving shore facilities management which encompasses:

- (1) Research, planning, design, construction and maintenance of:
 - (a) structural facilities and the electrical and mechanical appurtenances thereof;
 - (b) automotive and construction equipment; and
 - (c) advanced bases
- (2) Acquisition, management and disposal of real estate and real property.
- (3) The Naval Construction Forces System and
- (4) Petroleum and Oil Shale Reserves.

MAJOR GROUPS

4200-4299 SHORE FACILITIES ENGINEERING

4300-4399 NAVAL CONSTRUCTION FORCES

SHORE FACILITIES ENGINEERING GROUP

4200-4299

Classifications in this group identify primary duties involving shore facilities research, planning, design, construction, and maintenance; facilities related staff functions; and matters pertaining to the Petroleum and Oil Shale Reserves. Excluded from this group are classifications pertaining to nuclear shore system facilities which are contained in the 4700-4799 group.

4205 FACILITIES ENGINEERING OFFICER [FAC ENG]

Directs or assists in the formulation and execution of facilities engineering programs at headquarters or field division level. Coordinates or participates in planning, research, design, construction and maintenance of facilities. Directs programs concerned with utilities procurement, and control of automotive, construction and weight handling equipment. Plans and coordinates acquisition, management and disposal of real estate and housing. Develops administrative and training policies for employment and support of the construction forces.

Related Codes: NOBC - 4210, 4215; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4210 STAFF FACILITIES ENGINEER [STF FAC ENG]

Advises and assists commander on Civil Engineer Corps matters. Provides civil engineering advice and recommendations on matters pertaining to naval facilities, public works and public utilities. Develops and disseminates facilities engineering doctrine. Conducts advance base development and facilities planning. Formulates and reviews military construction programs. Determines facilities requirements. Prepares facilities operation and maintenance budgets. Provides liaison between command and the appropriate Naval Facilities Engineering Command Field Division.

Related Codes: NOBC - 4215, 4230; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4215 FACILITIES PLANNING AND PROGRAMMING OFFICER [FACPLN & PGM]

Directs or assists in the formulation of shore facilities plans and programs and in the development and review of military construction projects. Coordinates and plans the development and support of military construction programs. Maintains technical liaison with systems commands and fleet commands on facilities logistic problems.

Related Codes: NOBC - 4210, 4230; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4220 FACILITIES DESIGN OFFICER [FAC DSGN]

Directs or assists in the architectural and engineering design of new construction, alterations and repair of shore facilities. Prepares plans, specifications and contract documents. Negotiates with architect-engineer firms. Reviews designs and participates in special engineering investigations and projects.

Related Codes: NOBC - 4225, 4230; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4225 FACILITIES ENGINEERING AND ACQUISITION [FAC ENG ACQ]

Warrant eligible officer who directs the acquisition planning, design, award, contract administration, and close-out of construction and service contracts for shore facilities. Coordinates and aligns each phase of facilities contracts to ensure timely award and completion of required work or service. Overall responsibilities for government and contractor compliance to include: competitive bid and contract award, contract performance, contract modification, provisions of contract services, and compliance with labor regulations.

Related Codes: NOBC - 4230, 4275; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4230 FACILITIES CONSTRUCTION/FACILITIES SERVICES OFFICER [FAC CONST/SVC]

Directs the design, construction, alteration, maintenance, repair of, and base operating services for shore facilities. Supervises preparation of plans and specifications. Administers competitive bid and contract award; supervises contract performance. Approves design, contract modification during construction, and provision of contract services. Ensures compliance with labor regulations. Recommends acceptance of completed facilities or services.

Related Codes: NOBC - 4275; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4250 PUBLIC WORKS OFFICER [PWO]

Warrant eligible officer who directs and administers formulation, obligation, and execution of the installation's facility programs through the facility life-cycle. Facilities include structures, infrastructure, utilities, environmental, real estate, housing, and base support equipment; automotive, construction, and weight handling equipment. Directs facility programs to include design, procurement, operational support, maintenance, refurbishment, and disposal. Provides transportation services. Conducts inspections of facilities and projects for conformance to safety, maintenance and other naval regulations.

Related Codes: NOBC - 4255, 4275; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4255 PUBLIC WORKS PRODUCTION OFFICER [PW PROD]

Directs planning and scheduling of in-house repair of installation's buildings, utilities, grounds, roads, waterfront structures, and other facilities. Determines need for routine and emergency repair, maintenance, or modification of sewage systems, railroad tracks, piers, tanks, shipbuilding ways, docking facilities and construction equipment. Directs execution of authorized projects. Ensures timely and satisfactory completion of assigned projects. Manages transportation pool vehicles, construction equipment, and weight handling equipment.

Related Codes: NOBC - 4260, 4265, 4270; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4260 ASSISTANT PUBLIC WORKS OFFICER [APWO]

Coordinates the construction, maintenance, transportation, utilities functions, and allocating resources in accordance with supported commander's priorities. Primary liaison between public works and supported commander with regard to public works matters.

Related Codes: NOBC - 4255, 4270; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4265 PUBLIC WORKS TRANSPORTATION OFFICER [PW TRANS]

Directs transportation operations and maintenance of naval shore activity. Develops policies and procedures pertaining to the use and operation of railroad, automotive, construction, mobile firefighting and other assigned equipment. Supervises the operation of transportation shops and garages and the maintenance, overhaul and repair of transportation equipment.

Related Codes: NOBC - 4255; DOD Group - 280300 Transportation; Paygrades: W1-O11

4270 PUBLIC WORKS UTILITIES OFFICER [PW UTIL]

Directs operation, maintenance and repair of public utilities at naval shore activity. Ensures efficient operation of central plant, electric and hydraulic substations and distribution systems for steam, electricity, compressed air, water and gas. Establishes policies and procedures regarding personnel, inspections and equipment operation and maintenance. Directs or conducts special studies to increase efficiency of power production and use.

Related Codes: NOBC - 4255, 4260; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4275 PUBLIC WORKS FACILITIES MANAGEMENT [PW FMD]

Directs the facilities planning, design and maintenance control programs. Translates command policy guidance on funds and facilities into plans for accomplishment by shop forces or contract. Inspects public works and public utilities as to maintenance needs. Prepares manpower and material estimates for job orders. Directs preparation of contract drawings and specifications.

Related Codes: NOBC - 4230, 4255; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O11

4280 NAVY CONTINGENCY ENGINEER [CONTING ENG]

Advises and assists commander on contingency engineering matters. Provides engineering expertise for U.S. military forces or military assistance to foreign Governments. Conducts advance staging area facilities planning. Participates in the deliberate and crisis action planning processes, planning engineer force requirements, infrastructure needs and other engineer related matters. Plans and coordinates engineer missions to support operational Commander's requirements. Recommends allocation of resources to fulfill assigned engineer mission tasking.

Related Codes: NOBC - 4205, 4210; DOD Group - 240100 Construction and Utilities; Paygrades: W1-O10

NAVAL CONSTRUCTION FORCES GROUP

4300-4399

Classifications in this group identify primary duties involving the administration and operation of the naval construction forces system which is primarily concerned with the construction and maintenance of shore and waterfront facilities (fixed and movable) at advanced bases.

4305 COMMANDING OFFICER, NAVAL CONSTRUCTION FORCES [CO CONST FOR]

Commands an organization of the Naval Construction Forces in accordance with law, regulations and customs of the service. Develops or supervises development of organizational plan for accomplishment of assigned mission. Directs and coordinates the execution of all phases of the assigned construction plan. Takes appropriate action to attain and maintain the prescribed state of unit readiness. Provides for effective administration, discipline, training and welfare of the personnel of the command.

AMMUNITION AND EXPLOSIVES GROUP

6000-6099

Classifications in this group identify primary duties associated with ammunition, explosives, warheads, fuses, bombs, projectiles, signaling and illuminating pyrotechnic materials, and chemical munitions.

6083 AMMUNITION MATERIAL OFFICER [AMMO MTL] [Job Code: 001540]

Directs and supervises handling, storage, inspection, testing, preservation, overhaul, reworking, preparation, breakdown and stock maintenance of ammunition. Directs scheduling, identification, dispatching, marking, loading and unloading of outgoing and incoming ammunition of all types. Supervises fuzing and defuzing of projectiles. Enforces safety regulations. Prescribes engineering practices to be used. Supervises upkeep of magazines, shell houses, transfer depots, loading plants and storehouses.

Related Codes: NOBC - 9252; DOD Group - 240500 Ordnance; Paygrades: W1-O11

GUIDED MISSILES GROUP

6200-6299

Classifications in this group identify primary duties associated with the development of guided missiles, pilotless aircraft, drones, and associated equipment.

6275 GUIDED MISSILE TEST OFFICER [GM TEST]

Supervises installation, operation and maintenance of equipment and conducts test firing of guided missiles from ship or range. Directs handling, fueling, servicing and firing of missiles. Coordinates range facilities such as communications, telemetering, ballistic tracking cameras and radar. Locates and directs salvage of missiles and classified component equipment. Collects, analyzes and interprets data secured from missiles during flight. Controls aircraft and surface vessel movements as officer in charge of operational activities during ship launching. Directs safety program for missile range.

Related Codes: NOBC - 6280-6282, DOD Group - 220600 Missiles; Paygrades: W1-O11

6280 GUIDED MISSILE TYPE PROJECT OFFICER (GENERAL) [GM PJ GEN]

Plans and administers projects for design and development of guided missile types. Establishes and maintains projects for development of ship-launched and air-launched guided missiles, assault drones, high-altitude test vehicles, meteorological units, guided missile jet engines and countermeasures. Supervises engineering of such weapons, including experimental models, recommending suitability for production. Administers budget and contracts for engineering work. Directs field development and testing.

Related Codes: NOBC - 6282; DOD Group - 251200 Research and Development Coordinators;
Paygrades: W1-O11

6282 GUIDED MISSILE TYPE PROJECT OFFICER (SHIP-LAUNCHED) [GM PJ SHP-LNCH]

(For definition, see NOBC 6280)

Related Codes: NOBC - 6280; DOD Group - 251200 Research and Development Coordinators;
Paygrades: W1-O11

WEAPONS EQUIPMENT GROUP

6300-6399

Classifications in this group identify primary duties associated with guns, mounts, launchers, and related weapons equipment.

6380 WEAPONS EQUIPMENT PROJECT OFFICER [WEP EQ PJ]

Administers weapons equipment project within defined boundaries of time, resources and performance requirements. Prepares master plan, including schedules, costs and scope of all work and resources required. Initiates overall plans for production of end products, systems and subsystems. Monitors integrated logistic support requirements. Approves proposed contractual actions required for accomplishment of project. Evaluates progress. Coordinates changes to scope, timing and cost with functional organizations. Controls logistic support functions. Approves design changes to support equipment as appropriate.

Related Codes: NOBC - 6920; DOD Group - 240500 Ordnance; Paygrades: W1-O11

WEAPONS CONTROL GROUP

6400-6499

Classifications in this group identify primary duties associated with fire control equipment and systems, including optical repair.

6457 FIRE CONTROL INSPECTION AND REPAIR OFFICER [FC INSP&REPAIR]

Administers repair, alteration, and inspection of fire control equipment. Directs or conducts tests and inspections. Determines need for repairs to equipment in use and recommends repairs to improperly or inaccurately operating equipment. Supervises equipment maintenance. Participates in arrival conferences and schedules fire control repairs for vessels in accordance with approved work requests, priorities, and availability of personnel and facilities. Provides technical assistance on repair, modification, and new installations.

Related Codes: NOBC - 6978; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6470 WEAPONS CONTROL SYSTEMS PROJECT OFFICER (GENERAL) [WEPCTL SYSPJ G]

Administers weapons control systems project within defined boundaries of time, resources and performance requirements. Prepares master plan, including schedules, costs and scope of all work and resources required. Initiates overall plans for production of end products, systems and subsystems. Monitors integrated logistic support requirements. Monitors contract negotiations and approves proposed contractual actions required for accomplishment of project and evaluates progress. Coordinates changes to scope, timing and cost with functional organizations. Controls logistic support functions. Approves design changes to support equipment as appropriate.

Related Codes: NOBC - 6472, 6982; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6472 WEAPONS CONTROL SYSTEMS PROJECT OFFICER (SURFACE) [WEPCTL PJSURF]
(For definition, see NOBC 6470)
Related Codes: NOBC - 6470; DOD Group - 240500 Ordnance; Paygrades: W1-O11

UNDERSEA WEAPONS GROUP
6500-6599

Classifications in this group identify primary duties associated with torpedoes and mines, including countermeasures.

6516 MINE ASSEMBLY AND REPAIR OFFICER [MINE ASEM&REP]
Supervises assembly, testing, reworking, repair and alteration of mines, mine components and mine assemblies. Prepares job directives, procedures, job orders, repairs, test schedules and ensures safety compliance using available personnel and facilities. Procures and controls material needed. Provides technical assistance on overhaul and testing. Conducts periodic surveillance of different mines.
Related Codes: NOBC - NONE; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6537 TORPEDO WEAPONS OFFICER [TORP WEP]
Directs, plans, or supervises manufacture, assembly, overhaul, repair, testing, storage, handling and inspection of torpedoes. Supervises repair, alterations and test data collection. Schedules torpedo repairs in accordance with approved work requests, priorities and availability of personnel and material. Ensures proper storage and handling of explosive components.
Related Codes: NOBC - DOD Group - 240500 Ordnance; Paygrades: W1-O11

6582 UNDERSEA WEAPONS PROJECT OFFICER [USEA WEPPI]
Administers underwater projects within defined boundaries of time, and resources. Prepares production plans, including schedules, costs and scope of all work and resources required. Approves proposed contractual actions required for accomplishment of project and evaluates progress. Coordinates changes to scope, timing and cost with functional organizations and approves design changes.
Related Codes: NOBC - 2175; DOD Group - 240500 Ordnance; Paygrades: W1-O11

WEAPONS MATERIAL AND PROGRAMS GROUP
6700-6799

Classifications in this group identify primary duties associated with design, development, acceptance, procurement, installation, distribution, maintenance, and overhaul of weapons material.

6702 WEAPONS DISTRIBUTION OFFICER [WEP DIST]
Controls supply and issue of naval weapons. Maintains records of past usage data and estimates of future replacement needs. Controls allocation and accounting methods and procedures, reviewing allowances with respect to availability and utilization of materials in order to maintain adequate stock levels. Schedules distribution of material on basis of operational requirements, stock availability, lead time required for procurement, availability of funds and production facilities. Expedites delivery of urgently needed material. Prepares budget estimates.
Related Codes: NOBC - 6715, 6999; DOD Group - 280200 Supply; Paygrades: W1-O11

6704 WEAPONS MAINTENANCE OFFICER [WEP MNT]
Administers program for maintenance of weapons. Provides technical direction to operational command and naval or private manufacturing plant concerning overhaul, reworking, or alteration of weapons. Advises on and maintains maintenance engineering policies and practices. Initiates and revises pertinent publications. Prepares budget estimates.

Related Codes: NOBC - 6940, 6978; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6715 WEAPONS MATERIAL OFFICER (GENERAL) [WEP MTL GEN]

Directs or administers program for procurement, installation, distribution, maintenance and overhaul of various types of weapons material. Establishes production and maintenance engineering policies and preservation and storage methods. Directs overhaul and distribution of material. Assists in formulating mobilization plans, maintaining current war plans and implementing directives. Prepares budget estimates and administers funds.

