

APPENDIX B

SHIP AND STATION CODES

EXPLANATORY INFORMATION

a. Ship and Station codes are used in conjunction with NOBCs to identify the type of ship or activity where an officer's qualification or experience, identified by an NOBC, was acquired. They consist of a two-digit number with an alphabetical suffix. The two digits identify a broad category of ships or activities and the suffix (except "Z") indicates a specific type within the broad category; for example, "21" identifies Heavy Cruisers and "21C" identifies Guided Missile Cruiser (CG). The suffix "Z" identifies a ship or station within the broad category but not elsewhere classified (n.e.c.) in that category.

b. The Ship and Station code structure is published herein.

NOTE: Codes identifying ships and activities which have been deactivated are retained within this code structure so that occupational data previously entered in officer automated records may be interpreted.

c. Questions or information concerning the Ship and Station codes should be directed to Chief of Naval Personnel (PERS-3333).
