APPENDIX C

SERVICE SCHOOLS

1. Maintenance of Service Schools Data in Officer ADP Records

    a. Completion of a maximum of five service schools is recorded in the automated record of each officer. The duration of each course in weeks, and the month and year of completion are also recorded.

    b. Courses are listed in this manual by title within subject groups. For each course, the three-digit code, training activity, location, course numbers, period for which graduates are recorded, duration, and titles of superseded or related courses are indicated. Cross references to courses listed in other subject groups are found at the end of each group.

    c. Not all courses are listed on the Officer Data Card. Course completions in automated records are generally limited to those which are of substantial assistance in detailing and planning functions within the Bureau of Naval Personnel. Many significant courses are purposely omitted because they are basic to officer professional development, or because the utilization of the training is the responsibility of the graduate's subsequent commanding officer. Team, refresher, indoctrination, orientation, and most fleet training are omitted for the foregoing reasons. However, information concerning all courses completed is available in the Officer Service Record, NAVPERS 1070/66, and in BUPERS microfilmed officer records.

    d. Courses not offered currently, but for which automated information pertaining to graduates is available, are indicated by an asterisk (*).

    e. Except for certain staff courses, courses completed prior to 1946 are not recorded.

    f. Diplomas or certificates of satisfactory completion for some courses may be issued to Navy officer faculty members who, by virtue of their work as instructors and by study, have attained knowledge equivalent to that required of a student for graduation. When recording course completions of this type, duration of the course is shown as "00."

    g. Navy-sponsored graduate courses, administered by the Superintendent of the Naval Postgraduate School, Monterey, CA are identified separately from service schools.

2. Responsibility for Reporting Graduates of Service Schools

    a. The value of service schools data in officer ADP records is dependent upon the accurate and timely submission of graduation reports required of training activities as outlined in the Naval Military Personnel Manual, Article 5020220. Training activities should utilize the Graduation Report - U.S. Navy Officers (NAVPERS 1520/1) (BUPERS Report 1520-7). Supplies of NAVPERS 1520/1 can be requisitioned from Naval Supply Centers, Norfolk, VA and Oakland, CA.

    b. To speed the processing of service schools information, training activities should:

        (1) Submit NAVPERS 1520/1 monthly or as classes graduate, whichever is advantageous to the reporting activity's operations (see NOTE on next page).

        (2) Submit an original only.

        (3) List USN and USNR officers only; not foreign officers or officers of other services.

        (4) Use separate forms when reporting more than one course and when reporting reserve officers performing active duty for training (indicate ACDUTRA).

        (5) List officers graduated during the period of the report only, as indicated by the dates in the upper right hand corner of the report (i.e., DATE OF THIS REPORT and DATE OF PREVIOUS REPORT).

        (6) Indicate and provide revised course information if the title, location, or duration of a course, as listed in this manual, has changed.

        (7) Provide an explanation if COURSE LENGTH indicated for a graduate differs significantly from the COURSE LENGTH published in this manual.

c. If NAVPERS 1520/1 is not readily available, letter reports of service school graduates may be made to the Chief of Naval Personnel (PERS-331) in accordance with the instructions set forth in paragraph 2.b. Graduates should be listed on 8 1/2 x 11 sheets of paper with the following data:

    (1) Course Title and Number

    (2) School and Location

    (3) Social Security Number/Designator/Name/Grade

    (4) Course Convening Date

    (5) Course Completion Date

    (6) Course Length

    (7) Date of Previous Report

    (8) Name/DSN Number/Extension of Reporting Officer

3. Questions. Questions concerning the system for reporting or recording service schools data published in APPENDIX C should be submitted to the Chief of Naval Personnel (PERS-331).

NOTE: CNETINST 1510.1 series outlines reporting procedures for the Navy Integrated Training Resources and Administration System (NITRAS).

LANGUAGE COURSES

   When an officer completes Navy-sponsored training in a foreign language, the language abbreviation and level of
proficiency are recorded. Unlike other service schools, the title of the course, its duration, and the date of
completion are not recorded; however, information concerning attendance is in the Officer Service Record,
NAVPERS 1070/66, and in the record of the officer in the Bureau of Naval Personnel.

   Language centers submitting language proficiency reports to the Chief of Naval Personnel include:

        Defense Language Institute, East Coast Branch, Washington, DC
        Defense Language Institute, West Coast Branch, Monterey, CA

   APPENDIX A describes in detail the system for recording language qualifications in automated records.