Related Codes: NOBC - 2170, 6702, 6704; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6717 PROGRAM MANAGER, WEAPONS SYSTEMS [PGM MGR WEPSYS]

Administers weapons systems design, development, acceptance and utilization programs. Coordinates and directs program planning functions. Fosters cooperative action in meeting overall command goals and objectives. Coordinates policies affecting assigned projects and ensures that effective policies are established and implemented. Reviews and approves detailed plans prepared within systems command for assigned projects and programs. Recommends modifications, as necessary, to requirements received from higher authority.

Related Codes: NOBC - 2165; DOD Group - 240500 Ordnance; Paygrades: W1-O11

GENERAL GROUP (WEAPONS ENGINEERING FIELD)

6900-6999

Classifications in this group identify primary duties associated with overall weapons engineering administration and with weapons engineering duties not specifically identified in another group.

6914 NAVAL PLANT REPRESENTATIVE [NAV PLANT REP]

Administers all types of contracts placed with private contractors and serves as primary government point of contact with the contractor. Maintains surveillance of contractor's management, systems, procedures and methods, and ensures economical operation. Represents contracting agencies and project managers on all contracting matters and ensures compliance with prescribed procurement, engineering and quality procedures and objectives. Advises contracting agencies and project managers on present and predicted contractor cost and schedule performance. Ensures proper plant security and maintenance of government facilities and equipment. As appropriate, maintains surveillance of flight operations.

Related Codes: NOBC - 1485, 6936, 6982; DOD Group - 280400 Procurement and Production; Paygrades: W1-O11

6920 WEAPONS DESIGN OFFICER [WEP DESIGN]

Directs or participates in development of productions designs for weapons and weapons handling equipment. Analyzes and interprets inspection and test data to determine need for changes or development of new design. Originates designs, develops prototypes and conducts feasibility tests. Supervises personnel preparing preliminary designs and finished work, drawings and specifications. Reviews for approval drawings, sketches, specifications and process sheets. Recommends standard practices to be used in handling, stowing and shipping.

Related Codes: NOBC - 6717, 6948, 6968; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6930 NAVAL WEAPONS TECHNICAL LIAISON OFFICER [NAVWEP TECHLIA]

Coordinates foreign and domestic activities of systems commands, field services and operational units in regard to naval weapons projects. Monitors planning, projects and progress reports. Effects special training in use of new equipment and in improved methods. Aids operational units in various phases of readiness. Advises systems commands of needs of field services and operational units. Acts as clearinghouse for questions regarding plans and policies. Recommends adjustment of fiscal allocations.

Related Codes: NOBC - 6948, 6999; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6936 WEAPONS SYSTEMS INSPECTION AND SURVEY OFFICER [WEP SYS SURV]

Serves as member of engineering board concerned with acceptance of weapons systems for naval use or elimination of individual or type weapons systems from naval list. Directs or participates in conduct of engineering and operational trials and tests of new and experimental weapons systems to determine suitability for naval

requirements. Directs or assists in preparation of technical reports covering board's findings and recommendations for acceptance or survey.

Related Codes: NOBC - 6914, 6938, 6960; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6938 WEAPONS AND AMMUNITION INSPECTION/SAFETY OFFICER [WEP&AM INS/SAF]

Directs or conducts inspection of inservice weapons, ammunition, installations and handling equipment. Ensures equipment and workmanship conformance to Navy specifications and operating and safety standards. Inspects installed equipment and recommends repairs or alterations as necessary. Advises supervisors of potential dangers and recommends changes to safety regulations.

Related Codes: NOBC - 6083, 6914, 6936, 6940; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6940 WEAPONS INSTALLATION AND REPAIR SUPERINTENDENT [WEP INSTL&REP]

Superintends or assists in installation, alteration, or repair of weapons equipment aboard ships during outfitting or overhaul. Assigns inspectors or inspects ship's armament to evaluate work required, yard shops involved, and ship's availability and location. Assists ship and yard commands in carrying out established repair schedules. Supervises shipboard repairs, alterations and installations. Tests and inspects repaired equipment to ensure satisfactory performance.

Related Codes: NOBC - 6968, 6978, 7999; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6942 WEAPONS LOGISTICS OFFICER [WEP LOG]

Directs or conducts technical planning for weapons aspects of logistics plans and programs for support of naval operating forces. Advises overall logistic planners concerning type and number of weapons personnel, materials and facilities necessary for operation and strategic plans. Determines readiness of equipment in store to fulfill requirements of mobilization plans. Coordinates assembly and checks progress of shipments of advanced base assemblies. Directs maintenance, preservation, storage and inventory control of advanced base weapons materials.

Related Codes: NOBC - 6940, 6948; DOD Group - 280100 Logistics, General; Paygrades: W1-O11

6948 WEAPONS MILITARY CHARACTERISTICS OFFICER [WEP MIL CHAR]

Controls overall Navy program for design and development of all types of weapons equipment, establishing military characteristics needed to meet naval operating requirements and coordinating development programs assigned to various systems commands or offices. Interprets operational reports to obtain information on current equipment and requirements for new equipment to meet tactical needs. Establishes physical and performance characteristics of equipment. Initiates directives to weapons activities for development or production of such equipment. Coordinates projects.

Related Codes: NOBC - 6920, 6980; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6960 WEAPONS OFFICER, NAVAL ACTIVITY [WEP NAV ACTY]

Directs weapons program within naval activity such as training center or naval base. Directs maintenance and inspection of magazines, material and equipment. Oversees procurement and disposition of weapons equipment. Devises and enforces safety precautions. Prepares reports and maintains records.

Related Codes: NOBC - 6083, 6968, 9252, 9258; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6962 WEAPONS PLANNING AND PROGRESS OFFICER [WEP PLN&PROG]

Formulates basic plans for Naval Sea Systems Command or related shore activities and reviews progress in implementation thereof. Interprets broad naval weapons operational and material plans in order to develop systems command or activity planning programs. Advises divisions and activities of indicated plan requirements, ensuring revisions to conform to changing overall plans. Analyzes periodic reports from divisions and activities to ascertain progress and to ensure coordination of program. Prepares special studies and reports as required.

Related Codes: NOBC - 6715, 6942, 6980; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6966 WEAPONS PLANS AND POLICIES DIRECTOR [WEP P&P DIR]

Exercises policy direction and control over particular phases of weapons engineering. Controls and directs particular phases such as research and development, quality control, and weapons material functions and assists, as assistant director or special assistant, in such direction and control. Coordinates weapons activities within major field establishment such as shipyard or proving grounds.

Related Codes: NOBC - 6942, 6948, 6980; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6968 WEAPONS AND AMMUNITION PRODUCTION OFFICER [WEP&AMMO PROD]

Plans and superintends production of weapons and ammunition. Directs flow of work. Analyzes new designs to determine interchangeability of parts, feasibility and economy of manufacture. Establishes manufacturing procedures for production of experimental equipment. Oversees design, production and procurement of weapons and ammunition. Maintains quality control and inspection of work in shops. Directs development of facilities to ensure economical and efficient manufacturing. Ensures continuing contact with new or improved manufacturing methods.

Related Codes: NOBC - 6914, 6938, 6940, 6978; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6974 WEAPONS TECHNICAL INFORMATION OFFICER [WEP TECH INFO]

Manages program for procurement, dissemination, and publication of weapons technical information. Establishes and maintains procedures for receiving and recording technical reports, information and drawings. Prepares technical publications providing information on minimum standards of calibration of special weapons, including mechanical, electrical and nuclear components, test equipment, special design equipment and commercial equipment. Reviews and evaluates technical information for pertinence to naval weapons programs. Assigns and controls security classification of technical data.

Related Codes: NOBC - 2690, 6982; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6978 WEAPONS REPAIR OFFICER [WEP REP]

Plans and directs installation, repairs and alterations to shipboard weapons and associated equipment. Supervises maintenance of equipment and oversees repair of weapons and weapons systems such as guns and mounts, torpedoes and fire control systems. Inspects ships' armament to determine work required. Participates in arrival conferences and schedules weapons repairs for vessels. Assigns personnel and renders technical assistance on shop and shipboard repair work in progress. Inspects and approves completed work.

Related Codes: NOBC - 6940, 6968, 7999; DOD Group - 240500 Ordnance; Paygrades: W1-O11

6980 WEAPONS RESEARCH PLANNING OFFICER [WEP RSCH PLN]

Directs planning and coordination of weapons research and development program. Prepares budget estimates, directs allocation of funds and maintains necessary records. Ensures that various programs are in accordance with material program. Maintains liaison with other services and government activities. Evaluates, by scientific analysis, present and potential effectiveness of various weapons and weapons systems. Prepares reports.

Related Codes: NOBC - 6920, 6948, 6982; DOD Group - 251200 Research and Development Coordinators
Paygrades: W1-O11

6982 WEAPONS TECHNICAL OFFICER [WEP TECH]

Serves as advisor in basic engineering or scientific fields such as chemistry, physics, mathematics, metallurgy; electrical, electronic, or mechanical engineering; weapons research, design, testing and production activities. Studies current directives, service reports and field suggestions to determine needs in weapons research. Administers special research projects established to develop particular type of weapons. Reviews and analyzes basic engineering or scientific problems arising in the course of weapons research, testing, production and inspection.

Related Codes: NOBC - 2050, 2070, 2090, 5917, 6920; DOD Group - 240500 Ordnance;
Paygrades: W1-O11

6990 WEAPONS SAFETY OFFICER [WEP SAF]

Establishes techniques and methods to safeguard weapons activities' property and personnel against explosive or industrial accidents. Inspects weapons shore facilities to determine hazards. Advises supervisors of potential dangers, recommending corrective measure. Assists in preparing safety regulations.

Related Codes: NOBC - 2740, 6083, 6960, 8656; DOD Group - 241000 Safety; Paygrades: W1-O11

6999 STAFF WEAPONS MATERIAL OFFICER [STF WEP MTL]

Assists staff material officer or commander by administering weapons phase of material and maintenance program for command. Directs material maintenance operation and efficiency of ship equipment under cognizance of Naval Sea Systems Command. Prepares correspondence, operating and maintenance manuals and instructions. Develops and supervises tests and inspections of material and equipment. Consults and advises unit commanding

officers and weapons officers on material matters and ammunition logistics. Prepares and administers ordnance repair and alteration budgets.

Related Codes: NOBC - 6942, 6960; DOD Group - 240500 Ordnance; Paygrades: W1-O11

NAVAL ENGINEERING FIELD

7000-7999

This field includes classifications which identify billets with primary duties involving planning, research, design, development, construction, production, alteration, repair and upkeep of naval vessels.

MAJOR GROUPS

7100-7199 HULL

7200-7299 MACHINERY

7300-7399 MATERIAL

7400-7499 PRODUCTION ENGINEERING

7900-7999 GENERAL

HULL GROUP

7100-7199

Classifications in this group identify primary duties associated with the planning, development, construction, and maintenance of surface and submarine hulls and their appurtenances.

7120 NAVAL ENGINEERING HULL DEVELOPMENT OFFICER [NAVENG HULLDEV]

Directs or participates in research, design, development and test of hulls, hull structures and appurtenances. Initiates and supervises research and preliminary design work. Evaluates adequacy of damage control design features and recommends improvements. Designs hull stowage and living spaces, ship furniture, and messing and berthing equipment. Applies knowledge of hydromechanics to development of design criteria and power requirements for all naval vessels. Recommends military characteristics for new ships. Oversees major hull alterations and conversions.

Related Codes: NOBC - 7165, 7974; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7140 HULL INSPECTION OFFICER [HULL INSP]

Directs or performs inspections on ship hulls and hull components at naval and private shipyard and repair facilities. Makes preliminary inspections of inservice ships to determine battle damage or recommend routine repairs required. Attends final tests of hull repairs and installation. Establishes inspection standards adhering to Naval Sea Systems Command controlling directives. Assists private contractors by setting up work schedules, enforcing material priorities and expediting clarification of design and production problems. Inspects ships subject to survey on desirability of retention or disposal.

Related Codes: NOBC - 7187, 7927; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7165 HULL SUPERINTENDENT [HULL SUPT]

Directs construction, conversion, alteration, or repair of ship hulls and hull equipment at naval shipyard or repair facility. Establishes technical specifications and procedures to guide production activities and assigns assistants to duties. Participates in arrival conferences, evaluating hull work requested and assisting in estimating work requirements. Coordinates accomplishment of work, assisting in resolving conflicts in work schedules. Directs officer and civilian inspectors in enforcing adherence to basic designs, specifications and standards of workmanship.

Related Codes: NOBC - 7187, 7936, 7937; DOD Group - 240700 Ship Construction and Maintenance
Paygrades: W1-O11

7187 STAFF HULL MATERIAL OFFICER [STF HULL MTL]

Assists staff material officer or commander by administering hull phase of material and maintenance program for command. Directs material maintenance, preservation and repair of ships' hulls and appurtenances. Supervises tests and inspection of hulls. Exercises technical supervision over tender, naval shipyard and ship's force repairs; advises unit commanding officers and first lieutenants. Assists in preparation of ship's repair budgets, determining supply and logistic requirements of hull material maintenance. Coordinates damage control program of command.

Related Codes: NOBC - 7976; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

MACHINERY GROUP

7200-7299

Classifications in this group identify primary duties associated with the development, installation, inspection, maintenance, and repair of ship machinery and mechanical equipment, and diving and salvage equipment.

7241 MACHINERY INSTALLATION AND REPAIR SUPERINTENDENT [MACH INST&REP]

Supervises installation, repair and alteration of machinery on naval vessels. Reviews machinery work requests, inspecting machinery at ship arrival conference, and offers technical advice in deciding need for repair and material requirements. Arranges sequence of machinery repair and installation work. Oversees performance of critical repair and installation work, ensuring adherence to prescribed standards. Inspects and approves completed job orders.

Related Codes: NOBC - 7976; DOD Group - 240800 Ship Machinery; Paygrades: W1-O11

7249 NUCLEAR SYSTEMS AND COMPONENTS REPAIR OFFICER, SHIP [NUC SYS&CMPREP]

Administers repairs to nuclear reactor machinery, components and associated auxiliary equipment. Supervises maintenance of equipment and work of shops. Participates in arrival conferences and schedules installations and repair to nuclear reactor machinery for vessels in accordance with regulations. Confers with other repair shops in deciding sequence of tasks. Reviews designs, specifications and job orders for specific installations and repairs to ensure conformance with directives. Directs removal of obsolete or damaged equipment and installation of replacements.

Related Codes: NOBC - 7968, 9392-9394; DOD Group - 240800 Ship Machinery; Paygrades: W1-O11

7251 RADIOLOGICAL CONTROL OFFICER [RADIOLOG CTL]

Plans and directs control of radioactive materials, radiation and radioactive contamination associated with servicing nuclear propulsion plants. Plans and directs application of radiological controls required during servicing of nuclear propulsion plants. Reviews work orders and procedures to ensure adequate provisions for radiation and radioactive contamination control. Trains personnel in required controls. Ensures adequate accountability for radioactive material. Maintains and distributes pertinent tender manuals and instructions. Directs radiological operations in, or associated with, nuclear support facilities.

