EMAIL:MEGAN.A.GHRIST.CIV@MAIL.MIL //

RMKS/1. The purpose of this message is to publish that the Account Management and Provisioning System (AMPS) is actively purging all legacy Defense Workload Operation Web System (DWOWS) System Authorization Access Request (SAAR) forms now that access provisioning has successfully migrated to Identity, Credential, and Access Management System (ICAM).

2. Please be advised that the automated SAAR notifications you may have received from AMPS regarding DWOWS access removal are strictly informational and require no action. You may disregard these automated messages, as there is no actual loss of access to the system and your current DWOWS permissions remain intact through ICAM.

3. Request widest dissemination.
