SDIP ELIGIBILITY CHART

SDIP payments are received in a lump sum. The lump sum is calculated by multiplying the SDIP monthly rate by the number of additional months a Sailor agrees to serve at sea in the SDIP contract.

Sailors attached to UIC 41342, OPNAV SDC Point Mugu, are authorized to receive SDIP

SEM, ARA, A2P, CA2P Sailors of all ratings who were selected for promotion via one of these programs are not authorized this incentive until they have served and completed their promotion tour.

Sailors requesting SDIP for squadron assignments must ensure that the squadron is operational and has aircraft assigned to it. If a sailor is stationed at a non-operational squadron or the squadron does not have aircraft assigned, they are not eligible for SDIP.

Sailors requesting SDIP for assignment as ship's company to a Naval Vessel must ensure that the vessel is commissioned. If a sailor is stationed on a commissioning, decommissioning, decommissioned vessel, or is not part of ship's company, they are not eligible for SDIP.

If a sailor is assigned to an eligible command that undergoes a homeport change after the execution of an SDIP contract—whether to a higher-paid or lower-paid area—their SDIP payment will remain based on the original contracted rate at the time of contract execution.

All requests will be adjudicated but not approved until the Sailor is posted to a billet.

SDIP and BBA business rules:

Notes:

1. For Sailors in active duty billets only.
2. For Sailors in FTS billets only.
3. Operational Billets only for L02A and L28A.
4. First tour CMDCM, CMDCS, and COB are ineligible (Delegation of authority to authorize payment for special duty incentive pay exception to policy request ICO Command Senior Enlisted Leaders)
5. For Sailors permanently assigned a commissioned and submarine.
6. To include operational NSW billets.
7. Sailors with NEC L02A, L28A, and L01A must be assigned to billets designated as L10A, L01A, L02A, or L28A to be eligible.
8. NEC attached to the billet will determine eligibility for Sailors holding NEC L02A, L28A, and L01A