Related Codes: NOBC - 7968, 9392-9394; DOD Group - 241000 Safety; Paygrades: W1-O11

7273 NUCLEAR POWER RESEARCH PROJECT OFFICER [NUC PWR RSCHPJ]

Conducts and administers research, development and design projects of nuclear powerplants. Evaluates results of work by contractors and shipbuilders. Provides for exchange of information among all groups working on a project, including design criteria, specifications, operating data, space and weight considerations and other matters relating to a complete nuclear powerplant design. Represents Navy on interservice boards and committees dealing with nuclear power.

Related Codes: NOBC - 4710, 7968;

DOD Group - 241400 Engineering and Maintenance Officers, Other; Paygrades: Paygrades: W1-O11

7285 STAFF MACHINERY MATERIAL OFFICER [STF MACH MTL]

Assists staff material officer or commander by administering ship machinery phase of material and maintenance program for command. Directs material maintenance of ship machinery under cognizance of Naval Sea Systems Command. Exercises technical supervision over tender, naval shipyard and ship's force repairs required by ships of command. Supervises material tests and inspections of ship machinery. Advises unit engineering officers on material and maintenance matters, supply of materials and maintenance of stock and spare parts.

Related Codes: NOBC - 9362-9369; 9390; DOD Group - 240800 Ship Machinery; Paygrades: W1-O11

PRODUCTION ENGINEERING GROUP

7400-7499

Classifications in this group identify primary duties associated with organizing and administering navy yard production shops or planning utilization of production facilities and improvement of production processes.

7420 SHIP TYPE PLANNING AND ESTIMATING SUPERINTENDENT [SHP TYP P&E]

Directs the planning for and calculation of the cost of the alteration, repair, overhaul and new construction of ship hull structures and machinery. Examines repair requests, determining work to be accomplished. Initiates preparation of designs and job orders. Makes final estimates and plans for ship arrival conferences. Inspects ship hull and machinery. Schedules time and sequence of repairs, reporting on work progress.

Related Codes: NOBC - 7970; DOD Group - 240700 Ship Construction and Maintenance;

Paygrades: W1-O11

7435 QUALITY ASSURANCE SUPERINTENDENT [QA SUPT]

Directs planning, execution and monitoring of overall quality assurance program. Maintains standards by directing performance of such quality assurance functions as inspections and physical, chemical, qualification and nondestructive tests. Develops training program. Develops and implements policies for assuring conformance to technical requirements. Executes assigned research and development.

Related Codes: NOBC - 1485; DOD Group - 241400 Engineering and Maintenance Officers – Other;

Paygrades: W1-O11

7445 PRODUCTION ENGINEERING OFFICER [PROD ENG]

Administers Production Engineering Division. Develops performance standards and supervises development of improved production processes and engineered methods including shop layout studies. Supervises development and distribution of work schedules. Develops standard schedules for repeat-type work items and alterations. Aids shops in resolving scheduling conflicts. Analyzes workload and manpower requirements to maintain proper balance. Supervises maintenance of records. Assists production officer in all aspects of production planning and control. Directs tool program. Participates in shipyard industrial facilities program.

Related Codes: NOBC - 7997; DOD Group - 280400 Procurement and Production; Paygrades: W1-O11

7450 SHOP PRODUCTION OFFICER [SHOP PROD]

Plans, organizes and controls industrial shop production. Regulates shopwork according to manpower, facilities and materials available. Controls production by establishing schedules and maintaining production charts and other indexes. Balances fluctuations in workload by redistributing work and workmen among shops, or recommending purchase of materials instead of their manufacture in yard shop. Directs and conducts studies of current shop methods and related problems. Compares operating costs of different shops to discover disproportionate outlays.

Related Codes: NOBC - 7997; DOD Group - 280400 Procurement and Production; Paygrades: W1-O11

GENERAL GROUP (NAVAL ENGINEERING FIELD)

7900-7999

Classifications in this group identify primary duties associated with overall research, planning, design, and production in the construction and repair of ships and ships' equipment, and with naval engineering duties not specifically identified in another group.

7905 SHIP PROJECT OFFICER [SHP PJ OFF]

Functions as central SUPSHIP point of contact for assigned ship project. Provides overall coordination for: engineering/technical design services, quality assurance and inspection, ship trials and delivery, progress monitoring/scheduling, material procurement, fitting out and post-shakedown availabilities, configuration control, claims monitoring, funds control, contract change negotiation and adjudication, guarantee provisions and final settlement, liaison with PCO/CO, TYCOM, NAVSEA, INSURV and other commands.

Related Codes: NOBC - 7910, 7927, 7984, 7996;

DOD Group - 240700 Ship Construction and Maintenance; Paygrades: W1-O11

7910 ENGINEERING LIAISON OFFICER [ENG LIAISON]

Maintains liaison between head of naval mission, attache, maritime or space agencies, etc., and headquarters command regarding ship construction, conversion and repair and design and installation of systems and equipment. Maintains cognizance of problem area and status of projects. Provides technical engineering advice. Assists on problems of completion, acceptance and operation of vessels. Arranges for performance of work and establishes financial basis for agreement.

Related Codes: NOBC - 7927, 7966, 7984; DOD Group - 240700 Ship Construction and Maintenance;

Paygrades: W1-O11

7927 NAVAL ENGINEERING INSPECTION OFFICER [NAV ENG INSP]

Conducts or directs inspection of hulls, machinery and electrical equipment during fabrication and installation. Establishes standards, frequency and method of inspection. Examines work for conformance to specifications and standards, approving minor alterations in plans made necessary by production or installation difficulties and recommending corrective action where material is deficient. Witnesses tests of material and equipment for verification purposes. Appraises capacity of private plants to perform required contracts.

Related Codes: NOBC - 7140; DOD Group - 240700 Ship Construction and Maintenance;

Paygrades: W1-O11

7930 SHIP ELECTRICAL REPAIR OFFICER [SHP ELC REP]

Directs ship electrical repair activities. Trains and directs assistants for electrical repairs of ships. Attends arrival conferences. Ensures execution of repairs by supervision and inspection, correlating shipboard electrical work with that of hull, machinery and weapons, deciding sequence of shop and shipboard tasks. Oversees installation of electrical units. Inspects and approves completed job orders. Authorizes, and reports to repair agent, minor variations from designs.

Related Codes: NOBC - 9353; DOD Group - 240200 Electrical/Electronic; Paygrades: W1-O11

7931 NAVAL ENGINEERING LOGISTICS OFFICER [NAV ENG LOG]

Develops or directs technical planning for ship construction, maintenance and repair in support of operational, strategic, or logistical planning. Reviews operational planning requirements, analyzing engineering and material problems represented. Supervises preparation of technical plans. Recommends distribution methods to ensure availability of materials for planned requirements such as new construction, alteration and repair. Estimates logistic implications of technological developments, new ship types and equipment. Furnishes technical advice and assistance to command or logistical planning officers.

Related Codes: NOBC - 9051; DOD Group - 280100 Logistics, General; Paygrades: W1-O11

7936 SHIP CONSTRUCTION AND REPAIR SUPERINTENDENT (GENERAL) [SHP C&R GEN]

Directs division of naval shipyard production department concerned with shopwork and ship construction and/or repair, alteration, conversion, or overhaul. Coordinates specialized units concerned with hull, machinery, weapons, electrical and electronic equipment, or nuclear reactor plant. Supervises superintendents having immediate responsibility for specific projects. Determines priority of work within division. Secures approval for minor modifications in designs for repairs, recommending major alterations to planning department. Expedites work to comply with established schedules. Coordinates work with other yard divisions.

Related Codes: NOBC - 7976, 7996; DOD Group - 240700 Ship Construction and Maintenance
Paygrades: W1-O11

7937 SHIP CONSTRUCTION AND REPAIR SUPERINTENDENT (SURFACE SHIPS) [SHP C&R SURF]

(For definition, see NOBC 7936)

Related Codes: NOBC - 7976, 7996; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7938 SHIP CONSTRUCTION AND REPAIR SUPERINTENDENT (SUBMARINES) [SHP C&R SUB]

(For definition, see NOBC 7936)

Related Codes: NOBC - 7976; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7939 SHIP CONSTRUCTION AND REPAIR SUPERINTENDENT (NUCLEAR) [SHP C&R NUC]

(For definition, see NOBC 7936)

Related Codes: NOBC - 7976, 7996; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7959 NAVAL ENGINEERING RESEARCH PROJECT OFFICER [NAVENG RSCH PJ]

Administers scientific research in naval engineering problems. Maintains liaison with civilian contractors or sections of naval research laboratory. Evaluates progress of research contract. Suggests solutions to problems involving future or proposed course of project. Advises scientific personnel on suitability of developmental work for Navy use. Represents project in committee meetings and contacts with other organizational units. Studies results of research, establishing new naval applications. Arranges for conduct of tests and experiments and field expeditions.

Related Codes: NOBC - 7974; DOD Group - 251200 Research and Development Coordinators;
Paygrades: W1-O11

7966 NAVAL ENGINEERING TRIALS AND SURVEY OFFICER [ENG TRI&SURV]

Directs acceptance trials and surveys of naval vessels. Supervises hull, machinery, electrical and weapons engineering officers in making specialized inspection. Conducts acceptance trials, scheduling sequence of events and ensuring that adequate crew is aboard to operate equipment. Reports on deficiencies, fixing responsibility and advising acceptance or rejection. Inspects ships subject to survey, advising on desirability of retention or disposal. Outlines disposition procedure for survey ships.

Related Codes: NOBC - 7140, 7927; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7968 NUCLEAR POWER SUPERINTENDENT [NUC PWR SUPT]

Controls and coordinates engineering and planning of nuclear propulsion plant work. Directs programs of reactor safety, construction, overhaul, maintenance, modification, testing and refueling. Inspects all work on reactor plants, ensuring technical and quality control. Prepares specifications and requirements for special tools, equipment, facilities, training, procurement and inspection of materials. Renders technical advice on facilities, procedures, schedules, estimates, methods, responsibilities, training, safety and security. Ensures proper nuclear support facilities on submarine tenders. Administers Nuclear Power Division.

Related Codes: NOBC - 7249, 7273; DOD Group - 241400 Engineering and Maintenance Officers, Other;
Paygrades: W1-O11

7970 YARD PLANNING OFFICER [YARD PLN]

Administers shipyard planning department, including direction of activities of the planning and estimating division, the design division and the combat systems division. Serves as central authority for committing the shipyard. Authorizes work accomplishment. Supervises cost estimating and control. Directs preparation and issue of technical specifications and designs. Initiates procurement of material and funds. Administers funds for industrial work.

Related Codes: NOBC - 7420, 7974, 7998; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7974 NAVAL ENGINEERING OFFICER, SHIP DESIGN [NAVENG SHPDSGN]

Directs or supervises ship design activities. Organizes and coordinates design work, including value engineering studies. Serves as consultant on hull, machinery, electrical and electronic design problems for ships under construction, overhaul, conversion, inactivation, and for special design projects. Directs stability and strength tests. Supervises ship design improvement projects and approves designs on basis of adequacy and accuracy.

Related Codes: NOBC - 7120; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7976 SHIP REPAIR OFFICER [SHP REP]

Directs hull, machinery, electrical and electronic repair work on all types of naval vessels. Examines work requests from ships alongside. Confers with repair department officers and with executive and engineering officers of ships, deciding feasibility of performing requested repairs. Supplies technical advice, interpreting Naval Sea Systems Command policy to conferees. Directs distribution of authorized work among repair divisions, establishing priorities in accordance with needs of vessel and capacity of yard or tender.

Related Codes: NOBC-7165, 7241, 7930, 7936-7939;
DOD Group - 240700 Ship Construction and Maintenance; Paygrades: W1-O11

7984 SHIP TYPE ENGINEERING OFFICER [SHP TYP ENG]

Directs engineering activities such as systems command or fleet staff activities organized on basis of ship types. Reviews and authorizes plans for new construction, repair and alteration of type vessel. Assigns design and development work to various specialized engineering divisions. Coordinates activities of systems command, shipyards and private contractors during new construction and conversion. Reviews type inspection, trial board and similar reports and corrects deficiencies. Authorizes expenditure of funds for type ship.

Related Codes: NOBC - 7974; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7996 SUPERVISOR OF SHIPBUILDING, CONVERSION, AND REPAIR [SUP SHP]

Administers Navy and other Department of Defense shipbuilding, design, conversion, repair and facility contracts with private shipbuilding plants. Ensures compliance with contract terms, schedules, specifications and quality assurance requirements. Approves requests for repair/conversion funds for coordination of fiscal requirements within designated area. Directs functions related to repairs, alterations and conversions. Performs mobilization planning for accomplishment of repair and conversion of vessels in designated area.

Related Codes: NOBC - 7927, 7974, 7984, 7997; DOD Group - 280400 Procurement and Production;
Paygrades: W1-O11

7997 YARD PRODUCTION OFFICER [YARD PROD]

Directs production department of naval shipyard comprising such divisions as shipbuilding, ship repair, and shop. Develops and enforces policies and procedures within department to accomplish work within time allowed and funds allocated. Ensures conformance to applicable instructions and sound engineering and safety practices. Determines work commitments for department. Directs maintenance and custody of materials and equipment. Controls physical security of production shops and of ships prior to commissioning. Coordinates work with other yard departments.

Related Codes: NOBC - 7420, 7445, 7996; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7998 COMBAT SYSTEMS SUPERINTENDENT [CMBT SYS SUPT]

Administers the installation, modification, overhaul and repair of ship combat systems. Provides technical guidance, advice and assistance to shipyard and ships in the introduction of new equipment, systems and shipboard aeronautical material and equipment. Assures proper installation, modification, overhaul, or repair of shipboard electronics, missile and weapons systems and components. Coordinates production and supply activities. Conducts final testing and inspection of operating systems to ensure operability of ship combat systems.

Related Codes: NOBC - 6717; DOD Group - 240700 Ship Construction and Maintenance;
Paygrades: W1-O11

7999 TECHNICAL ASSISTANT FOR WEAPONS [TECH ASST WEP]

Conducts and carries out evaluation, installation, testing and maintenance programs of shipboard weapons (including fleet ballistic missile) systems, subsystems and component equipment. Supervises shipboard weapons systems installation, testing, maintenance, repair and overhaul. Reviews testing and firing results. Provides advice and guidance on facility and training requirements.

Related Codes: NOBC - 6704; DOD Group - 240500 Ordnance; Paygrades: W1-O11

AVIATION FIELD

8000-8999

This field includes classifications which identify primary duties involving squadron command and operation and the immediate support thereof; research, design, development, technical procurement, production, testing, fitting out, maintenance, modification, repair and effectiveness of naval aircraft; and photography.

MAJOR GROUPS

8000-8099 AVIATION ENGINEERING (DESIGN AND ACCEPTANCE)

8100-8199 AVIATION ENGINEERING (MAINTENANCE AND REWORK)

8500-8599 FLIGHT

8600-8699 GROUND OPERATIONS

8800-8899 PHOTOGRAPHY

AVIATION ENGINEERING (DESIGN AND ACCEPTANCE) GROUP

8000-8099

Classifications in this group identify primary duties involving planning, participation in, or direction of research, development, design, and testing of naval aircraft and components.

8002 AERODYNAMICS ENGINEERING OFFICER [AERO ENG]

Plans and directs aerodynamic and hydrodynamic projects concerned with analysis of flight performance characteristics of aircraft and guided missiles. Prepares aircraft specifications concerned with flying qualities of experimental aircraft and guided missiles. Initiates and coordinates aerodynamic tests of aircraft models and components. Evaluates test results determining stability and control characteristics of type aircraft or missile. Suggests modifications in structural design to improve flight performance. Recommends acceptance of model on basis of flight performance.

Related Codes: NOBC - 8026, 8076; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8004 AERONAUTICAL ENGINEERING OFFICER, AIRCRAFT MECHANICAL, ELECTRONIC, ELECTRICAL, AND SAFETY EQUIPMENT [AEROENG A/CSYS]

Administers and directs research, development and testing of aircraft mechanical, electronic, electrical and/or safety equipment and related systems. Determines design requirements for aircraft equipment such as actuating and flight control systems, airframe components, emergency ejection devices, mechanical standards parts and/or aircrew protective systems and equipment. Prepares production specifications for contractor. Consults with aircraft design engineers in adapting equipment to aircraft. Determines standards for flight testing of equipment and systems.

Related Codes: NOBC - 8026, 8076; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8015 AIRCRAFT ARMAMENT DEVELOPMENT OFFICER [A/C ARM DVLP]

Plans and directs research, design, development, test, evaluation, or installation programs for aircraft armament. Determines physical and performance characteristics of aircraft weapons including aircraft guns, rockets, pyrotechnics, bombs and bomb systems and chemical systems. Evaluates aircraft and armament compatibility. Manages technical aspects of aircraft armament programs concerned with launching and suspension equipment, pyrotechnic dispensers and launchers, armament monitor and control systems, arming and dearming equipment, guided missile launcher power supplies, armor, turrets and pylons. Supervises preparation of design specifications.

Related Codes: NOBC - 6920; DOD Group - 240500 Ordnance; Paygrades: W1-O11

8018 AIRCRAFT PRODUCTION OFFICER [A/C PROD]

Furnishes technical advice and direction in procurement and production of aircraft and components such as power plants, propellers and instruments. Determines production schedules for aircraft and aircraft components to meet naval aviation requirements. Investigates sources of supplies, bid quotations and manufacturers' capacities and potentials; prepares procurement directives. Directs production and shipment of equipment, ensuring fulfillment of aircraft production schedules. Assists contractors in production engineering, planning and control, maintaining liaison through aviation field representatives.

Related Codes: NOBC - 8076; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8020 AIRCRAFT SURVIVABILITY OFFICER [A/C SURV]

Conducts time critical on-site assessments of battle-damaged aircraft to determine the threat weapon; documents and reports its effect to operational commanders and engineering acquisition agencies. Coordinates with maintenance personnel to aid with documenting and collecting battle damage information. Interfaces with engineering, intelligence, and operational communities to scrutinize collected battle damage data to develop and improve platform survivability. Catalogs aircraft battle damage data including mission, engagement, and maintenance information into survivability databases.

Related Codes: None; DOD Group - 220700 Operations Staff; Paygrades: O1-O6

8026 AIRCRAFT TEST ENGINEER [A/C TEST ENG]

Directs or conducts engineering tests on experimental and service-type aircraft to gain data concerning design, fabrication, serviceability and operation of aircraft. Studies details of airframe, powerplant, instrumentation and special equipment of aircraft, determining methods and procedures of conducting tests. Participates in test flights, recording data, observing functioning of aircraft and equipment and supervising operation of aircraft equipment. Prepares technical reports setting forth findings and recommendations.

Related Codes: NOBC - NONE; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8035 AIRCRAFT/GUIDED MISSILE ENGINE PROJECT OFFICER [AC/GM ENG PJ]

Coordinates aircraft or guided missile engine project within defined boundaries of time, resources and performance requirements. Prepares master plan, including schedules, costs and scope of all work and resources required. Initiates overall production plans. Monitors integrated logistic support requirements. Monitors contract negotiations and approves proposed contractual actions required for accomplishment of project. Evaluates progress. Coordinates changes to scope, timing and cost with functional organizations. Controls logistic support functions. Approves design changes to support equipment, as appropriate.

Related Codes: NOBC - 6280; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8050 LAUNCHING, RECOVERY, AND LANDING AIDS ENGINEERING OFFICER [LNCH/RECV/AIDS]

Plans, coordinates and directs research, design, development and testing of launching and recovery systems, landing aids and fog modification systems. Develops and implements research plans and programs. Evaluates design proposals. Determines handling equipment needed for new aircraft. Prepares specifications for catapult and arresting gear installations. Prepares technical data and instructions for operation of landing aids.

Related Codes: NOBC - 8004; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8074 GROUND SUPPORT EQUIPMENT AND SHIP FACILITIES ARRANGEMENT OFFICER [GSE & SFA]

Plans, administers, or executes research and development programs for Ground Support Equipment (GSE) items and determines requirements for, and arrangement of, aviation facilities. Investigates, determines suitability and approves any special, general purpose, standard, or common GSE items used with aircraft and weapons systems. Determines parameters, characteristics, details, coordination of installation requirements and positioning of GSE items aboard ship and at shore activities.

Related Codes: NOBC - 8050; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8076 TYPE AIRCRAFT DESIGN AND DEVELOPMENT OFFICER [TYP A/C D&D]

Directs Naval Air Systems Command section or project on type of aircraft design, development, test and evaluation of experimental aircraft. Assists in screening and evaluating proposals for type of experimental aircraft. Assists research and development activities concerned with preliminary investigation of proposed project. Recommends award of contract. Oversees project through design and engineering stages, coordinating efforts of systems command division and contractor. Reviews field testing at manufacturer's plant and naval aviation test facilities.

Related Codes: NOBC - 8002; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

AVIATION ENGINEERING (MAINTENANCE AND REWORK) GROUP

8100-8199

Classifications in this group identify primary duties involving planning, administration, and direction of depot, intermediate, and organizational maintenance of naval aircraft, components, parts, and support equipment.

8112 AVIATION MAINTENANCE FIELD REPRESENTATIVE [AV MNT FLD REP]

Visits aircraft activities for purpose of assisting in solution of maintenance problems encountered with naval aircraft. Demonstrates to maintenance personnel proper techniques and use of new or special equipment to improve maintenance. Disseminates technical information. Advises on proper preparation of reports. Assists and advises in obtaining aircraft material, equipment and technical publications. Submits technical reports to Naval Air Systems Command whenever difficulty is encountered which warrants further information, investigation, or action.

Related Codes: NOBC - 8116, 8118; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8115 AVIATION MAINTENANCE MANAGEMENT ENGINEER [AV MNT MGT ENG]

Develops and coordinates studies to achieve maximum utilization of manpower, material and facilities within the maintenance division. Directs studies for developing uniform production controls, work simplification and work measurement for field programs. Develops uniform organization structures and administrative procedures. Studies uniform means for obtaining, analyzing and utilizing accounting and statistical data. Maintains liaison with management engineering groups of the Navy and other activities to obtain information concerning new developments and techniques.

Related Codes: NOBC - 2160, 8177; DOD Group - 270100 Administrators, General; Paygrades: W1-O11

8116 AVIATION MAINTENANCE PLANNING OFFICER [AV MNT PLN]

Directs and supervises planning for establishment of airframe and engine maintenance requirements. Establishes number and type of aircraft to be overhauled. Determines requirements for new spare engines to support approved aircraft program. Directs movement of aircraft from operating commands to overhaul and repair departments or storage pools and return to operating commands. Schedules ferrying of aircraft and maintains progress reports of such movements. Maintains records of location and status of aircraft.

Related Codes: NOBC - 8175, 8176; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8118 AVIATION MAINTENANCE ENGINEERING OFFICER [AV MNT ENG]

Establishes technical procedures needed to maintain aircraft, aviation equipment and accessories. Investigates and takes corrective action on reports of unsatisfactory material. Recommends changes in design features affecting equipment maintenance. Issues technical bulletins and modification instructions. Determines requirements and reviews for accuracy technical handbooks, including service and parts sections. Selects special tool and test equipment items required for line maintenance and overhaul of aircraft equipment.

Related Codes: NOBC - 8152; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8125 AVIATION OVERHAUL SCHEDULES OFFICER [AV OVHL SKED]

Schedules overhaul, repair and modification of aircraft, engines and aviation equipment. Distributes aircraft overhaul assignments to various industrial establishments on basis of geographical location, home base of squadron, local labor conditions and transportation facilities. Checks field activities' overhaul schedules for conformance to overall maintenance program and policies. Ensures availability of adequate facilities and personnel to accomplish assigned schedule.

Related Codes: NOBC - 8175, 8176; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8141 DEPOT MAINTENANCE ENGINEERING AND QUALITY OFFICER [D/MNT ENG/QUAL]

Directs engineering services for Naval Air Rework Facility, ensuring economy of operation and quality of end product. Establishes engineering specifications for processing items in production shops. Interprets and supplements rework specifications supplied by systems command. Prepares and interprets test specifications and limits of performance and calibration for operating, test and standards equipment. Develops and implements quality control procedures and systems. Ensures conformance to quality standards. Furnishes functional guidance and technical services to elements which plan/perform work to design and quality specifications.

Related Codes: NOBC - 8112, 8116, 8118, 8177; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8152 DEPOT MAINTENANCE PRODUCTION OFFICER [D/MNT PROD]

Administers planning, scheduling and accomplishment of depot maintenance workload. Directs rework operations on designated weapons systems, accessories and equipment. Directs the manufacture of required aircraft parts and assemblies. Ensures effectiveness of production operations. Provides engineering services in support of production operations.

Related Codes: NOBC - 8112, 8125, 8141; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8175 AIRCRAFT INTERMEDIATE MAINTENANCE/MATERIAL CONTROL OFFICER [A/C IMNT/MTL]

Plans, coordinates and manages aircraft intermediate maintenance workload. Controls activities of production divisions. Monitors workload priorities and assigns completion times for check, test, repair, update/modification, calibration/qualification and overhaul of aircraft engines, airframe systems, avionics systems, aviator's survival systems and general/special aviation maintenance support equipment and associated components. Provides technical assistance to supported activities. Ensures technical compliance with established maintenance policies. Requisitions required material.

Related Codes: NOBC - 8176, 8189, 8925; DOD Group - 240400 Aviation Maintenance and Allied;

Paygrades: W1-O11

8176 AIRCRAFT ORGANIZATIONAL MAINTENANCE/MATERIAL CONTROL OFFICER [A/C OMNT/MTL]

Plans, coordinates and manages organizational level aircraft maintenance workload. Controls activities of production divisions/branches. Prepares schedules and man-hour estimates for periodic maintenance of aircraft engines, airframes, avionics, weapons, components and support equipment. Assigns job priorities and completion times for unscheduled maintenance actions, technical directive compliance and conditional aircraft inspection requirements ensuring compliance with established maintenance policies. Maintains aircraft, inventory, engine and accessory logs/records and current maintenance index. Maintains liaison with supporting activities. Requisitions required material.

Related Codes: NOBC - 8175, 8190, 8925; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8177 AIRCRAFT MAINTENANCE QUALITY CONTROL OFFICER [A/C MNT QC]

Administers aircraft maintenance quality control program. Monitors maintenance and repair inspection procedures and standards. Ensures conformance of work accomplished to established standards and safety-of-flight requirements and compliance with calibration and safety instructions. Determines applicability of technical publications and directives to quality control. Identifies discrepancies and takes appropriate action. Performs or directs inspections of maintenance and repair work accomplished, equipment used and ready-for-issue material and spares. Maintains master technical library.

Related Codes: NOBC - 8141; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8180 AIR WING MAINTENANCE OFFICER [AIR WING MNT]

Coordinates aircraft maintenance performed by and in support of squadrons and units under the cognizance of the Wing Commander. Provides liaison between squadrons, ships and stations in connection with maintenance matters. Manages and operates Wing maintenance control center in Flight Deck Control when embarked.

Related Codes: NOBC - 8189, 8190; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8189 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, GENERAL [A/C IMNT GEN]

Administers and supervises intermediate level maintenance program in accordance with controlling directives from higher authority. Supervises intermediate level maintenance, including calibration, repair or replacement of damaged or unserviceable parts, components, or assemblies and manufacture of unavailable parts. Promotes improvements in policy direction, technical supervision and management control of programs affecting aircraft maintenance activities.

Related Codes: NOBC - 8175, 8177, 8190-8195; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8190 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, GENERAL [A/C OMNT GEN]

Administers and supervises organizational level maintenance program in accordance with controlling directives from higher authority. Supervises organization level maintenance, including inspection, servicing, lubricating, adjusting and replacement of parts, minor assemblies and subassemblies. Promotes improvements in policy direction, technical supervision and management control of programs affecting aircraft maintenance activities.

Related Codes: NOBC - 8176, 8196, 8197, 8199; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8191 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, POWERPLANTS [A/C IMNT PWRPL]

Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft powerplants, powerplant components, accessories and related systems including but not limited to engines, propellers, cooling systems, fuel tanks, rotor systems and components.

Related Codes: NOBC - 8189, 8190, 8197; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8192 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, AIRFRAMES [A/C IMNT A/F]

Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of air-frame systems and components (except missiles) such as fuselage, wings, fixed surfaces, movable surfaces, cargo hoists, landing gear, hydraulic, pneumatic and utility systems and components.

Related Codes: NOBC - 8002, 8175, 8189, 8197; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8193 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, ARMAMENT EQUIPMENT [A/C IMNT ARMEQ]

Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft weapons systems and components including bombing, gunnery and rocket equipment, sights, bomb racks and launchers, air compressors (armament only), gunfire interrupters and switches, gun cameras, solenoids, switches, transformers, heaters, ammunition containers, bomb release units, door timers, latches, operating mechanisms, warning lights, munitions hoisting and loading equipment, gun charging units, pyrotechnic ejectors and launchers, jet-assisted take-off units and installed tow target equipment.

Related Codes: NOBC - 8189, 8199; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8195 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, SUPPORT EQUIPMENT [A/C IMNT SUPEQ]

Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft maintenance support equipment such as gasoline, electric and diesel powered servicing equipment, gas turbine powered servicing equipment, trailers, dollies and carts (nonpowered) and mechanical support equipment.

Related Codes: NOBC - 8004, 8074, 8189, 8196; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8196 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, LINE DIVISION [A/C OMNT LINE]

Performs organizational level maintenance functions, as indicated in NOBC 8190, in the line division. Supervises and assigns plane captains, troubleshooters and ground support equipment maintenance personnel in preoperation, postoperation and daily inspections, servicing and maintenance of assigned aircraft and support equipment.

Related Codes: NOBC - 8176, 8190, 8638; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8197 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, AIRCRAFT DIVISION [A/C OMNT A/C]

Performs organizational level maintenance functions, as indicated in NOBC 8190, in the aircraft division. Supervises the inspection, removal, functional test and adjustment and installation of components in such areas as powerplants, airframes and aviator's equipment. Directs the supervision, coordination and completion of periodic maintenance and inspections of assigned aircraft conducted in the maintenance production divisions.

Related Codes: NOBC - 8191, 8192, 8625, 8638; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8198 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, AVIONICS [A/C IMNT AV]

Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft electrical and electronics systems, including radio, radar, navigation, recognition (IFF), aircraft power generation and distribution, lighting and instrumentation, electronic fire control and bombing, sonar, magnetic detection, electronic countermeasures and related systems and avionics support equipment.

Related Codes: NOBC - 5977, 8189, 8199; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

8199 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, AVIONICS/WEAPONS DIVISION
[A/C OMNT AV/WP]

Performs organizational level maintenance functions, as indicated in NOBC 8190, in the Avionics/Weapons Division. Supervises the inspection, removal, functional test and adjustment and installation of components in such areas as electronics, electrical, instrument, weapons, reconnaissance and photographic. Oversees the conduct of periodic maintenance of assigned aircraft in appropriate areas of responsibility.

Related Codes: NOBC - 8190, 8193, 8198; DOD Group - 240400 Aviation Maintenance and Allied;
Paygrades: W1-O11

FLIGHT GROUP

8500-8599

Classifications in this group identify primary duties involving airborne aircraft operations, including piloting of various types of aircraft, control of airborne aircraft, and operation of airborne equipment.

8501 AVIATOR [AVIATOR]

Pilots or Naval Flight Officers responsible for the safe operation of naval aircraft with regards to command, piloting navigation, communications, or weapons system operation management in support of various missions of the Navy.

Related Codes: NOBC - 8506, 8583, 8585, 8588, 8591, 8592, 8593, 8594;
DOD Group - 220200 Other Fixed-Wing Pilots; Paygrades: W1-O11

8506 CARRIER AIRBORNE COMBAT INFORMATION CENTER OFFICER [CV A/B CIC]

Controls and directs Combat Information Center (CIC) operations in carrier-based aircraft configured for CIC. Operates or directs operation of installed equipment including communications and radar. Controls detection, identification and surface and air target tracking operations. Conducts air-intercept control and antisubmarine air-control operations. Coordinates air/surface evolutions. Assists in search and rescue operations.

Related Codes: 8501; DOD Group - 220400 Aircraft Crews; Paygrades: W1-O11

8583 SPECIAL PROJECT PILOT [SP PJ PILOT]

Pilots aircraft or spacecraft for developmental and experimental purposes. Participates in special projects such as guided missile, ordnance, electronic and space exploration projects.

Related Codes: NOBC - 8501, 8588; DOD Group - 220200 Other Fixed-Wing Pilots; Paygrades: W1-O11

8585 SPECIAL PROJECT AIRBORNE ELECTRONICS EVALUATOR [SP PJ ELX EVAL]

Directs or participates in electronics or electronic countermeasures projects at naval air development, experimental, test, or fleet activities. Conducts tests in flight in aircraft configured for experimental and/or classified projects such as guided missiles. Operates equipment when required. Supervises and/or instructs watchstanders during flight operations, evaluates results and prepares reports.

Related Codes: 8501; DOD Group - 220400 Aircraft Crews; Paygrades: W1-O11

8588 TEST PILOT [TEST PILOT]

Pilots newly constructed, modified, or repaired aircraft on test flights. Examines requirements and restrictions for particular aircraft type to be tested. Operates aircraft under varying flight conditions. Evaluates test aircraft airworthiness. Consults with engineering and maintenance personnel and prepares recommendations concerning equipment and performance discrepancies. Approves aircraft as safe for normal flight.

Related Codes: NOBC - 8501, 8585; DOD Group - 220200 Other Fixed-Wing Pilots; Paygrades: W1-O11

8591 NAVAL FLIGHT OFFICER INSTRUCTOR, TRAINING PLANES [NFOINST TRAPLN]

Instructs Naval Flight Officers in navigation principles, high-speed low-level navigation, electronics and air-to-air intercept procedures. Conducts instruction in classroom, in simulators and in training planes. Demonstrates approved procedures and techniques. Corrects mistakes. Qualifies student in phase when classroom, simulator and in-flight proficiency is demonstrated.

Related Codes: 8501; DoD Group - 220400 Aircraft Crews; Paygrades: W1-O11

8592 FLIGHT INSTRUCTOR, TRAINING PLANES [FLGTINST V/HT]

Pilots various type training planes to instruct student officers and aviation cadets in operation of naval aircraft. Explains operation of flight controls and interpretation of flight instrument panel in cockpit. Takes off, operates and lands trainer-type aircraft, demonstrating to student pilot correct techniques and procedures for contact flight. Flies with student at controls and corrects mistakes. Qualifies student for particular type training plane when flight proficiency is demonstrated.

Related Codes: NOBC - 8501, 8593; DoD Group - 220200 Other Fixed-Wing Pilots; Paygrades: W1-O11

8593 FLIGHT INSTRUCTOR - PILOT, FLEET OPERATIONAL AIRCRAFT [FLGTINST PILOT]

Pilots various fleet-type aircraft for purpose of instructing designated naval aviators/naval flight officers (NFOs) transitioning to fleet-type aircraft. Conducts preflight and postflight briefings. Operates fleet-type aircraft from land base or aircraft carrier, demonstrating proper techniques. Conducts ground training, training in tactics and training in operation of navigation, electronic and armament equipment. Certifies pilots/NFOs as qualified for particular aircraft.

Related Codes: NOBC - 8501, 8592; DoD Group - 220200 Other Fixed-Wing Pilots; Paygrades: W1-O11

8594 FLIGHT INSTRUCTOR - NFO, FLEET OPERATIONAL AIRCRAFT [FLGTINST NFO]

Instructs designated naval aviators/naval flight officers (NFOs) transitioning to fleet multiplace aircraft. Conducts preflight and postflight briefings. Operates air intercept radar and other electronic search and/or detection devices and associated fire control equipment, demonstrating proper techniques. Conducts ground training, training in tactics and training in operation of navigation, electronic and armament equipment. Certifies pilots/NFOs as qualified for particular aircraft.

Related Codes: NOBC - 8501, 8591; DoD Group - 220400 Aircraft Crews; Paygrades: W1-O11

8595 AIR VEHICLE PILOT INST, TRNG [AVPINST TRAUAV]

Instructs Air Vehicle Pilots in Tactics, Techniques and Procedures (TTPs) in the operation of Unmanned Aerial Vehicles (UAV). Conducts instruction in a classroom, in simulators, and flying UA Vs from ground control stations. Qualifies student for specific type UAVs when simulator and/or in-flight proficiency is demonstrated.

Related Codes: NOBC - 8501; DoD Group- 220900 Unmanned Vehicle (UV) Operators;

GROUND OPERATIONS GROUP

8600-8699

Classifications in this group identify primary duties involving the direction or administration of operations required for the immediate support of the flight group such as air traffic control, flight safety, line servicing, aircraft arming and fueling, flight scheduling, and miscellaneous airport services.

8606 ANTISUBMARINE CLASSIFICATION AND ANALYSIS OFFICER, AVIATION [ASW CLS OFF]

Directs evaluation, classification and analysis of antisubmarine operations data. Recommends appropriate tactical action to operational commander. Evaluates performance of assigned aircraft squadrons and recommends improvements to increase capability to develop contacts. Conducts aircrew briefings and debriefings on antisubmarine operations. Maintains status boards on squadron readiness. Evaluates equipment and procedures and as appropriate, recommends improvements.

Related Codes: NOBC - 9040; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8608 AIR BOATSWAIN [AIR BOSN]

Supervises repair group in emergency handling of aircraft during general quarters and flight quarters. Supervises repair unit performing salvage operations, plane recovery, pilot rescue, plane jettisoning and firefighting. Directs emergency repairs to aircraft, firefighting, and plane-handling equipment. Trains personnel in crash and firefighting duties. Conducts inspections to ascertain readiness and ensure servicing and cleaning after use.

Related Codes: NOBC - 8625; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8614 CATAPULT AND ARRESTING GEAR OFFICER [CAT&AG]

Directs and supervises launching and recovery of embarked aircraft. Ensures readiness of launching equipment. Establishes WOD (wind over deck) requirements. Supervises catapult airplane spotter and catapult crew at prescribed launching stations. Directs firing of catapult. Ensures readiness of arresting gear, barricade and visual landing aid systems. Supervises recovery of aircraft. Plans, schedules, supervises and records preventive maintenance and repairs of launch and recovery equipment. Maintains inventory and custody of ready service spare parts and accessories.

Related Codes: NOBC - 8608; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8618 AIR OFFICER [AIR]

Directs and administers air department on board aircraft carriers. Supervises activities of aviation personnel concerned with plane launching and landing, line preparations, plane handling and shipboard repair and maintenance of embarked aircraft. Schedules work for ship's aviation shops, ensuring compliance with work orders submitted. Directs arming, fueling and line checks of aircraft in preparation for launching.

Related Codes: NOBC - 8620, 8625, 8654; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8620 AIR OPERATIONS OFFICER, AFLOAT [AIR OPS AFLOAT]

Controls and schedules flight operations of ship's aircraft. Prepares flight operations plan, indicating daily flight and plane assignment. Delivers briefings to embarked pilots. Maintains radio communications with aircraft and provides directions on launching-landing operations. Tracks aircraft in Combat Information Center (CIC). Furnishes CIC with information regarding air operations. Evaluates operation with pilots and prepares operational reports.

Related Codes: NOBC - 8668, 8680, 8685; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8621 STRIKE OPERATIONS OFFICER [STRK OPS]

Assists in the planning and execution of air strike operations. Makes prestrike target analysis. Prepares recommendations for the employment of nuclear and/or conventional strike weapons. Coordinates planning with respect to type and quantity of ordnance requirements for strike. Recommends type and number of participating aircraft for commander's consideration. Monitors communications concerned with strike. Assists commander in controlling launch. As directed, assists command in tactical determinations during the development of strike operations. Supervises operation control center.

Related Codes: NOBC - 8972; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8625 AIRCRAFT HANDLING OFFICER [A/C HANDLING]

Directs flight and hangar deck operations aboard carrier, including spotting, landing and launching aircraft and handling crashes and fires. Directs flight deck officer and hangar deck officer. Supervises elevator operations between flight and hangar decks. Directs spotting of aircraft for catapult launching and flyaway. Directs training of personnel in techniques of spotting, plane handling, recovering and jettisoning planes, rescue of pilots and combatting deck fires. Establishes safety practices.

Related Codes: NOBC - 8654, 8660; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8638 AIRCRAFT FUELING OFFICER [A/C FUEL]

Supervises loading and unloading of aviation fuel and fueling and defueling of squadron aircraft. Arranges for adequate supply of aviation gasoline, submitting requisitions to ship or station supply department. Controls pumping operations when loading or unloading gasoline. Arranges for fueling and defueling of aircraft. Trains crewmen in particular duties and safety procedures. Supervises maintenance and repair of fueling equipment.

Related Codes: NOBC - 8660; DOD Group - 280200 Supply; Paygrades: W1-O11

8644 RADAR AIR TRAFFIC CONTROL CENTER OFFICER [RATCC]

Supervises operation of Radar Air Traffic Control Center (RATCC). Controls movement of air traffic within designated area. Establishes operating procedures in accordance with military directives and civil regulations. Maintains liaison with Federal Aviation Agency, local base officials and other agencies concerned with air traffic control. Represent RATCC in accident investigations and regulation infractions. Directs flight checks to ensure highest degree of safety and efficiency.

Related Codes: NOBC - 8658; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8647 AIR TRAFFIC CONTROL OFFICER [AIR TRAF CTL]

Manages air traffic control division at air facility not equipped with a radar air traffic control center. Controls movement of air traffic within designated area of control. Directs operations of control tower, ground controlled approach and air surveillance radar where installed. Supervises issuance of flight clearances. Coordinates with maintenance personnel to ensure proper operating condition of air traffic control equipment. Advises operations officer on air traffic control matters.

Related Codes: NOBC - 8644; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8653 OFFICER IN CHARGE, AVIATION UNIT OR DETACHMENT [OIC AV U/DET]

Directs operations of aviation unit or aviation detachment of major activity. Ensures compliance with policies, directives, regulations and instructions received from parent activity or other authority. Supervises training requirements, reviewing proficiency of personnel assigned and instituting training to correct deficiencies. Operates unit aircraft on routine training and operational flights.

Related Codes: NOBC - 8618, 8620, 8668, 8670, 8672; DOD Group - 220500 Ground and Naval Arms; Paygrades: W1-O11

8654 FLIGHT DECK OFFICER [FLGT DECK]

Assists aircraft handling officer in supervision of aircraft handling in flight deck operations. Plans plane spotting on flight deck. Trains and supervises plane handlers in spotting and moving planes. Trains and controls flight deck crash crews and fire crews during salvage, plane recovery, pilot rescue, plane jettisoning, or flight deck fires. Supervises maintenance of flight deck equipment.

Related Codes: NOBC - 8608, 8625, 8660; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8656 AVIATION SAFETY OFFICER [AV SAFETY]

Represents commanding officer in conduct of aviation safety program. Maintain intercommand and interdepartmental liaison to implement flight safety, ground safety, and/or nuclear safety. Prepares contingency plans to ensure coordination of efforts by crash crews, medical department and security department in the event of an accident. Disseminates aviation safety literature. Ensures that communications equipment, navigational aids and other electronic aids meet designated requirements. Inspects and recommends safety improvements for flight and ground operations. Serves as member of aircraft accident board.

Related Codes: NOBC - 8995; DOD Group - 241000 Safety; Paygrades: O1-O5

8658 CONTROLLED APPROACH OFFICER [CTL APPROACH]

Supervises operation of ground controlled approach or carrier controlled approach units electronically guiding landing aircraft. Ensures correct equipment operating site. Trains personnel in all operating positions. Directs aircraft on predetermined glide path to landing area by voice-radio communication. Ensures equipment operational readiness. Ensures meeting of requirements for flight testing of equipment. Provides instruction and check flights to ensure proficiency of controller personnel in all emergency procedures.

Related Codes: NOBC - 8644; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8660 HANGAR DECK OFFICER [HANGAR DECK]

Assists aircraft handling officer in supervision of aircraft handling on hangar deck in readiness for movement to flight deck. Ascertains number and type of aircraft required for daily flight operations and plans work for plane handlers. Supervises spotting of scheduled aircraft at various elevators for transfer to flight deck. Ensures securing of planes upon completion of flight and supervises maintenance and upkeep of assigned hangar deck machinery and equipment.

Related Codes: NOBC - 8608, 8625, 8654; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8662 LANDING SIGNAL OFFICER [LSO]

Directs and controls aircraft in carrier approach landings. Signals pilots in carrier approach and landings. Supervises and coordinates pilot carrier landing training. Advises commanding officers of pilot progress and proficiency. Maintains records of field carrier landings. Advises commanding officers of landing conditions. Instructs and qualifies landing signal officer trainees.

Related Codes: NOBC - 8658; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8668 OPERATIONS OFFICER, AVIATION SHORE ACTIVITY [OPS AV SHRACT]

Directs operations department at naval air station, comprising navigation, air traffic control, engineering, launch, photographic and meteorologic activities. Establishes and implements department policies and procedures; directs crash, salvage and rescue operations. Renders meteorological services to station and fleet activities. Provides continual air traffic control, ensuring operation of ground-controlled-approach equipment during adverse weather conditions.

Related Codes: NOBC - 8620, 8680; DOD Group - 241000 Safety; Paygrades: W1-O11

8670 SQUADRON COMMANDING OFFICER [SQN CO]

Commands aircraft squadron in carrying out assigned mission. Prepares squadron policies and directives, complying with regulations and instructions from higher commands. Organizes divisions, including aircraft maintenance, aviation ordnance, flight operations, material and training, administrative and supply. Conducts squadron training. Reviews flight proficiency. Ensures operational readiness of aircraft. Investigates delays by maintenance personnel. Operates squadron aircraft.

Related Codes: NOBC - 8672, 8680, 8685; DOD Group - 220100 Fixed-Wing Fighter and Bomber Pilots; Paygrades: W1-O11

8672 SQUADRON EXECUTIVE OFFICER [SQN XO]

Assists commanding officer in carrying out and administering squadron policies and directives. Prepares squadron bills and orders. Interviews and assigns enlisted personnel. Consults department heads and division officers when planning squadron activities. Establishes daily routine. Directs such administrative activities as maintaining personnel records, reviewing all correspondence, enforcing system for advancement in rating and preparing required reports. 8687 STAFF AIR DEFENSE OFFICER [STF AIR DEF]

Serves as staff officer for air defense in headquarters of a joint or combined command. Directs or participates in formulation and preparation of joint/combined air defense plans, policies and operation orders. Serves as member of joint/combined battle staff. Advises joint/combined commander on matters relating to employment of naval and marine forces in air defense.

Related Codes: NOBC - 8685, 8972; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8694 AVIATION MODEL MANAGER [AV MOD MGR]

Plans, coordinates and conducts the Naval Aviation Model Manager Program for a specific type/model/series of naval aircraft. Implements and oversees the program to include all training, tactics evaluation and manual coordination required for the operation of the specific type/model/series of aircraft.

Related Codes: NOBC - 8696; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8696 NAVAL AIR TRAINING AND OPERATING PROCEDURES STANDARDIZATION OFFICER [NATOPS]

Plans, coordinates, or conducts Naval Air Training and Operating Procedures Standardization (NATOPS) program. Plans and implements NATOPS program. Conducts and coordinates flight crew standardization evaluation checks. Maintains liaison with other NATOPS officers. Provides instruction in standardization doctrine. Reviews and prepares recommendations for changes to NATOPS manuals and other related publications.

Related Codes: NOBC - 8670; DOD Group - 270200 Training Administrators; Paygrades: W1-O11

PHOTOGRAPHY GROUP

8800-8899

Classifications in this group identify primary duties associated with aerial, still, underwater, and motion picture photography and with the maintenance and repair of image forming systems.

8804 MOTION PICTURE AND TELEVISION PROJECT OFFICER [MP&TV PJ]

Administers or directs production of film or television presentations for training, information, or public release. Develops production standards and policies. Maintains liaison with technical and requesting authorities, determining methods and level of presentation and ensuring accuracy and propriety of material presented. Prepares production outlines and schedules, analyzing contract proposals and specifications. Directs preparation of scripts, sets and drawings. Directs and coordinates production components including photography, narrating, recording, editing and titling. Reviews finished presentation.

Related Codes: NOBC - 8853; DOD Group - 270600 Pictorial; Paygrades: W1-O11

8853 PHOTOGRAPHIC OFFICER [PHOTO]

Administers photographic facilities attached to a naval activity. Supervises or participates in photographing and processing film, including microfilm, slides, still and motion picture films, both color and black-and-white. Analyzes and plans proposed photographic projects. Supervises photographic laboratories, establishing production schedules, procedures, maintenance standards and procurement programs. Maintains photographic negative and print files. Establishes requirements, specifications, procedures and allowances for photographic equipment and supplies. Supervises maintenance and repair of photographic equipment. Prepares photographic material logistic mobilization plans. Trains aircraft flight personnel in photographic techniques. Prepares photographic appendixes to operation orders.

Related Codes: NOBC - 88XX; DOD Group - 270600 Pictorial; Paygrades: W1-O11

GENERAL GROUP (AVIATION FIELD)

8900-8999

Classifications in this group identify primary duties associated with overall and coordinating direction of naval aircraft and aviation material programs, and with aviation duties not specifically identified in another group.

8925 AIRCRAFT MATERIAL CONTROL AND ALLOCATION OFFICER [A/C MTLCTL&AL]

Administers program to ensure qualitative adequacy of aircraft material within command. Reviews directives concerning utilization of aircraft materials, formulating policies to ensure compliance. Provides technical information concerning aircraft material and maintenance. Evaluates efficiency of aircraft material under operating conditions and recommends corrective action as necessary. Maintains material accounting records. Plans logistic needs and maintains liaison with supporting supply activities. Implements aircraft and aircraft material allowances for all aeronautical activities.

Related Codes: NOBC - 8175, 8176; DOD Group - 280100 Logistics, General; Paygrades: W1-O11

8950 AVIATION TACTICAL READINESS OFFICER [AV TAC REDI]

Directs programs to ensure effectiveness of naval aircraft and equipment. Determines military characteristics required for naval aircraft and associated equipment. Coordinates development of aircraft and aviation equipment embodying such characteristics. Initiates development, test and evaluation projects. Recommends model replacement or introduction. Maintains liaison with systems command and other services regarding air material development. Formulates tactical and operational doctrine for naval aviation.

Related Codes: NOBC - 8972, 9068; DOD Group - 240400 Aviation Maintenance and Allied; Paygrades: W1-O11

8960 NAVY AIRSPACE OFFICER [NAV AIRSPACE]

Administers Navy and Marine Corps airspace and air traffic control matters. Develops airspace flight requirements. Maintains liaison with Federal Aviation Agency and other government and civil organizations. Evaluates information on allocation and utilization of special use airspace. Maintains current files of aviation regulations, directives, charts, and flight information publications. Provides guidance concerning use of airspace. Conducts special studies as necessary.

Related Codes: NOBC - NONE; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8972 STAFF AIR TACTICAL OFFICER [STF AIR TAC]

Formulates aviation plans and directives for staff commander. Advises commander on all matters concerning aviation. Maintains liaison with air-support commander and gunnery and training officer. Assists air-support commander in controlling air-support missions such as landing, combat air patrol and antisubmarine patrol. Maintains readiness and availability records. Coordinates air and ground training with other commands.

Related Codes: NOBC - 8685, 9068; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8976 TARGET AIRCRAFT CONTROLLER [TGT A/C CTL]

Controls target aircraft, utilizing radio command control equipment. Exercises control during takeoff or landing within visual range of ground control station and maneuvers target from either a control aircraft or surface control station. Uses radar and/or telemetered data on position, track, ground speed and altitude of target aircraft to control out-of-sight flight. Supervises maintenance and repair of target aircraft, ground-handling equipment and equipment aboard control aircraft.

Related Codes: NOBC - NONE; DOD Group - 220700 Operations Staff; Paygrades: W1-O11

8995 STAFF AVIATION SAFETY OFFICER [STF AV SAF]

Provides policy guidance and direction for safety matters appropriate to particular staff. Coordinates and implements aviation safety plans, programs and regulations. Reviews accident board findings. Informs and counsels higher authority on findings of investigations, surveys and studies. Analyzes methods, practices, criteria and regulations to discover unsafe areas. Maintains intracommunity, intercommunity and extranaval liaison to further aviation safety effort. Informs higher authority on findings, conclusions and remedial recommendations for improving risk management.

9637 HUMINT MANAGEMENT [HUMINT MGT]

Principal human intelligence advisor to the Commander and Senior Intelligence Officer. Responsible for oversight and articulation of HUMINT mission set manning, training and equipping requirements. Supervises HUMINT inputs to OPLANs, OPORDs and supporting plans. Primary liaison to other HUMINT organizations.

Related codes: NOBC 9611, 9631, 9632; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9640 OPERATIONAL INTELLIGENCE OFFICER (GENERAL) [OP INTEL GEN]

Supervises the collection, processing and dissemination of intelligence of tactical and strategic value in naval and/or joint operations. Supervises the intelligence input to target programs and provides advice on mission planning and weapon selection. Supervises the preparation of intelligence estimates and intelligence annexes to operation orders and plans. Supervises maintenance of the order of battle information, intelligence plots and data handling systems. Supervises the production of intelligence reports. Coordinates reconnaissance missions and interrogations of prisoners.

Related Codes: NOBC - 9670, 9680; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9642 TACTICAL TARGETING INTELLIGENCE [TAC TGT INT]

Supports Navy surface, air, ASW units and operational staffs with targeting intelligence. Interfaces with JFACC/JFMCC targeting cells. Conducts crew briefings and debriefings, supports mission planning and weapon selection. Conducts combat assessment and contributes to recommendation to Commander. Prepares intelligence, mission and BDA reports.

Related codes: NOBC 9644; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9644 JOINT TARGETING INTELLIGENCE [JOINT TGT INT]

Supports joint targeting process with intelligence. Conducts target system / nodal analysis. Supports target guidance, allocation and force application processes. Conducts combat assessment and contributes to recommendation to Commander.

Related codes: NOBC 9642; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9646 ISR MANAGEMENT [ISR COLL MGT]

Translates Commander's information requirements into collection requirements for planning. Provides information on ISR sources and sensors and submits plans and recommendations. Conducts mission planning for organic reconnaissance assets. Interfaces with higher headquarters for planning and allocation. Manages information flow from sources/sensors through tasking, processing, exploitation and dissemination.

Related codes: NOBC 9648; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9648 ISR MANAGEMENT, OPERATIONAL/STRATEGIC [ISR OP MGT]

Provides management and control of ISR processes. Translates Commander's information requirements into collection requirements for planning. Provides information on ISR sources and sensors and submits plans and recommendations. Conducts mission planning for organic reconnaissance assets. Interfaces with higher headquarters for planning and allocation. Manages information flow from sources/sensors through tasking, processing, exploitation and dissemination.

Related codes: NOBC 9646; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9650 ELECTRONIC INTELLIGENCE OFFICER [ELINT]

Collects, processes and disseminates foreign electronic information from intelligence source materials. Maintains and updates source information on electronic order of battle, electronic countermeasures, and electronic sensors. Evaluates significant characteristics, performance capabilities and technological trends of electronic systems for offensive and defensive operational utilization. Identifies the requirement for research and development of electronic equipment for use in naval operations.

Related Codes: NOBC - 9660, 9684; DOD Group - 230200 Communications Intelligence;
Paygrades: W1-O11

9651 AUTOMATIC DATA PROCESSING INTELLIGENCE OFFICER [ADP INTEL]

Develops and supervises the application of data processing systems in Naval Intelligence programs. Develops software packages to support the Naval Intelligence ADP programs and conventional targeting to permit rapid processing, storage, collation, retrieval and dissemination of information in support of operational commanders. Advises command on computer application, capabilities and limitations. Maintains liaison with other activities within the intelligence community concerning computer systems, formatted files and preparation of modification of existing programs.

Related Codes: NOBC - 9680; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9653 NAVY SPECIAL WARFARE INTELLIGENCE [NSW INT]

Provides operational and tactical level NSW unit Commanders with intelligence. Conducts target analysis; intelligence preparation of the battle space (maritime, littoral, ground); tactical mission planning; all-source collection management, planning and fusion; briefings and debriefings. Develops and maintains liaisons across DOD Intelligence Community, select national agencies, Host Nation entities and other theater units to leverage additional capabilities in support of NSW mission. Conducts/supports combat assessments, operational capabilities analysis, provides recommendations to the Commander. Prepares intelligence, mission and BDA reports. Conducts staff officer duties as required.

Related codes: NOBC 9631, 9656; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9656 JOINT SPECIAL WARFARE INTELLIGENCE [JOINT SOF INT]

Provides SOF unit Commanders with intelligence. Conducts target analysis; intelligence preparation of the battle space (maritime, littoral, ground); support to mission planning; all-source collection management, planning and fusion; briefings and debriefings. As maritime intelligence community representative, leverages skill set, reach-back capabilities and NSW/DOD IC/Host Nation relationships in support of the SOF mission. Conducts/supports combat assessments, operational capabilities analysis, provides recommendations to the Commander. Prepares intelligence, mission and BDA reports. Conducts staff officer duties as required.

Related codes: NOBC 9631, 9653; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9658 EXPEDITIONARY INTELLIGENCE [EXP INT]

Supports Navy expeditionary combat units with operational and tactical intelligence. Assists with mission planning, develops intelligence requirements, manages requests for information and submits collection requirements. Supports mission briefing and debriefing, tactical questioning and oversees tactical intelligence missions. Conducts analysis and production to support force protection, indications and warning, threat and vulnerability assessments and targeting. Maintains Common Operating Picture (COP).

Related codes: NOBC 9631, 9653, 9656; DoD Group – 230100 Intelligence, General; Paygrades: W1-O11

9660 SCIENTIFIC AND TECHNICAL INTELLIGENCE OFFICER [SCI&TECH INTEL]

Supplies technical intelligence information concerning foreign naval materials and processes. Receives, processes and ensures timely dissemination of technical and scientific intelligence in order to keep responsible naval authorities informed concerning design, characteristics, potentialities, developments and trends of foreign naval material and related scientific and technical processes.

Related Codes: NOBC - 9650; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9670 OPERATIONAL INTELLIGENCE (MANAGEMENT) [OP INT MGT]

Provides management control of intelligence activities and establishes policy for organizational intelligence requirements. Supervises the collection processing and dissemination of tactical and strategic intelligence to support naval and/or joint operations. Oversees preparation of intelligence estimates and operational order annexes. Manages indications and warning watches, intelligence plots and order of battle maintenance. Oversees training and proficiency of subordinates

Related Codes: NOBC – 9610, 9680; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9680 OPERATIONAL INTELLIGENCE (ANALYST) [OPINTEL ANLS]

Screens and analyzes information for intelligence value in support of fleet, joint and national level operating forces and staffs. Identifies information related to indications and warning of imminent hostilities. Identifies intelligence gaps and requests collection action. Maintains order of battle, intelligence plots, data files and quality of input to intelligence systems and databases. Assures timely dissemination and reporting of intelligence data. Prepares data for incorporation into intelligence estimates, plans and orders.

Related Codes: NOBC - 9620, 9670, 9682; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9682 TACTICAL OPERATIONS INTELLIGENCE [TAC INT]

Collects, evaluates and disseminates intelligence material from multiple sources in support of deploying fleet units. Conducts crew briefings and debriefings, assists with mission planning and weapon selections, and provides SERE briefing and training. Maintains order of battle and intelligence plots. Prepares intelligence, mission and BDA reports.

Related Codes: NOBC - 9642, 9670, 9680; DOD Group - 230100 Intelligence, General;
Paygrades: W1-O11

9683 IMAGERY EXPLOITATION MANAGEMENT [IMGY TECH MGT]

Provides oversight, guidance and quality control throughout the imagery analysis process to include all source imagery interpretation, operation of digital imagery systems, providing menstruated aim points utilizing digital targeting workstations in support of Navy precision guided munitions, identification of objects with potential intelligence value, and preparation of imagery interpretation reports.

Related Codes: NOBC - 9642, 9682, 9686; DOD Group - 230100 Intelligence, General;
Paygrades: W1-O11

9684 MULTISENSOR INTELLIGENCE OFFICER [MULTISEN INTEL]

Formulates intelligence information from the evaluation and interpretation of multisensor data. Plans and coordinates multisensor collection missions. Briefs personnel on multisensor collection requirements. Produces sensor predictions for conventional and nuclear target folders and data processing systems such as the Integrated Operation Intelligence System.

Related Codes: NOBC - 9680, 9683; DOD Group - 230100 Intelligence, General; Paygrades: W1-O11

9686 ANTISUBMARINE WARFARE INTELLIGENCE OFFICER [ASW INTEL]

Prepares strategic and tactical antisubmarine warfare (ASW) intelligence estimates. Assists in the preparation of ASW operational plans and exercises. Briefs and debriefs ASW personnel and commands in the surface and subsurface order of battle of potential enemy forces. Maintains a working knowledge of United States ASW capabilities. Conducts post analysis of current ASW operations and exercises and prepares intelligence reports. Briefs and debriefs ASW air crews and functional commanders. Coordinates exercises with other fleet units.

Related Codes: NOBC - 9680, 9682, 9683; DOD Group - 230100 Intelligence, General;
Paygrades: W1-O11

9690 INTELLIGENCE SUPPORT TO CNO/CYBER [CNO-INTEL]

Applies knowledge of regional use of computers, communications, and social media to inform and advance new intelligence collection methodologies. Provides cyber intelligence to support all-source fusion and enhance Commander's situational awareness. Supports all phases of targeting cycle in support of Commander's objectives. Assists in software and firmware development for use in cyber operations. Assists in the development of threat and vulnerability assessments for DoD networks and assists in identifying appropriate countermeasures.

Related Codes: NOBC – None; DOD Group – 230400 Cyberspace Operations; Paygrades: W1-O11

9691 Cyber Staff Operations and Plans Officer [CYB STF O&P]

Develops staff-level cyberspace plans, strategies, and policies to support cyberspace operations, large scale exercises, and tactical exercises. Develops and/or implements workforce plans, strategies, and guidance to address manpower, training, and equipping requirements. Executes authorities, establishes vision and direction, manages resources, and makes risk decisions to support national, joint, and fleet cyberspace operations.

Related Codes: N/A; DOD Group- 230400 Cyberspace Operations; Paygrades: 01-06

9692 Offensive Cyberspace Operations Officer [OFF CYB OPS]

Leads the planning and execution of tactical-level offensive cyberspace operations in accordance with established policies, strategies, and doctrine. Manages personnel, training, equipment, capabilities, tools, and resources to ensure effective tactical-level operations and exercises delegated authorities, decisive direction, and risk management in execution of National, Joint, and Fleet offensive cyberspace operations.

Related Codes: N/A; DOD Group- 230400 Cyberspace Operations; Paygrades: 01-06

9693 Defensive Cyberspace Operations Officer [DEF CYB OPS]

Leads the planning and execution of tactical-level defensive cyberspace operations in accordance with established policies, strategies, and doctrine. Manages personnel, training, equipment, capabilities, tools, and resources to ensure effective tactical-level operations and exercises delegated authorities, decisive direction, and risk management in execution of National, Joint, and Fleet defensive cyberspace operations.

Related Codes: N/A; DOD Group- 230400 Cyberspace Operations; Paygrades: 01-06

9694 Cyberspace Operations Officer (CYB OPS)

Organizes the planning and execution of full-spectrum tactical and strategic cyberspace operations in accordance with established policies, strategies, and doctrine. Manages personnel, training, equipment, capabilities, tools, and resources to ensure effective cyberspace operations and exercises delegated authorities, with clear vision, decisive direction, and risk management in execution of cyberspace operations.

Related Codes: N/A; DOD Group- 230400 Cyberspace Operations; Paygrades: 01-06

9695 Cyberspace Planner [CYB PLANS]

Develops detailed cyberspace operations plans to conduct operations through collaboration with operators, analysts and external partners. Participates in target selection, validation, and synchronization to execute cyberspace actions. Collaborates across cyber teams and senior leadership to define, identify, validate, and levy intelligence and collection requirements, analytic efforts, and cyberspace effects.

Related Codes: N/A; DOD Group- 230400 Cyberspace Operations; Paygrades: 01-06

9696 Cyberspace Training Officer [CYB TRANG]

Develops, plans, coordinates, and evaluates cyber training and education requirements, courses, methods, and techniques based on National, Joint, and Fleet training guidance. Conducts training or education of personnel within the cyber domain.

Related Codes: N/A; DOD Group - 270200 Training Administrators; Paygrades: 01-06

AUTOMATIC DATA PROCESSING GROUP

9700-9799

Classifications in this group identify primary duties associated with operations, programming, analysis, and maintenance of general purpose digital computers and related peripheral equipment.

9705 ADP SYSTEM DIRECTOR [ADP SYS DIR]

Manages the ADP installation within an activity or organization. Directs and supervises the efforts of ADP installation in all functional areas including planning, programming, operations and maintenance.

Related Codes: NOBC - 9710, 9720, 9755; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9710 ADP PROGRAMS OFFICER [ADP PGM]

Directs efforts of programmers and analysts in preparing computer programs for use in various computer systems. Coordinates with other departments within activity. Maintains liaison with users of various software programs and/or reports developed and produced by command.

Related Codes: NOBC - 9720; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9720 ADP PLANS OFFICER [ADP PLANS]

Serves as ADP Plans Officer on naval staff, providing advice on computer applications, capabilities and limitations. Coordinates staff ADP applications with supporting systems. Maintains liaison with subordinate commands concerning computer systems.

Related Codes: NOBC - 9735, 9740; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9730 DATA BASE MANAGEMENT OFFICER [DATA BAS MGT]

Supervises maintenance of automated (computerized) data bases. Collects and transposes data to computer-readable format. Controls quality of input and output files. Provides for distribution of routine or special outputs to user activities. Maintains liaison with user and programmer personnel to ensure appropriate support.

Related Codes: NOBC - 9735, 9740; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9735 COMPUTER SYSTEMS ANALYST [COMPSYS ANLS]

(For STATISTICAL DATA ANALYST, see NOBC 2085) Utilizes knowledge of specific subject matter in performing systematic analyses of operations and functions. Defines problems. Analyzes data requirements and operating methods. Develops broad logic of systems. Supplies quantitative and qualitative data to digital computer programmers in form of generalized flow diagrams. Provides program parameters and/or approves computer programs. Studies and evaluates systems functions and capabilities.

Related Codes: NOBC - 9730, 9740; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9740 DIGITAL COMPUTER SYSTEM PROGRAMMER [CMPU SYS PGMR]

Effects application of developed routines to meet stated objectives. Provides for system program reliability and recovery procedures. Designs program diagnostic routines. Develops system program operating instructions, procedures and standards. Administers library program.

Related Codes: NOBC - 9730, 9735; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9745 ADP SYSTEMS MAINTENANCE OFFICER [ADP SYS MNT]

Directs installation, maintenance and repair of automatic data processing equipment or tactical data systems equipment, including peripheral equipment. Determines maintenance action required. Oversees required maintenance history reports and maintenance program routines. Suggests program changes. Supervises acquisition of ADP equipment. Maintains liaison with systems manufacturer representatives.

Related Codes: NOBC - 5925, 5977; DOD Group - 240200 Electrical/Electronic; Paygrades W1-O11

9750 ADP CUSTOMER LIAISON OFFICER [ADP CUSTMR LIA]

Serves as liaison between an ADP organization and its user commands. Identifies potential customer problems and coordinates across functional lines to resolve user problems. Performs internal quality assurance functions. Acts as focal point for customer communications. Identifies new or potential users. Develops special management programs. Coordinates mid- to long-range planning functions.

Related Codes: NOBC - 9710, 9720; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9755 SHIPBOARD NONTACTICAL AUTOMATIC DATA PROCESSING SYSTEM COORDINATOR [SNAP SYS COORD]

Coordinates the command-wide implementation, operation, configuration, maintenance, training and security of Shipboard Nontactical Automatic Data Processing (SNAP) System hardware and software. Serves as primary point of contact for all activities interfacing with the SNAP system. Responsible for allocation of SNAP resources to users.

Related Codes: NOBC - 9705; DOD Group - 270500 Data Processing; Paygrades: W1-O11

9781 ADP SYSTEMS SECURITY OFFICER [ADP SYS SEC]

Plans, organizes and supervises the overall ADP system security program for command. Manages, monitors and as appropriate, tests changes in all ADP systems to ensure system(s) security. Coordinates internal ADP security procedures, security test and evaluation programs, access control systems, security training and computer systems audit trails as related to the ADP system assigned. Maintains liaison with higher ADP security officials.

Related Codes: NOBC - 9710; DOD Group - 230300 Counterintelligence; Paygrades: W1-O11

CRYPTOLOGIC WARFARE GROUP

9800-9899

Classifications in this group identify primary duties common to Cryptologic Warfare Officers (18XX, 644X and 744X). As such, a billet coded for a 98XX NOBC must be coded with one of the aforementioned designators. Additionally, the only other NOBCs to which a 18XX, 644X and 744X billet may be associated are those identifying the billet as a Commanding Officer, Executive Officer or Officer in Charge. All CWO billets assigned to a SPECWAR Command or NECC subordinate elements as well as those working in a SPECWAR/NEIC direct support role at a NIOC or NEIC fall into the 9820 NOBC.

9805 TACTICAL CRYPTOLOGIC WARFARE OFFICER (SURFACE) [TCWO–SURF]

Supervises and manages Information Operations (IO) personnel and resources assigned to a fleet surface unit for the provision of direct support to the operational commander in the areas of Signals Intelligence (SIGINT) and IO. Serves as IO advisor to the Commanding Officer.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9811 TACTICAL CRYPTOLOGIC WARFARE OFFICER (SUBSURFACE) [TCWO–SUB]

Supervises and manages Information Operations (IO) personnel and resources assigned to a fleet subsurface unit for the provision of direct support to the operational commander in the areas of Signals Intelligence (SIGINT) and IO. Serves as IO advisor to the Commanding Officer.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9816 TACTICAL CRYPTOLOGIC WARFARE OFFICER (AIR) [TCWO–AIR]

Supervises and manages Information Operations (IO) personnel and resources assigned to a fleet air unit for the provision of direct support to the operational commander in the areas of Signals Intelligence (SIGINT) and IO. Serves as IO advisor to the Commanding Officer.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9820 TACTICAL CRYPTOLOGIC WARFARE OFFICER (SPECIAL WARFARE/IRREGULAR WARFARE) [TCWO–NSW/IW]

Supervises and manages Information Operations (IO) personnel and resources assigned to a special warfare/expeditionary unit for the provision of direct support to the operational commander in the areas of Signals Intelligence (SIGINT) and IO. Serves as IW advisor to the Commodore and Commanding Officer.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9826 CRYPTOLOGIC WARFARE OFFICER (NATIONAL) [CWO–NAT]

Supervises Information Operations (IO) personnel assigned to Combat Support Agencies (CSA)/National Agencies for the provision of direct support to CSA/National Agency missions in the areas of Signals Intelligence (SIGINT) and IO. Coordinates with other U. S. Government agencies to optimize IO and desired effects at the operational level. Analyzes and evaluates CSA/National Agency efforts in supporting Navy and Joint operations, providing direction or recommendations on means to improve support to deployed forces. Serves as Navy and Joint Advocate to CSA/National Agency leadership.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9831 CRYPTOLOGIC WARFARE OFFICER (COORDINATOR) [CWO–COORD]

Organizes available national and local Cryptologic Warfare (CW), Information Warfare (IO) and Signals Intelligence (SIGINT) assets for application to IO tasking. Ensures assigned personnel possess the correct training and skill sets required for effective mission execution. Ensures command and control mechanisms and orders contain the appropriate service-specific or coalition-specific language required for mission execution. Supervises the progression of ongoing missions and provides feedback to Commanders.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9836 CRYPTOLOGIC WARFARE OFFICER (PLANNER) [CWO–PLN]

Synchronizes, integrates, and coordinates the formulation and the preparation for the employment of Information Operations (IO), Signals Intelligence (SIGINT), and Cyberspace Operations measures in joint and fleet plans and operations. Coordinates, directs, and assesses implementation of IO within such plans. Identifies, develops, and nominates targets in support of IO planning and execution. Analyzes and evaluates plans from higher authority, commenting on their effects upon command and preparing supporting plans as required. Provides direct support to fleet staffs and their subordinates for their tactical IO planning, implementation, and assessment. Represents the commander in collaboration with other services and government agencies in developing and synchronizing IO within plans, at the operational level, to achieve the commander's objectives and desired end state.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O6

9841 CRYPTOLOGIC WARFARE OFFICER (STAFF) [CWO-STAFF]

Advances Cryptologic Warfare (CW), Signals Intelligence (SIGINT), Cyberspace Operations, and Information Operations (IO), and oversees the utilization and development of IO capabilities through effective manning, training, and resource allocation within and beyond his/her command. Tracks readiness, training status, funding, equipment, and/or requirements for IO and IO-related issues, organizations, working groups, cells, and personnel. Influences IO strategy, policy, readiness and/or requirements throughout the IO workforce.

Related Codes: NOBC - NONE; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O7

9890 COMPUTER NETWORK OPERATIONS [CNO-OPS]

Applies operational and technical expertise and executes computer network exploitation, attack and defense tactics, techniques and procedures. Analyzes plans, directs, and conducts computer network exploitation and attack. Analyzes threats, intrusions and attacks against DoD networks. Plans and executes computer network defense responsive actions.

Related Codes: NOBC - None; DOD Group - 230200 Communications Intelligence; Paygrades: W1-O11

9891 COMPUTER NETWORK CAPABILITY DEVELOPMENT [CNO-CD]

Applies principles and techniques of computer science and computer engineering to research, design, develop, test, and evaluate software and firmware for computer network attack, exploitation, and defense in cyberspace operations.

Related Codes: NOBC - None; DOD Group - 230200 Communications Intelligence; Paygrades: W1-O11

GENERAL GROUP (NAVAL OPERATIONS FIELD)

9900-9999

Classifications in this group identify primary duties associated with determination of major policy within the Navy, overall and coordinating management of the Naval Establishment, and duties not specifically identified in another group.

9905 ATOMIC ENERGY PLANS AND POLICIES OFFICER [ATOM P&P]

Assists in policy direction and control in regard to particular phase of atomic energy program. Formulates, evaluates and recommends policies governing efforts in regard to particular phase of atomic energy such as conduct of tests, nuclear power projects, weapons development, or radiological defense. Keeps interested activities informed and maintains liaison with appropriate military and other government agencies concerning atomic energy applications and radiological defense.

Related Codes: NOBC - 9970, 9980; DOD Group - 210200 Executives, N.E.C.; Paygrades: W1-O11

9920 EXAMINER, REACTOR SAFEGUARDS [EXM REACT SFGD]

Establishes and maintains reactor safeguards examination system on command level. Determines by examination the state of training of personnel assigned responsibility for supervision, operation and maintenance of a nuclear propulsion plant. Witnesses and evaluates the conduct of propulsion plant drills. Evaluates adequacy of reactor safety training, procedures and records. Inspects material condition of the propulsion plant. Reviews and evaluates completeness and accuracy of ship's records relating to the propulsion plant. Submits prescribed reports.

Related Codes: NOBC - 9371, 9372, 9392; DOD Group - 241000 Safety; Paygrades: W1-O11

9930 EXECUTIVE ASSISTANT [EXEC ASST]

(For use on billets, see NOTE)

Coordinates activities of staff assistants to a senior civilian (secretarial level) or military official. Organizes, plans and controls administrative matters, ensuring submission of completed staff work to the official. Serves as principal contact point for the official and controls appointments. Advises and assists the superior in consideration of policies and problems. Provides answers to inquiries of policy and nonpolicy nature when superior's views are known. Performs liaison with other offices.

PART D

ADDITIONAL QUALIFICATION DESIGNATION (AQD) CODES

1. General

a. Additional Qualification Designation (AQD) codes enhance billet and officer designator codes by identifying more specifically the qualifications required by a billet or a unique qualification awarded to an incumbent through service in the coded billet.

b. The AQD structure:

(1) Identifies additional qualifications, skills, and knowledge required to perform the duties and/or functions of a billet beyond those implicit in the billet designator, grade, NOBC, or subspecialty;

(2) Where specifically noted, identifies billets that provide unique qualifications for the billet incumbent; and

(3) Facilitates retrieval of management information required to support more precise officer personnel planning.

c. The AQD codes consist of three characters, either alpha-numeric or all-numeric. The first character identifies a broad occupational area closely related to the designator. The second character specifies the type of qualification within the occupational area. The third character further defines the qualification.

2. Application

a. Billet AQD. When applied to a billet on a manpower authorization, the AQD code generally identifies a requirement for skills and knowledge needed to perform the duties and/or functions of a billet additional to those identified by the billet designator, grade, NOBC, or subspecialty. The AQD generally indicates a requirement for an officer who has attained special qualifications through training and/or experience.

b. Officer AQD. When entered in an officer's record, the AQD code identifies the attainment of skills and knowledge, as recognized by competent authority, in addition to those identified by the officer designator, grade, NOBC, or subspecialty.

3. Assignment

a. Billet AQD. Cognizant sponsors in liaison with activities and Budget Submitting Offices are responsible for identifying billets to be coded with selected AQD codes.

b. Officer AQD. Cognizant Bureau of Naval Personnel assignment officers, in coordination with placement officers, are responsible for ensuring AQD codes are assigned to officers so the officers' records are reflective of all qualifications and skills achieved. In some cases, the codes are awarded only when approved by administrative board action. In specific cases, where the billet AQD represents a qualification attained by virtue of service in that billet, the AQD will be automatically awarded to the incumbent upon his/her detachment from the billet.

c. Some officer AQD codes are only valid for a specific period. These codes identify skills or knowledge that are perishable and will require some form of recertification prior to being re-awarded.

4. AQD Primary and Auxiliary Consultants

a. Consultants, in conjunction with BUPERS-3 Officer Community Managers, are required to review and update their respective portions of the AQD manual at least every five years in accordance with the established NOOCS procedures outlined in this manual. This will serve to maintain optimum usage, quality, and currency of these classification elements.

5. Criteria for Establishment and Retention of AQD Codes. For establishment and retention within the AQD structure, an AQD code should meet the following criteria:

- a. It does not duplicate an existing code.
- b. It has practical application in personnel planning, control, career management, and training.
- c. It identifies additional qualifications, skills, and knowledge required by the duties and functions of the billet, peacetime and mobilization, and/or additional knowledge, skills, and qualifications attained by officers, both active and inactive.
- d. It must identify qualifications, skills, and knowledge that cannot be identified by a designator, grade, NOBC, or subspecialty code.
- e. It identifies a minimum of 15 billets or 15 officers.

6. Guidance for Submitting a Proposal to Establish, Disestablish, or Revise AQD Codes

a. Commands recommending the establishment, deletion, or revision of AQD codes must ensure proposals meet the AQD criteria listed in paragraph 5.

(1) Proposals to establish or revise AQD codes must be submitted as endorsed letters and include the following information. Proposals to revise AQD(s) should include all the items below but may state “no change” for those items that are the same as the existing AQD(s).

- (a) Recommended code number.
- (b) Titles for second and third AQD characters.
- (c) Billet detailing requirements. Indicate whether or not billets have been coded to require an officer who has earned the AQD. The description should include special notes as appropriate.
- (d) Officer awarding criteria. Specify whether the AQD is earned by course completion, certification, successful completion of a tour in a qualifying billet, or a combination thereof. If a tour must be completed, identify minimum length of tour.
- (e) Length of validity. Specify whether or not the AQD expires or is indefinite. If it expires, include (1) the time period for which the AQD is valid and (2) any recertification requirements.
- (f) Designators that can hold the AQD.
- (g) Minimum and maximum Grades.
- (h) Statement as to whether the AQD is for Active Only, Reserve Only, or Active and Reserve.
- (i) Primary consultant(s).
- (j) Auxiliary consultant(s).
- (k) Funding implications. Resource Sponsor endorsement must accompany all proposals that have lasting funding implications. ***ALL funding implications MUST be clearly stated as PROGRAMMED/APPROVED.***
- (l) Cost Analysis. This includes two separate calculations, one for the per diem cost in dollars for students attending the course and one for the effect on students IA in terms of Manpower Personnel Navy (MPN) in man-years. These calculations should include all net changes to training courses that are associated with changing or establishing a new AQD. Calculate the per diem cost by multiplying the expected annual throughput of students by

the course length in days (including weekends) and by the per diem rate for the course location. Use the per diem rate listed at <https://www.defensetravel.dod.mil/site/perdiemCalc.cfm>. Calculate the MPN in man-years for students in the IA by multiplying the expected annual throughput of students by the course length in days (including weekends) and dividing by 365.

Annual Per Diem Cost (\$) = # Students per Year * # Days in Course * Per Diem Rate
MPN (man-years) = # Students per Year * # Days in Course / 365

NOTE: For some courses, the number of students in the first year will be much higher than the expected steady state throughput in order to get the initial batch of personnel trained. If this is the case, provide per diem and MPN calculations for first year and for out years.

EXAMPLE: A new course is created to train operators on a new piece of equipment. There will be 300 students in the first year and 100 students annually after that. The course lasts 19 days (15 days of training plus 4 weekend days). The course is held in Norfolk, VA (per diem rate is \$149).

First year per diem cost = $300 * 19 * \$149 = \$849,300$.

Out year per diem cost = $100 * 19 * \$149 = \$283,100$.

First year MPN = $300 * 19 / 365 = 15.6$ man-years.

Out year MPN = $100 * 19 / 365 = 5.2$ man-years.

- (m) Number and location of billets by activity type that will be identified by the proposed AQD.
- (n) Information on how the qualifications are presently identified.
- (o) Justification as to why existing billet descriptors (i.e., NOBC or SSP codes) are insufficient.
- (p) Point of contact (include telephone (commercial and DSN) numbers and e-mail address).

(2) A code table must be enclosed with each proposal and should be prepared per the template at the end of this section.

(3) Proposals to disestablish AQD codes must be submitted as endorsed letters and include the following information: (1) reason(s) for deletion (e.g., qualifications duplicated by existing designator, sufficiently identified by means other than AQD, or insufficient requirements reflected on manpower authorizations) and (2) other information necessary for prudent consideration at each level of review.

(4) Due to data integrity over time and the risk of future personnel misrepresentation, best practices mandate that classification elements are not to be reused once they are disestablished. To this end, deleted or disestablished AQDs will not be reused at any time unless they are reestablished under the same criteria and guidelines as previously published.

b. Submit proposals to the address listed in the introduction of this volume. After approval of a proposal, the originator must:

(1) Coordinate with Budget Submitting Office(s) (BSOs) to ensure Total Force Manpower Management System (TFMMS) package(s) are submitted with Billet Change Requests (BCRs) to implement changes.

(2) Liaise with NAVPERSCOM (PERS-4) to ensure officers receive codes for assignment completed prior to code establishment.

						<u>How is the AQD awarded?</u> Explain whether the AQD is awarded by course completion, certification, successful completion of a tour in a qualifying billet, or a combination thereof. If a tour must be completed, identify minimum tour length. If available to Reserve Component Officers, specify Reserve-specific awarding criteria and awarding authority. <u>Applicable Designator(s)?</u> <u>Applicable Grade(s)?</u> If grades are different for various designators, break out the grades for each designator. <u>Length of validity?</u> Does the AQD expire? If not, use “Indefinite.” If so, identify timeframe/recertification requirements. <u>Manpower Type?</u> Is this AQD for Active Only, Reserve Only, or Active and Reserve?	(Option 1) If the AQD is required prior to assignment to designated billets, then use the language: “Billets coded with ____ require an officer who has previously been awarded the ____ code prior to reporting to ultimate duty assignment.” (Option 2) If an AQD is <u>NOT</u> required in the performance of duties for designated billets, but is to be assigned only after successful completion of a minimum tour length in qualifying billets, then the AQD will be used for tracking purposes only. In this case, annotate this block “N/A.” <u>Applicable Designator(s)?</u> <u>Applicable Grade(s)?</u> If grades are different for various designators, break out the grades for each designator.	<u>Primary:</u> <u>Auxiliary:</u>

ACQUISITION
First Character: A

The Acquisition section has undergone significant revisions from its previous format. The only acceptable AQD code combinations are as indicated in the table. Combinations using the old format are invalid or not allowed due to policy and expected career progression.

All acquisition codes are required to be identified and managed by the Defense Acquisition Workforce Improvement Act of 1990 (DAWIA).

FIRST CHARACTER (always "A" for acquisition codes). Used to identify acquisition related requirements in billets and earned certifications in officer records.

SECOND CHARACTER (relates to the DAWIA career field). Used to identify the specific acquisition career field as referenced by the ASN(RDA) DAWIA Operating Guide.

THIRD CHARACTER (indicates assignment responsibility and officer certification level).

- For assignment responsibility: Used to identify whether the assignment is a key leadership position ("K") (assignments requiring special attention with regard to qualifications, accountability, and tenure), critically coded ("C"), or non-critically coded ("N"). Refer to ASN(RDA) DAWIA Operating Guide for specific criteria for placement in billets.

- For officer certification level: Used to indicate the level of certification obtained by the officer ("1, 2, 3 or 4").

LINE OFFICER SHORE ASSIGNMENT

First Character: C

AQD Codes having a first character "C" are used to identify select billets, officer experience, billet requirements, and other qualifications pertaining to the Line Officer in shore assignments. "C" series codes that end with a number 1-6 that number corresponds to billet grades O-1 through O-6 or W1 to W5.

These AQD codes are assigned to officers by PERS-4 and assigned to billets by N12.

*NOTE: Part D of the manual is currently undergoing a complete revision in terms of content and format, specifically regarding the code tables. Please make note of the new template for establishment and revision requests. Additionally, due to existing AQD code tables in their previous formats, there are cases where the AQD order does not follow logical alpha-numeric sequencing. Please ensure you view the entire section for completeness when searching for a specific AQD as it may be out of sequence until the entire manual can be formatted appropriately.

AQD codes having the first character "J" are used to identify selected billets, officer experience, billet requirements, and officer qualifications pertaining to the joint duty/joint qualification field.

Assignment or modification of the "JD" series AQD codes on billets must contain Chief of Naval Personnel (PERS-4) concurrence. Assignment or modification of the "JS" series AQD codes on personnel must contain (PERS-450) concurrence.

These AQD codes are assigned to personnel by PERS-4, PERS-46 or PERS-92 and assigned to billets by N12 and PERS-4.

SURFACE WARFARE
First Characters: K & L

"K" and "L" AQD codes are assigned to billets by N12.

First Character: K

These AQD codes are assigned to personnel by PERS-4, except for the "KD" series AQD codes which may only be assigned or modified by the Nuclear Surface detailer.

UPDATED FORMAT

KD series AQD codes may only be assigned or modified by the Nuclear Surface detailer in the case of officer. AQD codes KD1, KD2, and KD4 are considered as primary AQDs with respect to other AQD qualifications when assigned to an individual.

FINANCIAL MANAGEMENT

First Character: N

AQD codes having the first character "N" are used to identify Financial Management qualifications. Primary positions reflect NOBC classifications and, as with NOBC, are general descriptions of duties performed. These definitions are not meant to cover every duty required nor every duty necessarily a requirement of the billet. NOBC coding provides identification of scope and nature of duties and is provided to aid in billet and AQD coding.

* X is replaced by the number 1 through 9 to correspond to cumulative units of experience assigned based on the list published on the HR website (<http://www.npc.navy.mil/Officer/Pers44/HumanResources>). Since it is possible to develop skills in multiple specialty areas during one assignment, officers will be assigned 2 units to document experience gained in the primary specialty area during a tour and 1 unit to document experience gained in a secondary specialty area during the same tour.

** The assignment of experience units to billets is accomplished by the HR Board of Directors and approved by the HR Executive Board. This list of primary and secondary units will be available on the HR website.

*** The 3rd digit of the Officer's AQD must be greater than or equal to the 3rd digit of the AQD on the billet.

SUBMARINE WARFARE

First Character: S

AQD codes having the first character "S" are used to modify select billet requirements and officer qualifications pertaining to submarine and related warfare specialties.

These AQD codes are assigned to billets by N12 and to personnel by PERS-4.

The second character "N" may only be assigned or modified by the nuclear submarine officer detailee in the case of officers.

The second character "U" is used to indicate an officer who has qualified in submarines after designation as a 14XX.

ROBOTICS AND AUTONOMOUS SYSTEMS

First Characters: Z

AQD codes having first character "Z" are used to indicate select, officer experience, billet requirements, and other qualifications pertaining to RAS assignments.

These AQD codes are assigned to officers by PERS-4 and assigned to billets by N1.

PROFESSIONAL DEVELOPMENT (GENERAL)

First Characters: 1 & 2

AQD codes having the first character "1" and "2" are used to reflect additional professional qualifications acquired through performance or training in the functional area (second character). 1st character 2XX Scholarship is defined as knowledge acquired by study through academic attainments, or funds/benefits granted to a student based on merit to pursue studies. Qualifications are additive to and are not inherent in an individual's designator, subspecialty or NOBC but require identification for tracking or other management purposes.

The 11X numeric AQD codes are assigned to personnel by PERS-4 and NETC.

The 2XX AQD codes are assigned to personnel by PERS-4.

LEGAL SERVICES

First Character: 4

AQD codes having the first character “4” are used to modify officer designators when the officer is a lawyer, bar admitted. The second and third characters are composed of the two-letter state abbreviation to identify the state/territory of bar admission. The Legal Services AQD codes are assigned to personnel only, they are NOT assigned to billets. Assignment to officers is made by PERS-4.

CHAPLAIN CORPS (CHC)

First Character: 5

Most AQD codes beginning with "5" designate the officer as a member of the CHC. The second character identifies the religious heritage grouping, while the third character denotes the specific DoD-Listed Religious Organization by which a CHC officer is endorsed.

The Chaplain Corps AQD codes are not assigned to billets. They are assigned by N097 only to Chaplain Corps officers.

HEALTH CARE SERVICES

First Character: 6

AQD codes having the first character "6" are used to modify billet and officer designators of the Medical Department officer communities when the billet requirements/officer qualifications pertain to the health care services specialties. The highlighted items in this section indicate AQDs that have been reformatted to be in compliance updated code table format.

These AQD codes are assigned to officers by PERS-4/BUMED and assigned to billets by N12.
